## FAST FACTS

In just over 50 years, UCF has rapidly grown to become the 2nd largest university in the country. As of 2020, UCF has a student population of over 71,948 students. In addition to the student population, UCF has 11,074 employees. Over 120,000 UCF alumni live and work in central Florida.

Located just 13 miles from downtown Orlando, UCF is conveniently accessed primarily by the main entrance located at the intersection of University Boulevard and Alafaya Trail. This is right at the front door to Plaza on University.

UCF not only provides world class education and research opportunities, but also serves the greater community by producing over 300 major events every year driving hundreds of thousands of people to the area from central Florida and the greater United States.

Events include home football games in a 45,000 seat stadium, home basketball games and concerts held in a 10,000 seat arena and a wide range of other events hosted throughout the campus targeted at college students and full-time residents.

UCF can attribute part of its rapid growth to partnering with Valencia State College and Seminole State College, two of the largest community college systems in the country. UCF partnered with both of these systems through a direct-connect program providing guaranteed admission to UCF after earning an Associate's Degree. All three of these higher education systems feed the economic engine in east Orlando and thus drive the demand for student housing and retail.
