## RAIL SERVED TAMPA INDUSTRIAL DISTRIBUTION AND MANUFACTURING

9508 N Trask St, Tampa, FL 33624

### RAIL SERVED WAREHOUSE AND YARD

- Shipping by freight offers a multitude of advantages for business and industries all over the world. Rail transportation is a safe and cost efficient way to transport all types of cargo. Here in Tampa Florida specifically, rail-served facilities offer a centralized location for global trade along with easy access to the rest of the United States. In addition to railways, our area also offers convenient access to some of the nation's largest seaports and airports. It truly is a shipping mecca!
- Some warehouses are traditionally rail-served with direct access to a main line, allowing products to be loaded/unloaded on site. Other warehouses offer an alternative form of access via rail intermodal terminals. This form of shipping incorporates multiple modes of transportation to move products (both domestically and internationally) through a mixed use of trains, trucks and ships. Here in Florida there are two companies that play a crucial role in the transportation of products by rail: CSX and Florida East Coast Railway (FECR).
- CSX is a leading transportation supplier that serves some of the largest population centers in the nation. As a Class 1 railroad, the CSX network encompasses about 21,000 route miles of track in 23 states and into parts of Canada. CSX provides traditional rail service as well as the transport of intermodal containers and trailers
- Florida East Coast Railway (FECR) is a 351-mile freight rail system that runs from Jacksonville to Miami. Its mainline corridor offers major interstate and turnpike access, allowing FECR to move an array of products across the state.
