The Reagan Center

Reagan Center is a massive 110-acre master-planned mixed-use development located on the former Flea World site in Sanford, Florida, designed to bring hundreds of residential units, commercial space, and retail to the U.S. 17-92 corridor. When the original Flea World closed its doors in 2015 after decades of operation, the land was willed to the Boys & Girls Clubs of Central Florida, meaning that the ongoing multi-million dollar land sales directly fund local youth programs.

Phase 1 of the project is set to break ground in 2026, and will focus strictly on the southwestern edge of the master plan. An \$85 million luxury Class A residential development being built by Dallas-based developer JPI, in partnership with Integra Land Company and Panther Residential Management.

The remaining acreage is broken into individual parcels that are currently being actively marketed or negotiated for secondary phases. Goodwill has submitted pre-applications to the county to secure 14 acres along the highway corridor. Their proposal outlines a massive logistics and retail hub featuring a 30,000-square-foot retail store alongside a 150,000-square-foot building split into warehouse, regional offices, and additional retail space.
