

**CANTERBURY, NH**  
**Aquifer & Groundwater Protection District**  
 March 2012

- Legend**
- Aquifer & Groundwater Protection District
  - Stratified Drift Aquifer
  - Parcel Boundaries
  - Roads
  - Interstates
  - Class I, II, IV State Maintained Highways
  - Class V Town Maintained Roads
  - Class VI Unmaintained Roads
  - Private and Recreational Roads
  - Town Boundaries

Data Source: Aquifer Transmissivity, NH Hydrology; Parcel Data, ponds, rivers, and streams, and potential aquifer recharge from NH GIS (2011) from the Department of Environmental Services; Municipal Boundaries, NH GIS (2011) from the Town of Canterbury; Prepared by: E. Cartwright Associates, Inc. Parcel Boundaries are shown for reference and planning purposes only, and do not represent legal ownership determinations.

Aquifer boundaries are defined from a study by the US Geological Survey, in cooperation with the New Hampshire Department of Environmental Services, and are shown for reference and planning purposes only. The study is available at <http://www.nh.gov/DES/groundwater/groundwater.htm>. The study includes all areas with an estimated transmissivity greater than 10 feet squared per day.

Map created by the Canal Non-Hazardous Regional Planning Committee (CNHRC) for the Town of Canterbury, NH, December 2011.
