This summary has been prepared by Hold Thyssen, Inc. for use by a limited number of parties and does not purport to provide a necessarily accurate summary of the Property or any of the documents related thereto, nor does it purport to be all-inclusive or to contain all of the information which prospective investors may need or desire. All projections have been developed by Seller, Hold Thyssen, and designated sources and are based upon assumptions relating to the general economy, competition and other factors beyond the control of Seller, and therefore are subject to variation. No representation is made by Seller or Hold Thyssen as to the accuracy or completeness of the information contained herein, and nothing contained herein is, or shall be relied on as, a promise or representation as to the future performance of the Property. Although the information contained herein is believed to be correct, Seller, Hold Thyssen and its employees, disclaim any responsibility for inaccuracies, and expect prospective purchasers to exercise independent due diligence in verifying all such information. The bearer of this property summary agrees that neither Hold Thyssen, Inc. nor the Seller shall have any liability for any reason to any Potential Purchaser or Related Parties resulting from the use of this property summary.

NOTE: THE PROPERTY IS BEING OFFERED "AS-IS, WHERE-IS AND WITH ALL FAULTS WITHOUT ANY FURTHER WARRANTY OR REPRESENTATION WHATSOEVER".

PROPERTY SUMMARY

19.75 acres (MOL) within the City of Port Richey, Pasco County, Florida. The property is predominantly composed of tall pine forest with several natural ponds scattered throughout the parcel. City water and sewer utilities run parallel to the eastern boundary. A sewer lift station is located to the NW corner of the property within the Old Post Road right-of-way. Dimensions are +/- 1,301' north/south x 661' east/west.

ZONING

Currently zoned as R-3. Port Richey's current Comprehensive Plan indicates that the city shall "guide and control the development of underdeveloped residential land through the rezoning process so as to ensure the provision of a balanced range of housing types to meet the needs of the existing and future population." With this modification, maximum density could allow 18 units per acre.
