- 1 2. ~~Objectives. The provisions of the MD district are intended to:~~
- 2 a. ~~Encourage such development to locate in close proximity to the community's major~~
- 3 ~~transportation arteries so as to provide maximum accessibility for emergency vehicles and~~
- 4 ~~the general public.~~
- 5 b. ~~Discourage encroachment by unrelated retail and office activities and other incompatible~~
- 6 ~~uses.~~
- 7 c. ~~Ensure through development plan review that development is undertaken in a manner~~
- 8 ~~compatible with less intense uses of land or buildings in the area.~~

9 ~~F. *Planned Development (PD)*. See Article III.~~

10 G. *Public Services and Operations (PS)*.

11 1. *Purpose.* The Public Services and Operations (PS) district is established for the purpose of

12 identifying and providing suitable locations for the necessary public and private utility, public-

13 private partnerships or other legal arrangements where the land title is vested in a government

14 and the use(s) serves a public purpose, and recreation activities that serve and are used directly

15 by the public for their own benefit and are necessary to the normal conduct of the community's

16 activities. This district may be isolated and surrounded by any other zoning district compatible

17 with the intended use of the facility.

- 18 2. *Objectives.* The provisions of the PS district are intended to:
- 19 a. Accommodate utilities, recreation and public facilities, at appropriate locations, necessary
- 20 to serve the public.
- 21 b. Ensure public awareness of the location of existing or potential utilities, recreation and
- 22 public facilities.
- 23 c. Ensure, by requiring development plan review where necessary, that such uses are designed
- 24 to minimize negative impacts on surrounding properties.

- 25 3. *Additional requirements.* The following criteria shall apply to all uses within the PS district:
- 26 a. *Site design.*
- 27 i. Building scale and massing shall relate to that of adjacent buildings to the extent
- 28 practical.
- 29 ii. Public developments shall be exemplary in their use of signage and landscaping and in
- 30 the preservation of existing trees.
- 31 iii. Pedestrian areas shall be separated from vehicular areas wherever possible. Traffic
- 32 circulation should be safe, convenient and designed according to sound engineering
- 33 practices.
- 34 iv. The design of the site and facilities shall promote energy conservation through proper
- 35 solar access, shading and other measures, where appropriate.
- 36 v. Appropriate access for emergency vehicles, garbage trucks and other service vehicles
- 37 shall be provided.
- 38 vi. All site elements shall be designed to protect natural and community resources, such as
- 39 wildlife habitats, historic structures and ecologically sensitive areas.

1 b. *External compatibility.*

- 2 i. Buffering and screening of public service facilities shall be provided commensurate with
3 the facility's degree of impact and incompatibility with surrounding developments.
- 4 ii. Electrical transformers and other utility equipment shall be screened from public view.
- 5 iii. Site illumination and public address systems, particularly for recreation areas, shall be
6 designed so as to create no interference with the privacy of adjoining properties.
- 7 iv. Adverse impacts on adjacent properties, such as noise, smoke, glare and odor, shall be
8 mitigated through site design. Where necessary, building construction methods or
9 mechanical equipment should also be used to mitigate these adverse impacts.

10 c. *Preliminary development plan in conjunction with rezoning.* When a property is rezoned to
11 the PS district, the plan board shall recommend to the City Commission whether a
12 preliminary development plan is required before the property is rezoned or the uses
13 permitted on the property are changed. The City Commission may require such
14 development plan, or those specific items or portions of a preliminary development plan
15 that the City Commission deems necessary, to be included as part of any petition to rezone
16 property to this classification or to change the permitted uses on the property if the newly
17 permitted use has not been previously approved. Should the City Commission deem a
18 preliminary development plan is needed to judge whether the proposed use can be
19 accommodated on the site without detriment to the health, safety and general welfare of
20 surrounding properties, the development plan shall meet the requirements of this chapter.

21 A preliminary development plan is intended to help further the purpose of this district by
22 providing the plan board and City Commission with additional information on site-specific
23 conditions that will assist the City Plan Board and City Commission in their decision-making
24 process relating to the accommodation of the proposed use(s) at appropriate locations
25 necessary to serve the public; the assurance of public awareness of the proposed location of
26 potential public facilities, utilities and recreation; and the assurance that the conditions
27 placed upon the rezoning are designed to minimize any potential negative impacts on
28 surrounding properties.

29 **Section 30-4.23. Permitted Uses.**

30 The following table contains the list of uses allowed, and specifies whether the uses are **allowed by right**
31 **(P)**, **accessory to a principal use (A)**, or by **special use permit approval (S)**. Blank cells indicate that the
32 use is not allowed. No variances from the requirements of this section shall be allowed.
