Worcester, MA 01608

**RE: ASTM PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT
 324 WEST BOYLSTON STREET
 WORCESTER, MASSACHUSETTS 01606**

Dear Mr. Rothschild:

EnTact Solutions, Inc. ("ETS") is pleased to provide the results of our *Phase I Environmental Site Assessment* of the undeveloped property located at 324 West Boylston Street in Worcester, Massachusetts. This assessment was performed utilizing generally accepted ESA industry standards in accordance with ASTM E 1527-13, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*.

This assessment included a Site reconnaissance in addition to research and interviews with representatives of the public, property management and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

ETS appreciates the opportunity to provide environmental services to assist you with your real estate transaction. If you have any questions concerning this report, or if we can assist you in any other matter, please contact the undersigned at (508) 798-5084.

Sincerely,
EnTACT SOLUTIONS INC. (ETS)

Reginald H. Achilles, P.E., LSP
President

EXECUTIVE SUMMARY

EnTact Solutions, Inc. (ETS) has performed a *Phase I Environmental Subject Property Assessment* (Phase I) for the property located at 342 West Boylston Street, Worcester, Massachusetts, Worcester County, Commonwealth of Massachusetts (the “Subject Property”). This Report has been prepared for the sole use of 342 West Boylston, LLC.

Subject Property Description

The Subject Property is situated at the northeast corner of the intersection of West Boylston Street and Andover Street in a mixed commercial/residential area in the City of Worcester, Massachusetts, Worcester County, Commonwealth of Massachusetts. According to information obtained from the Worcester Assessor’s office, the Subject Property contains 20,095 square feet of land and is improved by a vacant single-story, concrete block commercial structure of slab-on-grade construction built in 1970. The Subject Property building is surrounded by a bituminous pavement on the north, east and south sides and overgrown vegetation borders the north, east and south Property boundaries. A concrete walkway separates the Subject Property from West Boylston Street.

Although vacant at the present time, the Subject Property has access to the municipal water and sewer systems, and overhead electric and telecommunication services extending from a utility pole along Andover Street.

The interior portions of the structure on the Subject Property were not accessible at the time of inspection, as the structure is boarded and secured. The exterior portions of the Subject Property consist primarily of paved parking with overgrown vegetation bordering the north, east and south Subject Property boundaries. Two (2) small stockpiles of soil were identified along the east and southeast sides of the structure. A storm drain catch basin was identified in the paved area off the northwest corner of the structure. No staining or other indications of hazardous material and petroleum product releases were observed across the Subject Property.

Surrounding Properties

The surrounding area is primarily utilized for commercial and residential purposes. The Subject Property is surrounded to the north and south by commercial businesses and associated parking lots along West Boylston Street, surrounded to the east by a residential neighborhood along Andover Street and Gosnold Street, and surrounded to the west across West Boylston Street by the Saint-Gobain Abrasives manufacturing facility.

Available records indicate the Subject Property consisted of three (3) contiguous lots improved by multi-story residences, mixed-use buildings, and a commercial building between 1910 and 1950. The Subject Property was occupied by a coin-op laundry in 1962 and by a restaurant and sandwich shop between at least 1968 and 2014. The Subject Property has been vacant since at least 2017. Three underground storage tanks were noted on the southwestern portion of the Subject Property in the 1950 Sanborn map. The Subject Property was surrounded to the north, east, and south by residences until approximately 1950, when commercial development along West Boylston Street was noted. The Norton Company/Saint-Gobain Abrasives manufacturing complex has operated west of the Subject Property across West Boylston Street since at least 1910.

Regulatory Concerns

The Subject Property is listed as the former location of a Leaking Underground Storage Tank (LUST), which resulted in the listing as an active MADEP Hazardous Waste Disposal Subject Property (RTN 2-19179) based on the discovery of two (2) abandoned USTs resulting in a release of petroleum (fuel oil or waste oil) to soil and groundwater in April 2014. Remedial response actions conducted at the Subject Property between April and June 2014 included the removal and off-Subject Property disposal of two (2) abandoned USTs, 622 gallons of petroleum/water from the USTs, 65 gallons of sludge from the tank bottoms, and approximately 36 cubic yards of petroleum-contaminated soil. Subsequent subsurface investigations indicated that groundwater was situated at a depth of approximately 7-8 feet below grade, but no petroleum concentrations were reported above applicable regulatory cleanup standards in the one groundwater monitoring well installed at the Subject Property. The Subject Property environmental regulatory conditions for MADEP RTN 2-19179 were closed with the submittal of an *Immediate Response Action Completion Report and Permanent Solution Statement* by Coneco Engineers & Scientists in July 2014.

The Subject Property has been abutted to the west across West Boylston Street by the Norton Company (later known as Saint-Gobain) abrasives manufacturing facility since the late 1800s. The facility, which spans approximately 28 acres between Interstate 190, West Boylston Street, and Brooks Street, is listed several times in the database as a MADEP Hazardous Waste Disposal Subject Property, a registered AST and UST location, a leaking UST (LUST) and AST (LAST) Subject Property, an EPA RCRA Generator, a Brownfields location, and a Subject Property with Institutional Controls (IC). However, most of the MADEP Disposal Subject Property, LUST, and LAST listings have been remediated to the satisfaction of the MADEP, and no active listings are expected to have a negative environmental impact on the Subject Property as groundwater in the area generally flows in an easterly direction towards Indian Lake.

Additional properties with documented environmental impact were identified within the extended area surrounding the Subject Property. However, based upon the distance, inferred groundwater flow direction or response actions completed to address environmental impact at the properties, identified conditions in the surrounding area are not expected to impact environmental media on the Subject Property.

Findings

The Subject Property's listing as a former MADEP Hazardous Waste Disposal Subject Property (RTN 2-19179) represents a controlled recognized environmental condition (CREC). Remedial response actions included the excavation and off-Subject Property disposal of 36 cubic yards of petroleum-contaminated soil and the Subject Property was ultimately mitigated to the satisfaction of MADEP in July 2014.

No evidence of recognized environmental conditions (RECs) or historical recognized environmental conditions (HRECs) were identified on the Subject Property during the course of this project. No RECS which are expected to have a negative impact on the current environmental quality of the Subject Property were identified in the immediate vicinity of the Property.

Conclusions

ETS, Inc. has performed a *Phase I Environmental Subject Property Assessment* in conformance with the scope and limitations of ASTM Practice E 1527-13 of the property identified as 342 West Boylston Street, Worcester, Massachusetts. This assessment has revealed evidence of controlled recognized environmental conditions in connection with the Subject Property that have been mitigated with the completion of remedial response actions and regulatory closure to the satisfaction of the Massachusetts Department of Environmental Protection (MADEP).

Recommendations

Based on the information available at the time of this assessment, no additional investigation is recommended at this time.

1.0 INTRODUCTION

EnTact Solutions, Inc. (ETS) has performed a *Phase I Environmental Subject Property Assessment* (Phase I) for the property located at 342 West Boylston Street in Worcester, Massachusetts, Worcester County, Commonwealth of Massachusetts (the “Subject Property”). This Report has been prepared for the sole use of 342 West Boylston, LLC.

The research conducted for this study and the resulting Report were conducted in general conformance with ASTM E1527-21, *Standard Practice for Environmental Subject Property Assessments: Phase I Environmental Subject Property Assessment Process* (effective November 2021), and EPA final rule “*Standards and Practices for All Appropriate Inquiries (AAI) as 40 CFR Part 132 for Phase I Environmental Subject Property Assessments*” (effective February 13, 2023).

An environmental Subject Property assessment meeting or exceeding this practice and completed less than 180 days prior to the date of acquisition is presumed to be valid under this standard. Accordingly, the following components of the Phase I report must be conducted or updated within 180 days of the date of acquisition or date of transaction:

1. Interviews with owners, operators, and occupants.
2. Searches for recorded environmental cleanup liens (a user responsibility).
3. Reviews of federal, tribal, state, and local government records.
4. Visual inspections of the Subject Property and of adjoining properties.
5. The declaration by the environmental professional responsible for the assessment or update.

The format of this report generally follows the recommendations in ASTM Standard Practice E1527-21. The following definitions from that Standard are important for understanding this report, and the Terms are defined in *italics* therein. The goal of this process is to identify any (1) recognized environmental conditions (RECs), (2) historic recognized environmental conditions (HRECs), and/or (3) controlled recognized environmental conditions (CRECs) associated with the Subject Property.

1. A **recognized environmental condition** is defined as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.” This definition does not include *de minimis* conditions defined as “a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.”
2. A **historical recognized environmental condition** is defined as “a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)”.
3. A **controlled recognized environmental condition** is defined as “a recognized environmental condition resulting from a past release of hazardous substances or

petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)".

4. A **de minimis condition** is defined as "a condition that generally does not present a threat to human health or the environment and that generally would not be the of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis conditions are not recognized environmental conditions nor controlled recognized environmental conditions."

1.1 PURPOSE

The primary purpose of this ESA is to provide the intended recipients with an awareness of the general environmental disposition of the Subject Property. The further purpose of this practice, is to define good commercial and customary practice in the United States of America for conducting an ESA of a parcel of commercial real estate with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and petroleum products and, within the Commonwealth of Massachusetts, with respect to the requirements of Massachusetts General Laws, Chapter 21E (MGL 21E) and the MADEP regulations in 310 CMR 40.0000 and EPA final rule "Standards and Practices for All Appropriate Inquiries (AAI) as 40 CFR Part 132 for Phase I Environmental Subject Property Assessments, effective November 2021. As such, this practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner defense to CERCLA liability: that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the Subject Property consistent with good commercial or customary practice" as defined in 42 USC §9601(35)(B).

In defining a standard of good commercial and customary practice for conducting an ESA of a parcel of Subject Property, the goal of the processes established by this practice is to identify recognized environmental conditions. The term Recognized Environmental Condition (REC) means the presence or likely presence of any hazardous substances or petroleum products on a Subject Property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the Subject Property or into the ground, groundwater, or surface water of the Subject Property. The term is not intended to include de minimis conditions that generally do not present a material risk of harm to public health or the environment and that generally would not be the result of an enforcement action if brought to the attention of appropriate governmental agencies.

1.2 DETAILED SCOPE OF SERVICES

ETS has performed a Phase I Environmental Assessment on the Subject Property in general conformance with the scope and limitations of ASTM Practice E 1527-21 Scope of Services for Phase I Environmental Subject Property Assessments with the provision that any deviations from the ASTM Standard are discussed in the body of this report. The standard professional practices that ETS conducted to determine if any recognized environmental condition(s) existed in connection with the Subject Property included, among other things, a visual inspection of the Subject Property, interviews

with selected individuals who might have knowledge of its recognized environmental conditions, a review of readily available historical information such as aerial photographs and fire insurance maps that depict it, a drive-by inspection of accessible adjacent parcels, a review of selected environmental records that were made available to ETS and a review of a computer search of selected Federal, State and local environmental databases for indications of the presence of hazardous substances or petroleum products on the Subject Property or on nearby parcels from which those substances might migrate to the Subject Property in other than vapor form.

1.3 SIGNIFICANT ASSUMPTIONS

While this Report provides an overview of potential environmental concerns, both past and present, the environmental assessment is limited by the availability of information at the time of the assessment. There is a possibility that even with the proper application of these methodologies there may exist on the Subject Property conditions that could not be identified within the scope of the assessment, or which were not reasonably identifiable from the available information. ETS has relied upon certain verbal information and representations provided by government employees and others, documents provided by the Subject Property owner representative and/or operator, and a computer search of government databases by a firm whose business is to provide that service and believes that the information obtained from the records review and the interviews concerning the Subject Property is reliable. However, ETS cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. ETS assumes no responsibility for any consequence arising from any information or condition that was concealed, withheld, misrepresented, or otherwise not fully disclosed or available to ETS to the extent that the conclusions in this report are based in whole or in part on such information, they are contingent on its validity. Further, the assumption was made that the direction of groundwater flow will follow the ground contours and slopes depicted on the topographic map.

1.4 LIMITATIONS AND EXCEPTIONS

This ESA was restricted to the Scope of Services as defined herein. This report is limited to representations of identified recognized environmental conditions on and near the Subject Property as they existed at the time of this ESA, and of the conclusions drawn based upon the information obtained and assumptions made during the assessment process. No representations or warranties are made concerning the nature or quality of the air, soil, water, building materials, or any other substance on the Subject Property (including the potential for any substance to migrate into a structure), other than the visual observations and the representations by others as stated in this report. By definition, a Phase I ESA is not intended to be a definitive investigation of existing or potential adverse environmental impacts, and thus it is possible that such an impact exists on the Subject Property but was not identified during the ESA. Conclusions in this report represent professional judgments based upon the information evaluated during the course of the assessment, not scientific certainties.

Within the limitations of the agreed-upon Scope of Services, this ESA has been undertaken and performed in a professional manner, in accordance with generally accepted practices, using the degree of skill and care ordinarily exercised by reputable environmental consultants under similar circumstances. No other warranty, express or implied, is made.

1.5 SPECIAL TERMS AND CONDITIONS

There were no special terms and conditions between the User and ETS.

1.6 RELIANCE

This report is intended for use only as a complete document. It is based upon the Scope of Services and the Limitations and Exceptions and other restrictions, defined herein. It has been prepared for the exclusive use of 342 West Boylston, LLC, its representatives, and its legal counsel. No other person or organization is entitled to rely upon any part of it without the prior written consent of ETS. 342 West Boylston, LLC, its representatives, and its legal counsel may release or authorize the release of all or part(s) of this report to third parties. However, if any third party uses or relies on this report without the express written permission of ETS, such third party agrees that it shall have no legal recourse against ETS or its parent or subsidiaries and shall indemnify and defend them from and against all claims arising out of or in conjunction with such use or reliance.

2.0 USE PROVIDED INFORMATION

2.1 OBLIGATIONS OF THE USER AS DEFINED IN ASTM STANDARD PRACTICE E1527-21

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “Brownfields Amendments” to CERCLA), the User was asked to provide ETS with the information described below, to the extent known or available, with the understanding that failure to provide or fully disclose this information could result in a determination that “all appropriate inquiry” was not complete.

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM 1527-21 Phase I Standards require that the Report User conduct independent research and consider certain information before purchasing a property. ETS sent requests for the disclosure of information as required per the ASTM Standard. Specifically, a User Questionnaire, a copy of which is included as **Appendix E**, was provided to the current owner for the Subject Property, Mr. Steven Rothschild, Manager of 342 West Boylston, LLC.

2.2 TITLE RECORDS

Mr. Rothschild did not provide any information with respect to title records, nor was ETS engaged to perform a title search for the Subject Property.

2.3 ENVIRONMENTAL LIENS OR ACTIVITY USE LIMITATIONS

Mr. Rothschild is not aware of any environmental liens against the Subject Property or AULs that have been filed or recorded under federal, tribal, state, or local law per the questionnaire on November 25, 2025. The database indicates that there are no environmental liens against the Subject Property or immediately surrounding properties.

2.4 SPECIALIZED KNOWLEDGE

The User should provide the Environmental Professional (ETS) with any specialized knowledge the User has with regard to recognized environmental conditions in connection with the Subject Property.

Mr. Rothschild has no specialized knowledge with respect to recognized environmental conditions in connection with the Subject Property that were not obtained from other sources or observed during the visual evaluation.

2.5 VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

If this Phase I ESA was prepared as due diligence for a property transaction, it is the responsibility of the User to consider the relationship of the purchase price to the fair market value of the Subject Property. If the purchase price is significantly lower than the fair market value, the User should identify the alternate reason for the low purchase price if the lower purchase price is not related to the Subject Property being affected by hazardous substances or petroleum products.

Mr. Rothschild indicated that the value of the property has not been adjusted because contamination is known or believed to be on the Subject Property.

2.6 COMMONLY KNOWN OR REASONABLY ASCERTAINABLE INFORMATION

Mr. Rothschild, per the questionnaire, indicated the historical use of the Subject Property as a restaurant.

2.7 OBVIOUSNESS OF CONTAMINATION

Mr. Rothschild, per the questionnaire, stated that there are no obvious indicators that point to the presence or likely presence of contamination at the Subject Property.

2.8 OWNER, SUBJECT PROPERTY MANAGER, AND OCCUPANT INFORMATION

The property card indicates that 342 West Boylston, LLC has owned the Subject Property since November 2023. The Subject Property is currently occupied by a vacant commercial building.

2.9 REASON FOR PERFORMING THE PHASE I ESA

According to 342 West Boylston, LLC, this Phase I ESA has been requested to satisfy potential financing of the Subject Property.

2.10 OTHER USER INFORMATION

No other information material to this Phase I ESA was provided by 342 West Boylston, LLC or by Mr. Rothschild.

3.0 SUBJECT PROPERTY DESCRIPTION

Information regarding the Subject Property and its history is based upon a Subject Property reconnaissance performed by ETS on November 24, 2025, a review of applicable state databases and public records, and interviews with persons familiar with the Subject Property.

3.1 SUBJECT PROPERTY SETTING

The Subject Property is identified as 342 West Boylston Street, which is located in a mixed commercial and residential area of Worcester, Massachusetts. Geographically, the approximate Subject Property's central location is at Universal Transverse Mercator (UTM) coordinates 4,687,241 meters north and 269,156 meters east, with longitude and latitude coordinates of 42°20'22 north and 71°47'23' west, respectively.

Figure 1, a Subject Property Location Map created from the "7.5' x 15' USGS Worcester North, Massachusetts" quadrangle topographic map obtained from the TOPO! Software program presents the geographical location of the Subject Property relative to topography, surface drainage and surrounding areas within 500-foot and ½-mile radii.

3.2 PHYSICAL SETTING

According to the Massachusetts Department of Environmental Protection (MADEP) Priority Resource Map included as **Figure 3**, the Subject Property is not located within a MADEP-Approved Zone II or an Interim Wellhead Protection Area (IWPA). No public water supplies, Areas of Critical Environmental Concern (ACEC), NHESP Estimated Habitats of Rare Wetlands Wildlife, or potential vernal pools are located within ½ mile of the Subject Property. Protect Open Space areas are situated within ½ mile north and southeast of the Subject Property. The nearest surface water is Indian Lake, which is located approximately 0.3 miles west of the Subject Property.

According to the U.S. Fish and Wildlife Service National Wetlands Inventory, no designated wetlands are located in the vicinity of the Subject Property.

Under the provisions of the Massachusetts Contingency Plan (MCP), groundwater at the Subject Property is classified as RCGW-2 and soil is classified as RCS-1.

3.2.1 TOPOGRAPHY

The United Massachusetts Geological Survey (USGS), Worcester, MA Quadrangle 7.5' x 15' series topographic map was reviewed for this ESA. The topography of the Subject Property can be characterized as level with a steep upward slope extending east from the eastern property boundary creating an estimated elevation ranging between approximately 570 and 580 feet above sea level. The general groundwater flow direction across the Subject Property is inferred to flow in a westerly direction.

3.2.2 SOILS/GEOLOGY

According to the USDA Soil Survey of Worcester County, soil on and in the immediate vicinity of the Subject Property consist of Urban Land, which includes excavated and filled land.

According to a Bedrock Geology Map of Massachusetts [United States Geologic Survey (USGS), 1983], the bedrock underlying the Subject Property lies within the Nashoba Zone, generally considered to be of Ordovician or Silurian age, and is likely part of the Boylston Schist formation. The formation is primarily composed of carbonaceous and locally sulfidic phyllite or schist, with interbedded quartzite and calc-silicate layers. No outcrops or other indications of shallow bedrock formations were observed on the Subject Property or in its immediate vicinity.

Soil inspections were not performed through the course of this assessment, although previous assessments suggest that soil underlying the Subject Property is comprised of gravelly silty sand to a depth of approximately 3 to 4 feet below grade and is underlain by gravelly sandy silt to a depth of approximately 6.5 feet below grade. Further soil characterization can only be made by Subject Property-specific subsurface characterization.

3.2.3 HYDROLOGY

The Subject Property is located within the Blackstone River Basin. Worcester's primary source of drinking water is derived from Worcester's Lynde Brook Reservoir and the Holden reservoir system, the nearest of which is located more than 3 miles west of the Subject Property.

No settling ponds, lagoons, or surface impoundments were observed at the Subject Property during this investigation.

3.2.4 FLOOD ZONE INFORMATION

According to the FEMA Flood Insurance Rate Map (FIRM) Community Panel Number 25027C0616E, dated July 4, 2011, the Subject Property is situated within a Zone X area of 0.2% Annual Chance Flood Hazard.

3.3 LEGAL DESCRIPTION

According to the City of Worcester Assessor's Office, the Subject Property is described as follows:

Subject Property Address	Assessors' Map-Block-Lot	Current Owner	Last Sale		
			Date	Deed Book	Deed Page
342 West Boylston Street	12-7-9	342 Wett Boylston, LLC 40 Jackson Street, Ste. 1000 Worcester, MA 01608	11/21/23	69909	65

A copy of the Assessors Field Card for the Subject Property and current Property Deed are included in **Appendix F**.

3.4 CURRENT USE OF THE SUBJECT PROPERTY

At the present time, the Subject Property is vacant and boarded, although future use is likely commercial.

3.5 CURRENT USES OF ADJACENT AND SURROUNDING PARCELS

The Subject Property is situated in a mixed commercial/residential area of Worcester, Massachusetts. The Subject Property is abutted to the north by commercial/residential properties, abutted to the east by residential properties, bound to the south by Andover Street, and bound to the west by West Boylston Street (Route 12). The remaining properties located east of the Subject Property are primarily residential, and a mix of commercial and residential properties are situated north and south along West Boylston Street. The Saint-Gobain Abrasives manufacturing facility is situated west of the Subject Property across West Boylston Street. Properties mapped within the immediate vicinity of the Subject Property, if any, are listed within the regulatory database report and are further discussed in **Section 6.3** below. The surficial geography of the State Street area is primarily level. No bedrock outcroppings were observed in the immediate vicinity of the Subject Property.

The adjoining and immediately surrounding properties (within 100 feet of the Subject Property boundary) were visually observed from public right-of ways and the Subject Property in an attempt to identify recognized environmental conditions. ETS's observations are summarized in the following table:

Location	Addresses	Uses/Observations
West	1 New Bond Street	Saint-Gobain Abrasives (mfg.)
North	350 West Boylston Street	Candor Realty Vacant Commercial Shop Residential Apartments
East	9 Andover Street	Residence
South	332 West Boylston Street 330 West Boylston Street	E.L. Music (shop) Harrity Appliance (store)

4.0 SUBJECT PROPERTY RECONNAISSANCE / INTERVIEWS

4.1 METHODOLOGY AND LIMITING CONDITIONS

Reggie Achilles of ETS conducted a visual reconnaissance of the Subject Property on November 24, 2025. The weather at the time of the Property visit was sunny and approximately 50 degrees Fahrenheit. The Subject Property inspection was conducted in an attempt to identify current Property use(s), current hazardous materials storage and evidence of past uses and hazardous material storage, and to identify evidence of other recognized environmental conditions.

The reconnaissance involved walking the Subject Property, including the boundaries when possible. Pertinent environmentally related observations and findings are described in the following Sections. The following methodology was used when performing the reconnaissance:

- Observed land use and types of operations of the immediate adjacent properties from the Subject Property and public areas.

- Observed the exterior portions of the study area by traversing the grounds, when accessible, in a random pattern and accessing the perimeter.
- Observed the interior portions of the Subject Property structure by walking through each interior area, when accessible, in a random pattern.

Figure 2, a Subject Property Plan/Area Map, depicts the Subject Property, abutting properties, and surrounding land usage. Photographs of the Subject Property and surrounding parcels are included as **Appendix A**.

4.2 SUBJECT PROPERTY DESCRIPTION

The Subject Property is situated at the northeast corner of the intersection of West Boylston Street and Andover Street in a mixed commercial/residential area in the City of Worcester, Massachusetts, Worcester County, Commonwealth of Massachusetts (the “Subject Property”). According to information obtained from the Worcester Assessor’s office, the Subject Property contains 20,095 square feet of land and is improved by a vacant single-story, concrete block commercial structure of slab-on-grade construction built in 1970. The Subject Property building is surrounded by a bituminous pavement on the north, east and south sides and overgrown vegetation borders the north, east and south Subject Property boundaries. A concrete walkway separates the Subject Property from West Boylston Street.

Although vacant at the present time, the Subject Property has access to the municipal water and sewer systems, natural gas, and overhead electric and telecommunication services extending from a utility pole along Andover Street.

No bedrock outcroppings were observed across the Subject Property. ETS did not observe any groundwater monitoring wells, septic systems, dry wells, distressed vegetation, pits, lagoons, odors, or private water wells at the Subject Property during the reconnaissance.

The following table summarizes our Property Reconnaissance observations:

Yes	No	Observed Feature(s)
☐	☒	Hazardous Substances and Petroleum Products Containers
☐	☒	Underground and/or Aboveground Storage Tanks
☐	☒	Drains/Sumps/Clarifiers/Sewer Interceptors/Septic Systems
☐	☒	Stained or Corroded Surfaces/Stained Soil or Stressed Vegetation
☐	☒	Pits/Ponds/Lagoons/Wetlands
☐	☒	Electrical Equipment with the Potential to contain Fluids
☐	☒	Production or Monitoring Wells
☐	☒	Evidence of Solid Waste Disposal/Dumping/Fill Areas

4.2.1 USE OF HAZARDOUS SUBSTANCES AND PETROLEUM PRODUCTS

No current uses of hazardous substances or petroleum products was noted on the Subject Property.

4.2.2 ON-SUBJECT PROPERTY ASTs AND USTs

No evidence of the current presence of underground or aboveground storage tanks was noted during the reconnaissance.

4.2.3 ODORS

No obvious strong, pungent, or noxious odors were noted during the reconnaissance.

4.2.4 POOLS OF LIQUID

No pools of liquid were observed during the reconnaissance.

4.2.5 DRUMS AND CONTAINERS

No drums and/or containers were identified on the earthen surface across the Subject Property.

4.2.6 UNLABELED CONTAINERS

No unlabeled containers were observed at the Subject Property.

4.2.7 POLYCHLORINATED BIPHENYLS (PCBs)

No labeled PCB-containing equipment was observed at the Subject Property.

4.2.8 ADDITIONAL HAZARD OBSERVATIONS

No additional hazards were observed on the Subject Property.

Pesticides or Herbicides

Historical use of the Subject Property likely negated the use of pesticides or herbicides at the Subject Property.

Asbestos-Containing Materials (ACM)

Asbestos was used in construction materials, such as, but not limited to, thermal system insulation (TSI), surfacing material, siding and asphalt/vinyl flooring, caulking. These materials that are present in buildings constructed prior to 1981 and have not been appropriately tested are presumed to be potential asbestos-containing material (PACM). The presence or absence of ACM is unknown at the Subject Property and is outside the scope of an AAI Phase 1 investigation. However, based on the age and construction of the commercial structure, the potential for ACM on the residential portions of the Subject Property is possible.

Radon

The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, with Zone 1 being those areas with the average predicted indoor radon concentration in residential dwellings exceeding the EPA Action limit of 4.0 picoCuries per Liter (pCi/L). It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the EPA recommends Subject Property-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

According to research database reports provided in **Appendix B**, federal area radon information for the City of Worcester reports the average activity in basement areas within area code 01606 is 1.6 pCi/L.

Lead-Based Paint and Mold

Since the 1980s, lead has been phased out in gasoline, reduced in drinking water, reduced in industrial air pollution, and banned or has been limited in use in consumer products. The presence or absence of mold and lead-based paint throughout the lot is unknown. However, based on the age and construction of the commercial structure, the potential for lead-based paint or mold on the residential portions of the Subject Property is possible.

Vapor Intrusion/Migration

A vapor intrusion condition (VIC) means the presence or likely presence of chemicals of concern in the indoor air environment of existing or planned structures, caused by the release of vapor from contaminated soil or groundwater either on the Subject Property or in *close proximity* to the Subject Property at a level that poses an unacceptable health risk to occupants.

ASTM Designation E2600-15 *Standard Guide for Vapor Encroachment Screening (VES) on Property Involved in Real Estate Transactions* provides a method of identifying a vapor encroachment condition (VEC), which is the presence or likely presence of chemicals of concern (COC) vapors in the subsurface of the Subject Property caused by the release of vapors from contaminated soil or groundwater either on or near the Subject Property. The Vapor Encroachment Screen (VES) process is a two-tiered screening process. However, a VEC does not always represent a REC.

Tier 1 VEC

The Tier 1 screening includes evaluating the Subject Property's past, present, and anticipated usage, and oil and/or hazardous material usage at the Subject Property, the Subject Property's geological and hydrogeological setting, the presence, or potential presence of preferential pathways for contaminant migration, and environmental records for the Subject Property and surrounding properties. The VES guide recommends reviewing environmental records for properties within 1/10-mile of the Subject Property to evaluate whether a VEC exists from petroleum hydrocarbons, and a radius of 1/3-mile surrounding the Subject Property to evaluate whether a VEC exists from any other volatile non-petroleum hydrocarbon contaminants of concern (COCs).

The absence of reported releases of hazardous substances or petroleum products on the Subject Property, do not appear to present a VEC concern. Additionally, no documented releases of petroleum products and/or volatile organic compounds on abutting properties have identified the presence of release migration to the Subject Property, thereby suggesting limited potential for a VEC to exist.

Tier 2 VEC

Because a Tier 1 VEC was not determined to exist, a Tier 2 invasive or non-invasive Screen is not required to obtain greater certainty of the presence of a VEC.

4.3 EXTERIOR OBSERVATIONS

The exterior portions of the Subject Property consist primarily of paved parking with overgrown vegetation bordering the north, east and south Subject Property boundaries. Two (2) small stockpiles of soil were identified along the east and southeast sides of the structure. A storm drain catch basin was identified in the paved area off the northwest corner of the structure. No staining or other indications of hazardous material and petroleum product releases were observed across the Subject Property.

4.3.1 PITS, PONDS, LAGOONS, SUMPS, AND CATCH BASINS

No suspect pits, ponds, sumps, or lagoons associated with wastewater or stormwater disposal were observed at the Subject Property during the reconnaissance.

4.3.2 STAINED SURFACES

No evidence of surface staining was observed on the Subject Property during the reconnaissance.

4.3.3 STRESSED VEGETATION

ETS did not observe evidence of distressed vegetation on the Subject Property.

4.3.4 SOLID WASTE

No evidence of solid waste burning, current landfilling, or disposal was observed on the Subject Property during the reconnaissance. Solid waste for the commercial structure is collected into a small dumpster located on the northwest portion of the paved parking lot.

4.3.5 WASTEWATER

No indications of industrial wastewater disposal or treatment facilities were observed during the reconnaissance.

4.3.6 WELLS AND CISTERNS

The Subject Property is served by a single private water supply well observed along the west side of the front parking lot.

4.3.7 STORM WATER DRAINAGE

Storm water drainage at the Subject Property discharges into West Boylston Street via gravity flow.

4.4 INTERIOR OBSERVATIONS

The interior portions of the structure on the Subject Property were not accessible at the time of inspection, as the structure is boarded and secured.

4.5 RECONNAISSANCE LIMITATIONS

The interior portions of the vacant commercial structure were not accessible during the reconnaissance of the Subject Property. No other reconnaissance imitations were encountered during the course of this project.

4.6 INTERVIEWS

Property Owner/Key Subject Property Manager/Occupants – The current owner of the Subject Property, Mr. Steven Rothschild of 342 West Boylston, LLC, provided information associated with the Subject Property.

Past Owners, Operators and Occupants – Past owners, operators and occupants were not able to be identified for an interview for this investigation.

Prospective Purchaser – This Phase I ESA is being conducted to assess current environmental liability for financing, and no prospective purchaser has been identified.

5.0 HISTORICAL LAND USE

A review of historical data derived from standard historical resources is provided in this section. The objective of consulting historical sources is to develop a history of the previous uses of the property and surrounding area in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the property. During our historical review, acute attention is paid to the Subject Property. Data relating to the adjoining and immediately surrounding properties (within 100 feet of the Subject Property boundary) and the surrounding area is reviewed to the extent that it is revealed in the course of researching the property itself.

5.1 AERIAL PHOTOGRAPHY REVIEW

Aerial Photography of many portions of the United States dates back to the 1920s. Items searched for in each photograph included, but were not limited to: evidence of tanks, gas stations, industrial Subject Property usage, water drainage pathways, areas which show evidence of drums or excessive debris, discolored or stained soils, areas of distressed vegetation, et cetera.

Historical aerial photos dated for the years 1938, 1960, 1966, 1971, 1972, 1980, 1985, 1992, 1995, 2001, 2003, 2004, 2005, 2008, 2009, 2010, 2012, 2014, 2016, 2018, 2021, and 2023 were reviewed online at www.historicaerials.com. A brief description of each photograph as it pertains to the Subject Property and notable off-Subject Property depictions in the immediate vicinity of the Subject Property is presented below.

1938

The Subject Property was improved with two (2) structures on the central and northern portions of the lot.

An industrial facility was situated west of the Subject Property across West Boylston Street, while the properties located east of the Subject Property consisted primarily of residences. A mix of commercial and residential properties appeared north and south along West Boylston Street.

1960 - 1966

The Subject Property was improved with three (3) structures, the southern most of which appeared to be for commercial purposes.

An industrial facility was situated west of the Subject Property across West Boylston Street, while the properties located east of the Subject Property consisted primarily of residences. A mix of commercial and residential properties appeared north and south along West Boylston Street.

1971 - 2023

The Subject Property was improved with a single structure located across the central portion of the lot and was surrounded by pavement as it appears today.

An industrial facility was situated west of the Subject Property across West Boylston Street, while the properties located east of the Subject Property consisted primarily of residences. A mix of commercial and residential properties appeared north and south along West Boylston Street.

5.2 CITY DIRECTORY REVIEW

A City Directory Image Report was obtained from Environmental Data Resources (EDR) for the years 1962, 1968, 1973, 1979, 1984, 1988, 1992, 1995, 2000, 2005, 2010, 2014, 2017, and 2022. The listings for the Subject Property from this period suggest that the Subject Property was utilized as a Philco Bendix Coin-op laundry in 1962, a Chicken Delight restaurant in 1968, and as a D'Angelo's sandwich shop between at least 1979 and 2014. The Subject Property was listed as vacant in 1973, and no directory listings for the Subject Property were reported between 2017 and 2022, which suggests the Subject Property was vacant during that period. No directory listings for the Subject Property are indicative of a use which would be detrimental to environmental media quality.

Properties located in the immediate vicinity along West Boylston Street have been occupied by a used car sales facility (1962-1995) and a dry-cleaning shop (1962, 1992-1995) south of the Subject Property across Andover Street and various commercial shops and stores with walk-up residential apartments. Residential properties have been located east of the Subject Property since at least 1962.

A copy of the EDR City Directory Image Report is included as **Appendix C**.

5.3 SANBORN MAP REVIEW

Originally compiled by the Sanborn Map Company of Pelham, New York for fire insurance companies to assess fire risks related to building materials and hazardous materials storage, today Sanborn Maps are an invaluable tool for Environmental Professionals in determining historical Subject Property use and the potential for environmental conditions. Sanborn map coverage is available from as early as

1867 in some cities. Although Sanborn maps were created for approximately 12,000 cities and towns in the United States, Canada and Mexico, Sanborn Map coverage is not available in newer and more rural communities.

Sanborns depicting the Subject Property and surrounding area dated 1910, 1936, 1950, and 1978 were provided by EDR, copies of which are included as **Appendix D**. Note that several of the Sanborn Maps may be difficult to interpret due to the scale of the maps, scanning by FirstSearch™ or illegible writing.

Date: *1910*

Description: The Subject Property consisted of three (3) contiguous lots at the northeast corner of West Boylston Street and Adams Avenue, the northern lot of which was improved by a 2½-story, mixed-use structure with a store on the first floor and a residential flat on the upper floors. A single-story secondary structure was located at the northeast corner of the Subject Property.

Residential properties abutted the Subject Property to the south, east, and north along West Boylston Street, Adams Avenue, and Barber Avenue. The Norton Company (abrasives) was situated west of the Subject Property across West Boylston Street.

Date: *1936*

Description: The Subject Property consisted of three (3) contiguous lots at the northeast corner of West Boylston Street and Andover Street. The northern lot was improved by a 2½-story, mixed-use structure with a store on the first floor and a residential flat on the upper floors, the central lot was improved with a 1½-story store, and the southern lot was vacant.

The Subject Property was abutted to the north by stores and abutted to the east and south by residential properties along West Boylston Street, Andover Street, and Gosnold Street. The Norton Company (abrasives) was situated west of the Subject Property across West Boylston Street.

Date: *1950*

Description: The Subject Property consisted of three (3) contiguous lots at the northeast corner of West Boylston Street and Andover Street. The northern lot was improved by a 2½-story, mixed-use structure with a store on the first floor and a residential flat on the upper floors, the central lot was improved with a 1½-story store, and the southern lot was improved by a single-story commercial structure with three (3) underground storage tanks (USTs).

The Subject Property was abutted to the north by stores and a rooming house, abutted to the south across Andover Street by a gasoline filling station (4 USTs), and abutted to the east by residential properties along Andover Street and Gosnold Street. The Norton

Company (abrasives) was situated west of the Subject Property across West Boylston Street. Increased commercial development was evident north and south of the Subject Property along the east side of West Boylston Street.

Date: 1978

Description: The Subject Property consisted of one lot at the northeast corner of West Boylston Street and Andover Street and was improved by a single-story commercial structure surrounded by a parking lot.

The Subject Property was abutted to the north by commercial shops/stores and a rooming house, abutted to the south across Andover Street by a used auto sales store, and abutted to the east by residential properties along Andover Street and Gosnold Street. The Norton Company (abrasives) was situated west of the Subject Property across West Boylston Street. Increased commercial development was evident north and south of the Subject Property along the east side of West Boylston Street.

5.4 BUILDING DEPARTMENT RECORDS REVIEW

The area identified for the Subject Property was researched at the Worcester Building Department. Items considered in the course of the building permit review are previous Subject Property usage, previous ownership and the construction or demolition of any structures that may have had a negative environmental impact on the property.

No significant information pertaining to potential environmental impacts on the Subject Property was obtained from the Building Department.

5.5 HISTORICAL SUMMARY

5.5.1 SUBJECT PROPERTY

Available records indicate the Subject Property consisted of three (3) contiguous lots improved by multi-story residences, mixed-use buildings, and a commercial building between 1910 and 1950. The Subject Property was occupied by a coin-op laundry in 1962 and by a restaurant and sandwich shop between at least 1968 and 2014. The Subject Property has been vacant since at least 2017. Three underground storage tanks were noted on the southwestern portion of the Subject Property in the 1950 Sanborn map.

5.5.2 ADJOINING AND IMMEDIATELY SURROUNDING PROPERTIES

According to ETS' interpretation of the historical research data, the Subject Property was surrounded to the north, east, and south by residences until approximately 1950, when commercial development along West Boylston Street was noted. The Norton Company/Saint-Gobain Abrasives manufacturing complex has operated west of the Subject Property across West Boylston Street since at least 1910.

5.6 ADDITIONAL ENVIRONMENTAL RECORD SOURCES

No additional historical record sources were reviewed or provided to ETS during the course of this project.

5.7 HISTORICAL DATA GAPS

Data gaps and/or data failures identified during the course of this project include the failure to identify Subject Property usage in 5-year increments dating back to 1940.

6.0 REGULATORY DATABASE REPORT

6.1 STANDARD ENVIRONMENTAL RECORD SOURCES

Information from standard Federal and State environmental record sources was provided by Environmental Data Resources (EDR) on August 1, 2025 which conforms to, or exceeds, the requirements of ASTM Standard Practice E1527-21. Data from governmental agency lists are updated and integrated into one database, which is updated as these data are released. This integrated database also contains postal service data in order to enhance address matching. Records from one government source are compared to records from another to clarify any address ambiguities. The demographic and geographic information available provides assistance in identifying and managing risk. The accuracy of the geocoded locations is approximately +/-300 feet.

In some cases, location information supplied by the regulatory agencies is insufficient to allow the database companies to geocode facility locations. These facilities are listed under the unmappable section within the EDR report. A review of the unmappable facilities indicated that several of these facilities are within the ASTM minimum search distance from the Subject Property. These facilities are discussed under the appropriate database heading below.

Federal databases searched included, but were not limited to: NPL (National Priority list), Proposed NPL, Delisted NPL, NPL Liens, CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System), CERC-NFRAP (CERCLIS No Further Remedial Action Planned), CORRACTS (Corrective Action Reports under RCRA), RCRIS (Resource Conservation and Recovery Information System), ERNS (Emergency Response Notification System), CONSENT (Superfund/CERCLA Consent Decrees), ROD (Records of Decision for NPL Subject Sites), FINDS (Facility Index System), HMIRS (Hazardous Materials Information Reporting System for spill incidents reported to the DOT), PADS (PCB Activity Database System), RAATS (RCRA Administrative Tracking System), TRIS (Toxic Chemical Release Inventory System), and TSCA (Toxic Substances Control Act).

State databases searched included but were not limited to: LUST (Leaking Underground Storage Tanks), UST (Registered Underground Storage Tanks), SHWS (State Hazardous Waste Subject Sites), SWF/LF (Solid Waste Disposal Facilities), SPILLS (Spills List), and AST (Registered Aboveground Storage Tanks). Approximate minimum search distances for the researched databases were in accordance with ASTM Standard Practice E1527-21.

Regulatory information from the following database sources regarding possible RECs, within the ASTM minimum search distances from the Subject Property, was reviewed. Specific facilities are discussed below if it is determined likely that a potential REC has resulted at the Subject Property from the listed facilities. Except as specifically discussed, listed sites that were estimated not to be actually or potentially upgradient of the Subject Property were judged not to represent an environmental concern with respect to the Subject Property. However, facilities located adjacent to the Subject Property are specifically targeted and discussed.

The following table summarizes required databases reviewed, the approximate search distances, and indicates if the Subject Property, adjoining/immediately surrounding properties or surrounding sites are listed in the respective database. A copy of the database report is included as **Appendix B**, and a listing of the database results is presented below:

DATABASE	Search Distance (Miles)	Subject Subject Property (Yes/No)	Adjacent Subject Property (Yes/No)	Total Listings (#)
Federal National Priorities List (NPL)	1.0	NO	NO	0
Federal De-listed NPL	1.0	NO	NO	0
Federal CERCLIS	0.5	NO	NO	0
Federal CERCLIS NFRAP	0.5	NO	NO	1
Federal RCRA CORRACTS	1.0	NO	NO	0
Federal RCRA non-CORRACTS TSD	0.5	NO	NO	0
Federal RCRA Generators	0.25	NO	NO	8
Federal Institutional/Engineering Controls	0.5	NO	NO	0
Federal ERNS	Property	NO	---	0
State/Tribal Equivalent NPL/CERCLIS	1.0	YES	NO	107
State/Tribal Landfill	0.5	NO	NO	0
State/Tribal Tanks (UST/AST)	0.25	NO	NO	10
State/Tribal Leaking LTANKS (LUST/LAST)	0.5	YES	NO	21
State/Tribal Institutional/Engineering Controls	0.5	NO	NO	11
State/Tribal Voluntary Clean-up Subject Sites	0.5	NO	NO	0
State/Tribal Brownfield Subject Sites	0.5	NO	NO	2

Summaries of the information found in the relevant database listings and ETS's opinion regarding the potential for the Subject Property to be impacted by subsurface environmental conditions are presented in the sections below. ETS's opinion is based on the information found in the database listings, through other historical and regulatory resources, the *Standard Guide for Vapor Encroachment Screening (VES) on Property Involved in Real Estate Transactions* (ASTM E2600-15) and/or assumed groundwater flow direction.

6.2 SUBJECT PROPERTY

The Subject Property is listed as the former location of a Leaking Underground Storage Tank (LUST), which resulted in the listing as an active MADEP Hazardous Waste Disposal Subject Property (RTN 2-

19179) based on the discovery of two (2) abandoned USTs resulting in a release of petroleum (fuel oil or waste oil) to soil and groundwater in April 2014. Remedial response actions conducted at the Subject Property between April and June 2014 included the removal and off-Subject Property disposal of two (2) abandoned USTs, 622 gallons of petroleum/water from the USTs, 100 gallons of sludge from the tank bottoms, and approximately 36 cubic yards of petroleum-contaminated soil. Subsequent subsurface investigations indicated that groundwater was situated at a depth of approximately 7-8 feet below grade, but no petroleum concentrations were reported above applicable regulatory cleanup standards in the one groundwater monitoring well installed at the Subject Property.

The Subject Property environmental regulatory conditions for MADEP RTN 2-19179 were closed with the submittal of an *Immediate Response Action Completion Report and Permanent Solution Statement* by Coneco Engineers & Scientists in July 2014.

6.3 ADJOINING AND IMMEDIATELY SURROUNDING PROPERTIES

The Subject Property has been abutted to the west across West Boylston Street by the Norton Company abrasives manufacturing facility since the late 1800s. The facility, which spans approximately 28 acres between Interstate 190, West Boylston Street, and Brooks Street, is listed several times in the database as a MADEP Hazardous Waste Disposal Subject Property, a registered AST and UST location, a leaking UST (LUST) and AST (LAST) Subject Property, an EPA RCRA Generator, a Brownfields location, and a Subject Property with Institutional Controls (IC). However, most of the MADEP Disposal Subject Property, LUST, and LAST listings have been remediated to the satisfaction of the MADEP, and no active listings are expected to have a negative environmental impact on the Subject Property as groundwater in the area generally flows in an easterly direction towards Indian Lake.

6.4 SURROUNDING AREA

Additional properties with documented environmental impact were identified within the radius area surrounding the Subject Property. However, based upon the distance, inferred groundwater flow direction or response actions completed to address environmental impact at the properties, identified conditions in the surrounding area are not expected to impact environmental media on the Subject Property.

6.5 NON-GEOCODED SUBJECT SITES

Non-geocoded sites are unmappable sites which appear in a list form in the Radius Map Report rather than on the standard Radius Map. A total of six (6) non-geocoded sites were identified in the Radius Map Report prepared for this Subject Property. A review of the unmappable facilities indicated that several of these facilities are located within the ASTM minimum search distance from the Subject Property; however, based upon information provided in the database report, these facilities are not expected to affect environmental media at the Subject Property.

7.0 RECORDS REVIEW

7.1 MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION FILE REVIEW

The Subject Property is listed as a former Tier 2 MADEP Hazardous Waste Disposal Subject Property (RTN 2-19179). As a result, ETS reviewed the regulatory file for the Former D'Angelo's Sandwich Shop via MADEP's online Waste Subject Property/Reportable Release File Viewer to evaluate the past and present environmental conditions for the Subject Property. Due to the size of the environmental documents associated with the active Disposal Subject Property, copies of those documents are not included with this Report but are summarized below. The environmental documents associated with the Subject Property can be reviewed and/or downloaded in their entirety on the [MADEP Waste Subject Property / Reportable Release File Viewer](#).

The Disposal Subject Property consists of a small, localized area on the southwest corner of the property in the vicinity of a former 500-gallon fuel oil/waste oil underground storage tank (UST) located at the Subject Property until its removal in 2014. According to a review of the MADEP file for RTN 2-19179, a historical release of petroleum surrounding a 500-gallon fuel oil UST resulted in the excavation of 36 cubic yards of petroleum-contaminated soil from the southwestern portion of the Subject Property. Subsequent assessment activities did not report the presence of groundwater contamination and residual petroleum impacts in soil were reported below regulatory risk thresholds. As a result, Subject Property environmental regulatory conditions for RTN 2-0915 were closed with the submittal of an *Immediate Response Action Completion Report and Permanent Solution Statement* by Coneco Engineers & Scientists in July 2014.

7.2 CITY/COUNTY AGENCIES

On November 22, 2025, ETS submitted a "Public Records Request" through the City of Worcester online [Public Records Center](#). Specifically, ETS requested Subject Property-specific records from the City of Worcester's Board of Health, Fire Department, Building Department, Engineer, and Assessors Department regarding the developmental, hazardous materials storage, underground storage tank history, and industrial waste discharge records for the Subject Property.

7.2.1 FIRE OFFICIALS

According to an October 3, 2023 response to the Public Records Request, included in **Appendix F**, the Worcester Fire Department records include permits for the removal of a 500-gallon and a 260-gallon fuel oil/waste oil USTs in 2014. A *Notice of Responsibility* (NOR) issued by the Massachusetts Department of Environmental Protection (MADEP) in April 2014 indicates that an unknown quantity of gasoline was released to subsurface soils during the removal of an abandoned 1,000-gallon gasoline UST removed from the Subject Property in April 2014.

7.2.2 INSPECTIONAL SERVICES

No information regarding the presence or storage of hazardous materials or petroleum products was provided by the City of Worcester Inspectional Services Department in response to the aforementioned Public Records Request.

7.2.3 CITY CLERK

No information regarding UST registration history at the Subject Property was provided by the City of Worcester Clerk's Office in response to the aforementioned Public Records Request.

7.2.4 BOARD OF HEALTH

No information relative to the presence of hazardous substances or petroleum products was reported by the Board of Health in response to the aforementioned Public Records Request.

7.3 REGISTRY OF DEEDS

The Worcester County Registry of Deeds website was reviewed for historical ownership information for the Subject Property. This data was reviewed primarily to supplement potential data gaps in the described land use determination and should not be relied upon as a complete chain of title.

OWNERSHIP CHRONOLOGY – 342 WEST BOYLSTON STREET

DATE	OWNER
November 2023	342 West Boylston, LLC
December 1986	Nashef, LLC
September 1956	Park Avenue Realty Trust
Unknown	Sydney Glick

Although not engaged to perform a title search, a limited review of Registry of Deeds records by ETS did not identify any AULs or environmental liens for the Subject Property.

7.4 AGENCY FILE REVIEW LIMITATIONS

No agency file review limitations were encountered during the course of this project.

7.5 ADDITIONAL ENVIRONMENTAL RECORD RESOURCES

No additional environmental record sources were provided to or obtained by ETS during the course of this project.

8.0 FINDINGS AND CONCLUSIONS

8.1 FINDINGS

Evidence of controlled recognized environmental conditions (CRECs) or were identified through a reconnaissance of the Subject Property and surrounding properties, and/or a review of available regulatory and historical information for the Subject Property and properties located in the immediate vicinity of the Subject Property.

8.1.1 ON-SUBJECT PROPERTY RECOGNIZED ENVIRONMENTAL CONDITIONS

No RECs were identified during the course of this project.

8.1.2 ON-SUBJECT PROPERTY HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITIONS

No HRECs were identified during the course of this project.

8.1.3 ON-SUBJECT PROPERTY CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITIONS

The Subject Property's listing as a former MADEP Hazardous Waste Disposal Subject Property (RTN 2-19179) represents a controlled recognized environmental condition (CREC). Remedial response actions included the excavation and off-Subject Property disposal of 36 cubic yards of petroleum-contaminated soil and the Subject Property was ultimately mitigated to the satisfaction of MADEP in July 2014.

8.1.4 OFF-SUBJECT PROPERTY RECOGNIZED ENVIRONMENTAL CONDITIONS

No off-Subject Property RECs likely to impact environmental media on the Subject Property were identified during the course of this project.

8.1.5 DATA GAPS/DATA FAILURE

No data gaps and/or data failures were identified during research of available information which are likely to result in a negative environmental impact for the Subject Property.

8.1.6 DE MINIMIS CONDITIONS

No *de minimis* environmental conditions were identified in connection with the Subject Property during the course of this assessment.

8.2 OPINION

Based upon ETS' visual Subject Property evaluation, a review of regulatory files for the Subject Property and surrounding properties and interviews with persons who have knowledge of the Subject Property, no RECs were identified that would restrict the User's proposed purchase of the Subject Property.

The data gap listed above is not considered significant as no information indicates the Subject Property was not utilized for any purposes other than those which have been identified in this Report.

8.3 CONCLUSIONS

ETS, Inc. has performed a *Phase I Environmental Subject Property Assessment* in conformance with the scope and limitations of ASTM Practice E 1527-13 of the property identified as 342 West Boylston Street, Worcester, Massachusetts. This assessment has revealed evidence of controlled recognized environmental conditions in connection with the Subject Property that have been mitigated with the completion of remedial response actions and regulatory closure to the satisfaction of the Massachusetts Department of Environmental Protection (MADEP).

8.4 RECOMMENDATIONS

Based on the information available at the time of this assessment, no additional investigation is recommended at this time.

9.0 DEVIATIONS/DATA GAPS

In accordance with the requirements in ASTM E1527-21 the history of the Subject Property was researched back to the first developed use (circa 1910s) to determine agricultural use or incidence of import of fill material, or to 1940, whichever was earlier. When conducting the historical review, intervals of not greater than five years were researched, unless the use of the Subject Property was unchanged over a period of longer than five years. Data gaps or deviations from ASTM Standard Practice E1527-21 also occurred as deeds were only located to circa late 1950s. However, since the use of the Subject Property was unchanged over a period of longer than five years it is not judged as a data failure.

No further historical data sources were evaluated, because: (1) they were not *reasonably ascertainable*, and/or (2) the assessor's past experience indicates that additional available sources were not likely to be sufficiently useful, accurate, or complete in terms of satisfying the historical research objectives. Based on these two criteria, the following standard historical sources were not evaluated:

- Recorded Land Title Records
- Other Historical Sources, including newspaper archives, community organizations, local libraries, or historical societies.

10.0 ADDITIONAL SERVICES

No additional services not otherwise described in the contents of this Report were completed as part of this assessment.

12.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of nature, history, and setting of the subject property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. The qualifications of the environmental professional(s) and personnel conducting the Subject Property reconnaissance and interviews will be provided upon request.

Reginald H. Achilles, PE, LSP
President

Waste Code: D011

Waste Description: Silver

Waste Code: D018

Waste Description: Benzene

Waste Code: D027

Waste Description: 1,4-Dichlorobenzene

Waste Code: D030

Waste Description: 2,4-Dinitrotoluene

Waste Code: D035

Waste Description: Methyl Ethyl Ketone

Waste Code: D039

Waste Description: Tetrachloroethylene

Waste Code: D040

Waste Description: Trichloroethylene

Waste Code: F001

Waste Description: The Following Spent Halogenated Solvents Used In Degreasing:
Tetrachloroethylene, Trichloroethylene, Methylene Chloride,
1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated
Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing
Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of
One Or More Of The Above Halogenated Solvents Or Those Solvents Listed
In F002, F004, And F005; And Still Bottoms From The Recovery Of These
Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002

Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene,
Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane,
Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane,
Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2,
Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before
Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The
Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And
F005; And Still Bottoms From The Recovery Of These Spent Solvents And

Spent Solvent Mixtures.

Waste Code: F003

Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F004

Waste Description: The Following Spent Nonhalogenated Solvents: Cresols, Cresylic Acid, And Nitrobenzene; And The Still Bottoms From The Recovery Of These Solvents; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005

Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F006

Waste Description: Wastewater Treatment Sludges From Electroplating Operations, Except From The Following Processes: (1) Sulfuric Acid Anodizing Of Aluminum; (2) Tin Plating On Carbon Steel; (3) Zinc Plating (Segregated Basis) On Carbon Steel; (4) Aluminum Or Zinc-Aluminum Plating On Carbon Steel; (5) Cleaning/Stripping Associated With Tin, Zinc, And Aluminum Plating On Carbon Steel; And (6) Chemical Etching And Milling Of Aluminum.

Waste Code: P030

Waste Description: Cyanides (Soluble Cyanide Salts), Not Otherwise Specified

Address: 1 NEW BOND ST

City,State,Zip: WORCESTER, MA 016150000

Current Status: Response Action Outcome

Release Tracking Number/Current Status: 2-0011717 / RAO

Status Date: 11/26/1997

Source Type: UST

Release Town: WORCESTER

Notification Date: 05/09/1997

Category: TWO HR

Associated ID: Not reported

Phase: Not reported

Response Action Outcome: -

Oil Or Haz Material: Not reported

Location Type: INDUSTRIAL

Source: UST

[Click here to access the MA DEP site for this facility:](#)

Chemicals:

Chemical: FUEL OIL #6

Quantity: Not reported

Actions:

Action Type: Response Action Outcome - RAO

Action Status: RAO Statement Received

Action Date: 11/26/1997

Response Action Outcome: Not reported

Action Type: Response Action Outcome - RAO

Action Status: Level I - Technical Screen Audit

Action Date: 3/1/2005

Response Action Outcome: Not reported

Action Type: A Notice sent to a Potentially Responsible Party (PRP)

Action Status: A MassDEP piece of correspondence was issued (approvals, NORs, etc.

Action Date: 5/20/1997

Hazardous Waste Summary:

Waste Code: D001

Waste Description: Ignitable Waste

Waste Code: D002

Waste Description: Corrosive Waste

Waste Code: F001

Waste Description: The Following Spent Halogenated Solvents Used In Degreasing:

Tetrachloroethylene, Trichloroethylene, Methylene Chloride,
1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated
Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing
Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of
One Or More Of The Above Halogenated Solvents Or Those Solvents Listed
In F002, F004, And F005; And Still Bottoms From The Recovery Of These
Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003

Database Descriptions

NPL: NPL National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices. NPL - National Priority List Proposed NPL - Proposed National Priority List Sites.

NPL Delisted: Delisted NPL The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Delisted NPL - National Priority List Deletions

CERCLIS: SEMS SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL. SEMS - Superfund Enterprise Management System

NFRAP: SEMS-ARCHIVE SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site. SEMS-ARCHIVE - Superfund Enterprise Management System Archive

RCRA COR ACT: CORRACTS CORRACTS identifies hazardous waste handlers with RCRA corrective action activity. CORRACTS - Corrective Action Report

RCRA TSD: RCRA-TSDF RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste. RCRA-TSDF - RCRA - Treatment, Storage and Disposal

RCRA GEN: RCRA-LQG RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. RCRA-LQG - RCRA - Large Quantity Generators RCRA-SQG - RCRA - Small Quantity Generators. RCRA-VSQG - RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators).

Federal IC / EC: US ENG CONTROLS A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. US ENG CONTROLS - Engineering Controls Sites List US INST CONTROLS - Institutional Controls Sites List.

Database Descriptions

ERNS: ERNS Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances. ERNS - Emergency Response Notification System

State/Tribal CERCLIS: SHWS Contains information on releases of oil and hazardous materials that have been reported to DEP. SHWS - Site Transition List

State/Tribal SWL: SWF/LF LF PROFILES - Landfill Profiles Listing. This spreadsheet describes landfills that have actively accepted waste or have closed under MassDEP Solid Waste Regulations first adopted in 1971 (310 CMR 16.00 and 310 CMR 19.00). The list does not include landfills that closed before 1971 (and which never had a MassDEP permit or approval), or for which agency data is incomplete. LF PROFILES - Landfill Profiles Listing

State/Tribal LTANKS: LAST LUST - Leaking Underground Storage Tank Listing. Sites within the Releases Database that have a AST listed as its source. LUST - Leaking Aboveground Storage Tank Sites INDIAN LUST R1 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R7 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R10 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R6 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R5 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R4 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R8 - Leaking Underground Storage Tanks on Indian Land. INDIAN LUST R9 - Leaking Underground Storage Tanks on Indian Land.

State/Tribal Tanks: UST Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program. UST - Summary Listing of all the Tanks Registered in the State of Massachusetts AST - Aboveground Storage Tank Database. AST 2 - Aboveground Storage Tanks. INDIAN UST R5 - Underground Storage Tanks on Indian Land. INDIAN UST R6 - Underground Storage Tanks on Indian Land. INDIAN UST R10 - Underground Storage Tanks on Indian Land. INDIAN UST R4 - Underground Storage Tanks on Indian Land. INDIAN UST R7 - Underground Storage Tanks on Indian Land. INDIAN UST R1 - Underground Storage Tanks on Indian Land. INDIAN UST R9 - Underground Storage Tanks on Indian Land. INDIAN UST R8 - Underground Storage Tanks on Indian Land.

State/Tribal IC / EC: INST CONTROL Activity and Use Limitations establish limits and conditions on the future use of contaminated property, and therefore allow cleanups to be tailored to these uses. INST CONTROL - Sites With Activity and Use Limitation

ST/Tribal Brownfields: BROWNFIELDS BROWNFIELDS 2 - Potential Brownfields Listing. A listing of potential brownfields site locations in the state. BROWNFIELDS 2 - Potential Brownfields Listing

US Brownfields: US BROWNFIELDS Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs. US BROWNFIELDS - A Listing of Brownfields Sites

Other Haz Sites: US CDL A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments. US CDL - Clandestine Drug Labs

Database Descriptions

Spills: HMIRS Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT. HMIRS - Hazardous Materials Information Reporting System MA SPILLS - Historical Spill List. RELEASE - Reportable Releases. SPILLS 90 - SPILLS90 data from FirstSearch. SPILLS 80 - SPILLS80 data from FirstSearch.

Other: RCRA NonGen / NLR RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste. RCRA NonGen / NLR - RCRA - Non Generators / No Longer Regulated FEDLAND - Federal and Indian Lands. TSCA - Toxic Substances Control Act. TRIS - Toxic Chemical Release Inventory System. SSTS - Section 7 Tracking Systems. RAATS - RCRA Administrative Action Tracking System. PRP - Potentially Responsible Parties. PADS - PCB Activity Database System. ICIS - Integrated Compliance Information System. FTTS - FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act). FTTS INSP - FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act). MLTS - Material Licensing Tracking System. RADINFO - Radiation Information Database. BRS - Biennial Reporting System. INDIAN RESERV - Indian Reservations. US AIRS (AFS) - Aerometric Information Retrieval System Facility Subsystem (AFS). US AIRS MINOR - Air Facility System Data. MINES MRDS - Mineral Resources Data System. FINDS - Facility Index System/Facility Registry System. PFAS NPL - Superfund Sites with PFAS Detections Information. PFAS FEDERAL SITES - Federal Sites PFAS Information. PFAS TSCA - PFAS Manufacture and Imports Information. PFAS TRIS - List of PFAS Added to the TRI. PFAS RCRA MANIFEST - PFAS Transfers Identified In the RCRA Database Listing. PFAS ATSDR - PFAS Contamination Site Location Listing. PFAS WQP - Ambient Environmental Sampling for PFAS. PFAS NPDES - Clean Water Act Discharge Monitoring Information. PFAS PROJECT - NORTHEASTERN UNIVERSITY PFAS PROJECT. PFAS ECHO - Facilities in Industries that May Be Handling PFAS Listing. PFAS ECHO FIRE TRAIN - Facilities in Industries that May Be Handling PFAS Listing. PFAS PT 139 AIRPORT - All Certified Part 139 Airports PFAS Information Listing. AQUEOUS FOAM NRC - Aqueous Foam Related Incidents Listing. PCS ENF - Enforcement data. PCS - Permit Compliance System. BIOSOLIDS - ICIS-NPDES Biosolids Facility Data. UST FINDER RELEASE - UST Finder Releases Database. UST FINDER - UST Finder Database. E MANIFEST - Hazardous Waste Electronic Manifest System. PFAS - PFAS Contaminated Sites Listing. GWDP - Ground Water Discharge Permits. NPDES - NPDES Permit Listing.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EnTact Solutions, Inc.
50 Richard Road
Leominster, MA 01453
Contact: Reggie Achilles

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by EnTact Solutions, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

USER QUESTIONNAIRES

To: Steven Rothschild – srothschild@accessfixtures.com

From: Reggie Achilles, President – EnTact Solutions, Inc.

Date: November 21, 2025

Subject: 342 West Boylston Street, Worcester, MA 01606

EnTact Solutions, Inc. (ETS) is conducting an ASTM Phase I Environmental Assessment of the vacated property located at 342 West Boylston Street in Worcester, Massachusetts relative to the presence of hazardous substances and petroleum products. In addition, we typically request the following information, **as available**, to expedite the environmental assessment of the property:

- 1) Copy of any current or former site or plot plan(s) (particularly showing property lines, building facilities, utilities, etc.).
- 2) Any information detailing easements or encumbrances on the property.
- 3) List of current occupants/contact, phone numbers, and their business operations.
- 4) List of current or previous occupants who may have used hazardous substances or petroleum products, and details of such usage.
- 5) The attached Transaction Screen Questionnaire needs to be completed and signed by the owner/representative and occupants (if any) (items 1-20).
- 6) Copies of any previous environmental assessments, subsurface investigations, and/or underground storage tank removal reports.
- 7) Information or copies of any documentation concerning present or former aboveground or underground storage tanks (including tank tightness testing for leakage), and storage, usage, releases/spills of hazardous substances or petroleum products on the Site.
- 8) Any known off-Site releases of hazardous substances or petroleum products that may affect the Site.

I can be reached in my office at 508-798-5084 or by e-mail at achillesrh@etsenv.com should you have any questions.

ASTM E1527-13 USER QUESTIONNAIRE

If "yes" is answered to any of the questions below, please explain to the extent possible. If additional space is needed to provide complete answer, please include on separate page and indicate complete answer appended to questionnaire.

(1) Environmental Liens that are filed or recorded against the property.

Did a search of recorded land title records (or judicial records where appropriate*) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?

**In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.*

None

(2) Activity use and limitations (AULs) that are in place on the property or that have been filed or recorded against the property.

Did a search of recorded land title records (or judicial records where appropriate*) identify any AULs, such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state, or local law?

**In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.*

None

(3) Specialized knowledge or experience of the person seeking to qualify for the Landowner Liability Protection (LLP).

Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

None

(4) Relationship of the purchase price to the fair market value of the property if it were not contaminated.

Does the purchase price being paid for the property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present on the property?

Yes

(5) Commonly known or reasonably ascertainable information about the property.

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:

(a) Do you know the past uses of the property? Yes. Restaurant.

(b) Do you know specific chemicals that are present or once were present at the property? No

(c) Do you know of any spills or other chemical releases that have taken place at the property? No

(d) Do you know of any environmental cleanups that have taken place at the property? No

(6) The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation.

Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

No

MASSACHUSETTS FORECLOSURE DEED

HOMETOWN BANK a/k/a bankHometown, a banking institution duly established under the laws of the Commonwealth of Massachusetts, and having its usual place of business at 31 Sutton Avenue, Oxford, Massachusetts

holder of a mortgage

from **NASHEF, LLC** to **HOMETOWN BANK**, dated April 12, 2016 and recorded with Worcester District Registry of Deeds in Book 55183, Page 171,

by the power conferred by said mortgage and every other power, for **FOUR HUNDRED THOUSAND** and 00/100 (\$400,000.00) DOLLARS

paid, grants to **342 WEST BOYLSTON LLC**, a Massachusetts limited liability company with a mailing address of 40 Jackson Street, Suite 1000, Worcester, Massachusetts,

a portion of the premises conveyed by said mortgage.

This foreclosure deed only conveys the property known as 342 West Boylston Street, Worcester, Massachusetts described in the attached Exhibit A as Parcels I-III.

HOMETOWN BANK hereby states under oath that M.G.L. c. 244, Sections 35B and 35C are not applicable to this mortgage foreclosure.

WITNESS THE EXECUTION OF THIS FORECLOSURE DEED AS AN INSTRUMENT UNDER SEAL THIS 3rd DAY OF NOVEMBER, 2023.

HOMETOWN BANK a/k/a bankHometown

By: _____

Erin Joyce, Vice President

342 West Boylston Street, Worcester, MA

COMMONWEALTH OF MASSACHUSETTS

Hampshire, ss.

On this 3rd day of November, 2023, before me, the undersigned notary public, personally appeared ERIN JOYCE, Vice President of Hometown Bank a/k/a BankHometown, and proved to me through satisfactory evidence of identification which was, ☐ photographic identification with signature issued by a federal or state governmental agency, ☐ oath or affirmation of a credible witness, ☒ personal knowledge of the undersigned, to be the person whose name is signed on the preceding or attached document and acknowledged to me that she signed it voluntarily for its stated purpose.

AFFIDAVIT

I, Erin Joyce, a Vice President of HOMETOWN BANK a/k/a bankHometown, named in the foregoing Foreclosure Deed, make oath and say that the principal and interest obligations mentioned in the mortgage above referred to were not paid or tendered or performed when due or prior to the sale, and that HOMETOWN BANK caused to be published on May 9, 2023, May 16, 2023, and May 23, 2023 in the *Worcester Telegram & Gazette*, a newspaper published or by its title page purporting to be published in Worcester, Massachusetts and having a general circulation therein, a notice of which the following is a true copy:

(see attached Exhibit A – Legal Advertisement)

HOMETOWN BANK complied with Chapter 244, Section 14 of Massachusetts General Laws, as amended, by causing the required notices to be mailed by certified mail, return receipt requested.

I further state that all conditions precedent to foreclosure contained in said mortgage have been satisfied and the requirements of (i) the power of sale included in the mortgage, and (ii) the statutes have been complied with in all respects.

Pursuant to said notice at the time and place therein appointed, which sale was postponed by public proclamation to July 19, 2023 at 12:00 p.m. and further postponed until September 13, 2023 at 12:00 p.m., at which time and place, HOMETOWN BANK sold a portion of the mortgaged premises at public auction by Mark H. Shear of Berman Auctioneer & Appraisers, Inc., licensed auctioneers, to STEVEN ROTHSCILD for FOUR HUNDRED THOUSAND and 00/100 (\$400,000.00) DOLLARS bid by STEVEN ROTHSCILD, being the highest bid made therefor at said auction, which bid was then assigned to 342 WEST BOYLSTON LLC as evidenced by an Assignment of Rights under Memorandum of Sale attached hereto as Exhibit B.

EXECUTED UNDER SEAL THIS 3rd DAY OF NOVEMBER, 2023.

Erin Joyce, VP

all and singular the premises described in the Mortgage, to wit:

336-338 Park Avenue,
Worcester, Massachusetts;
"Parcel I:"

BEGINNING at a stone monument set in the ground of Harrington and Richardson Arms Company formerly owned by one Shaughnessy, three hundred seven and four tenths (307.4) feet northerly from the northerly line of Tufts Street, now Winfield Street;

THENCE, running westerly by other land now or formerly of Harrington and Richardson Arms Company one hundred (100) feet to other land now or formerly of Harrington and Richardson Arms Company formerly owned by one Pierce;

THENCE, southerly by said land and land of the Coppus Engineering Corporation and parallel with the line of said Park Avenue fifty-nine (59) feet;

THENCE, easterly by the second parcel being conveyed one hundred (100) feet to said Park Avenue;

THENCE, northerly by said Park Avenue sixty-one (61) feet to the point of beginning.

Parcel II:

BEGINNING at a stone monument set in the ground at the southeasterly corner of Parcel I described herein two hundred forty-six and four tenths (246.4) feet from the northerly line of Tufts Street, now Winfield Street;

THENCE, running westerly by the southerly line of Parcel I above described one hundred (100) feet to land now or formerly owned by the Coppus Engineering Corporation;

THENCE, southerly by land now or formerly of said Coppus Engineering Corporation sixty-six (66) feet by a line parallel with Park Avenue and one hundred (100) feet distant therefrom to other land now or

formerly of Coppus Engineering Corporation;

THENCE, easterly by said land one hundred (100) feet to Park Avenue;

THENCE, northerly by Park Avenue sixty-four (64) feet to the place of beginning.

Being the same premises conveyed to the Grantors by deed: (i) of David Glick and Norman Glick as Trustees of the Park Avenue Realty Trust dated December 30, 1986 and recorded with the Worcester District Registry of Deeds in Book 10107, Page 124; and, (ii) of David Glick dated October 14, 2008 and recorded with said Registry of Deeds in Book 43416, Page 235."

342 West Boylston Street,
Worcester, Massachusetts:

"Parcel I:

The land in Worcester, Worcester County, Massachusetts, with the buildings thereon situated on the easterly side of West Boylston Street, bounded and described as follows:

Beginning at a point in the easterly line of said West Boylston Street at the northwesterly corner of the granted premises and land now or formerly of Israel Gerrol, said point being 165.76 feet northerly, measure by the easterly line of West Boylston Street, from a Worcester Highway marker set at the intersection of the southerly line of Andover Street and the easterly line of West Boylston Street;

Thence South 73° 05' 58" East by said Gerrol land 141.48 feet to a point at land now or formerly of Stanley F. and Rita J. Sargut;

Thence South 18° 29' 35" West by said Sargut land 20.88 feet to a point at land of Harold G. and Virginia E. Johnson;

Thence North 78° 15' 25" West by said Johnson land 133.73 feet to the easterly line of said West Boylston Street, said line being parallel to the southerly line of the building on the granted premises.

Thence northerly by the easterly line of said West Boylston Street, 33.79 feet to the point of beginning.

Said premises are conveyed together with the right to pass and repass over a 10 foot right of way adjoining the above described premises on the South as recited in said deeds from said Backstrom, et ux and Johnson, et ux.

Said premises are shown on a plan of land in Worcester, Massachusetts owned by Lorraine M. LaForte and Harold G. Johnson ad Virginia E. Johnson, dated February 1966, Renev Brothers, Inc. Registered Engineers and Surveyors, Worcester, Massachusetts, recorded at said Deeds in Plan Book 298, Plan 42.

Parcel II:

The land in Worcester, Massachusetts bounded and described as follows:

Page 3 of 4

Beginning at a point in the easterly side of West Boylston Street seventeen and 45/100 feet northerly of stone monument numbered two (2);

Thence Northerly by said West Boylston Street fifty five (55) feet;

Thence deflecting 89° 14' to the right easterly one hundred fifty and 75/100 (150.75) feet;

Thence deflecting to the right southerly fifty four and 97/100 (54.97) feet;

Thence deflecting to the right westerly one hundred fifty and 14/100 (150.14) feet to the place of beginning.

Being lot number 5 on said plan of O. Willis Ruggs, and containing eighty two hundred seventy and 06/100 (8270.06) square feet of land, more or less.

Excepting, however, a taking by the Commonwealth of Massachusetts for the City of Worcester, dated August 4, 1936, and recorded at the Worcester District Registry of Deeds, Book 2676, Page 1.

Parcel III:

The land in Worcester situated on the easterly side of West Boylston Street and the northerly side of Andover Street, bounded and described as follows:

Beginning at a point on the easterly side of West Boylston Street;

Thence northerly by the easterly side of West Boylston Street, 79.53 (sic.) feet to land of Lorraine M. LaForte;

Thence easterly by said LaForte land, one hundred thirty-three and seventy-three hundredths (133.73) feet to land of Stanley and Rita J. Stargut;

Thence southerly by said Stargut land sixty two and twenty hundredths (62.20) feet to the northerly side of Andover Street;

Thence westerly by the northerly side of Andover Street, one hundred five and thirty four hundredths (105.34) feet to the point of beginning.

Being Lot C on plan of land by Reney Bros., Inc. dated February, 1966 and recorded at the Worcester District Registry of Deeds, Plan Book 298, Plan 42.

For title see Bk 55183 Pg 168.

The description of the premises contained in the Mortgage shall control in the event of a typographical error in this publication. Said premises, together with all improvements encumbered by the Mortgage, are to be sold and conveyed subject to all leases, tenancies, occupancies, mortgages, restrictions, covenants, orders of conditions, easements, encroachments, outstanding tax titles, municipal or other public taxes, assessments or liens, federal and state tax liens, other liens or claims in the nature of liens and existing encumbrances recorded prior to the Mortgage and/or otherwise having priority

Page 4 of 4

over the Mortgage, if there be any.

TERMS OF SALE: THE PARCELS SHALL BE SOLD INDIVIDUALLY AND NOT IN BULK. A NON-REFUNDABLE DEPOSIT OF TWENTY-FIVE THOUSAND (\$25,000.00) DOLLARS WILL BE REQUIRED FOR EACH PARCEL. Said deposits are to be paid in certified or bank cashier's check by the purchaser(s) at the times and places of sale, the balances to be paid in certified or bank cashier's check and deeds to be taken by purchaser(s) within thirty (30) days of the sales at the offices of Seder & Chandler, LLP, 339 Main Street, Worcester, Massachusetts, attorneys for the Mortgagee. The Mortgagee reserves the right to postpone the sales to a later date by public proclamation on the date and at the times and places appointed for the sales and to further postpone at any adjourned sale date by public proclamation on the date and at the times and places appointed for the adjourned sales.

In the event of the failure or inability of the purchaser(s) to perform and to purchase either Parcel I or Parcel II in accordance herewith, the Mortgagee reserves the right (but is not obligated) to accept, subject to the Memorandum of Sale, the second highest bid for either such parcel, without further advertisement and without further notice to other bidders or persons. In the event that the Mortgagee offers Parcel I or Parcel II to the second highest bidder and such bidder declines either to purchase the applicable parcel at the second highest bid price or to sign the Memorandum of Sale, then the Mortgagee may elect (but is not obligated) to exercise the rights of the second highest bidder under this paragraph and to purchase either Parcel I or Parcel II at the second highest bid price, without further advertisement and without further notice to other bidders or persons.

Other terms to be announced at the time and place of sale.

ASSIGNMENT OF RIGHTS UNDER MEMORANDUM OF SALE

4th THIS ASSIGNMENT OF RIGHTS UNDER MEMORANDUM OF SALE is made this day of October, 2023 by Steven Rothschild of Worcester, Massachusetts ("Assignor") to 342 West Boylston LLC ("Assignee"). *40 Jackson Street, Ste. 1000, Worcester, MA*

RECITALS

WHEREAS, Assignor was the successful bidder at a foreclosure auction held on September 13, 2023 of the premises known and numbered as 342 West Boylston Street, Worcester, Massachusetts (the "Property") held under the power of sale contained in a mortgage from Nashef, LLC to Hometown Bank, dated April 12, 2016 and recorded with the Worcester District Registry of Deeds in Book 55183, Page 171; and

WHEREAS, Assignor executed a certain Memorandum of Sale dated September 13, 2023, whereunder Assignor agreed to purchase the Property under the terms and conditions outlined therein (the "Memorandum"); and

WHEREAS, Assignor desires to assign to Assignee all of his rights, interest and obligations under the Memorandum.

NOW, THEREFORE, for valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby assigns, conveys and sets over unto Assignee all of his rights, interest and obligations under the Memorandum and Assignee accepts such assignment and hereby assumes and agrees to perform all such obligations.

[Signature Page to Follow]

IN WITNESS WHEREOF, Assignor and Assignee have executed this Assignment under seal as of the date and year first above written.

URGENT LEGAL MATTER: PROMPT ACTION NECESSARY

D'Angelo Incorporated
323 Manley Street
West Bridgewater, MA 02379

RE: CRWSC - Worcester
UST Release
342 West Boylston Street

ATTN: Edward Bishop,
Facilities Manager

RTN: 2-0019179

NOTICE OF RESPONSIBILITY **M.G.L. c. 21E, 310 CMR 40.0000**

Dear Mr. Bishop:

The Department of Environmental Protection (MassDEP or the Department) was notified on April 25, 2014, at 10:20 a.m., that a sudden release/threat of release of an unknown quantity of gasoline occurred at the above-referenced property (the Site). Specifically, during assessment activities to remove an abandoned one-thousand (1,000) gallon gasoline underground storage tank (UST), 395 parts per million by volume (ppm/v) of total organic vapor, detected "as benzene" were determined to be present in soil within 10 feet of the UST. Such condition required oral notification to MassDEP as soon as possible but not more than 72-hours after obtaining knowledge of a reportable condition and performance of an Immediate Response Action (IRA). In light of the notification and other information available, MassDEP wishes to ensure that you are aware of your rights and responsibilities under the Massachusetts Oil and Hazardous Material Release Prevention and Response Act, M.G.L. c. 21E, and the Massachusetts Contingency Plan (MCP), 310 CMR 40.0000.

MassDEP has identified the property, or portions thereof, as a disposal site that requires the performance of cleanup or other response actions. The cleanup of disposal sites is governed by Chapter 21E and the MCP. MassDEP has assigned Release Tracking Number (RTN) 2-0019179 to this disposal site for the release notification received.

NOTICE OF RESPONSIBILITY

Page 2

Former D'Angelo Sandwich Shop; 342 West Boylston Street; Worcester; RTN 2-0019179

MassDEP also has reason to believe that you (as used in this Notice, "you" refers to D'Angelo Incorporated) are a party with potential liability for response action costs and damages under Chapter 21E, § 5.

The attached summary is intended to provide you with information about liability under Chapter 21E to assist you in deciding what actions to take in response to this Notice.

IMMEDIATE RESPONSE ACTIONS

On April 25, 2014, you/your agent proposed certain response actions. MassDEP gave oral approval to conduct the proposed IRA pursuant to 310 CMR 40.0410. The approval included the following conditions:

- By the end of May 2014, remove up to 100 cubic yards of impacted soil associated with this release and properly dispose of the contaminated soil within 120 days of removal pursuant to 310 CMR 40.00300; and
- Immediately, assess for an Imminent Hazard (IH) condition by screening nearby subsurface utilities and or nearby buildings for gasoline vapors associated with this release.

You must notify MassDEP as soon as possible via telephone, if you do not proceed with the IRA as approved.

You must dispose of any Remediation Waste as defined by the MCP, including, without limitation, contaminated soil and/or debris, generated at the location in accordance with 310 CMR 40.0030. Any Bill of Lading accompanying such waste must bear the seal and signature of a Licensed Site Professional (LSP).

NECESSARY RESPONSE ACTIONS AND APPLICABLE DEADLINES

Please be advised that April 25, 2014, is considered to be the date of release/threat of release notification. This date will be the baseline for calculating compliance with deadlines contained within the MCP.

The MCP requires responsible parties and any other person undertaking response actions at a disposal site to perform Immediate Response Actions in response to releases/threats of release, Imminent Hazards and Conditions of Substantial Release Migration. Such persons must continue to evaluate the need for Immediate Response Actions and notify MassDEP immediately if such a need exists.

As an integral part of the response action(s) for this release/threat of release, you must also submit a completed *Release Notification & Retraction Form*, and either an IRA Plan (310 CMR 40.0420), or IRA Completion Statement (310 CMR 40.0427), or a Response Action Outcome Statement (310 CMR 40.1000) whichever is applicable to MassDEP by June 24, 2014, (within 60

NOTICE OF RESPONSIBILITY

Page 3

Former D'Angelo Sandwich Shop; 342 West Boylston Street; Worcester; RTN 2-0019179

days of the date of the release/threat of release notification or the date of service of this Notice, whichever comes first) in accordance with 310 CMR 40.0300.

Unless otherwise provided by MassDEP, responsible parties have one year from the initial date notice of a release/threat of release is provided to MassDEP pursuant to 310 CMR 40.0300 or from the date MassDEP issues a Notice of Responsibility, whichever occurs earlier, to file with MassDEP one of the following submittals: (1) a completed Tier Classification Submittal; or (2) a Response Action Outcome Statement. If required by the MCP, a completed Tier I Permit Application must also accompany a Tier Classification Submittal. The deadline for these submittals for this disposal site is April 25, 2015.

PROCEDURES TO FOLLOW TO UNDERTAKE RESPONSE ACTIONS

You must employ or engage an LSP to manage, supervise, or actually perform all response actions that you intend to undertake at this disposal site. You may obtain a list of the names and addresses of LSPs by visiting www.mass.gov/lsp, by contacting the Board of Registration of Hazardous Waste Site Cleanup Professionals by telephone at (617) 556-1091, or in person or by mail at One Winter Street, 3rd Floor, Boston, Massachusetts 02108.

If you have any questions, please contact this office at the letterhead address or at (508) 792-7650. The MassDEP requests that you inform your LSP of this Notice. All future correspondence communications regarding the disposal site should reference RTN: 2-0019179.

Sincerely,

Nicholas J. Child
Section Chief, Emergency Response
Bureau of Waste Site Cleanup

8.5 Completeness

Based on Coneco's review of the analytical data for the Site and the CSM, no data gaps have been identified and the data set is considered to be complete for the purposes of this Permanent Solution with No Conditions Statement.

9.0 SUMMARY

Environmental conditions of the area impacted by the historic release of petroleum products from a 500-gallon UST formerly located at 342 West Boylston Street in Worcester, Massachusetts were evaluated in a manner consistent as presented in the MCP 310 CMR 40.0000. This investigation was intended to describe current Disposal Site conditions and to establish whether a condition of "No Significant Risk" exists for current and future uses of the Disposal Site. To accomplish these goals, Coneco performed the following tasks:

- On April 22, 2014, Coneco provided oversight to Norman's Enterprises in the performance of a test pit investigation at the Site. During test pit excavation activities, two USTs were identified, consisting of an approximately 500-gallon fuel or waste oil UST (UST-1) and a 260-gallon fuel or waste oil UST (UST-2). Coneco personnel collected soil samples in the immediate vicinity of the USTs and field-screened the samples for the presence of headspace TOV. Soil samples collected adjacent to UST-1 exhibited TOV concentrations up to 395 ppm. Based on field-screening results, a 72-hour Reportable Condition, pursuant to 310 CMR 40.0313, was identified at the Site.
- On behalf of D'Angelo, Coneco notified DEP-CERO of the reportable condition at approximately 10:20 a.m. on April 25, 2014. DEP notification was completed within 72 hours of the identification of a reportable condition in accordance with the specifications of 310 CMR 40.0313.
- On June 3, 2014, Coneco provided oversight to Norman's Enterprises personnel in the removal of the two USTs identified at the Site and in the excavation of impacted soil located immediately adjacent to UST-1. At the conclusion of UST removal and IRA excavation activities, Coneco personnel collected discrete soil samples from the side walls, end walls, and base of the UST-1 excavation, designated SS-01 through SS-05, and a composite soil sample, designated CS-01, consisting of discrete soil samples composited from the side walls, end walls, and base of the UST-2 excavation. The collected confirmatory samples were submitted to Spectrum for laboratory analysis of EPH and VPH by DEP Methods. Laboratory analytical results identified no concentrations EPH or VPH compounds in excess of the applicable S-1/GW-2/3 Risk Characterization Standards.
- On June 16, 2014, Coneco provided oversight to NEG in the advancement of seven soil borings (SB-01 through SB-07), and the installation of one groundwater monitoring well (CMW-01) at the Disposal Site. At the conclusion of soil boring activities, Coneco

personnel submitted select soil samples from each soil boring for laboratory analysis of EPH and VPH by the DEP Method. Laboratory analytical results identified concentrations of C₅-C₈ aliphatic hydrocarbons in samples SB-03/SS-3 (4-6') and SB-04/SS-4 (6-9'), and concentrations of C₉-C₁₀ aromatic hydrocarbons in soil samples SB-04/SS-4 (6-9') and SB-07/SS-2 (2-4'), in excess of the applicable DEP Method 1 Risk Characterization Standard. Additional detected analytes were below the applicable Risk Characterization Standards.

- On June 25, 2014, Coneco collected a groundwater sample from monitoring well CMW-01 for laboratory analysis of EPH and VPH by DEP Methods. Analytical results detected no concentrations of EPH or VPH compounds in excess of the applicable GW-2/3 Method 1 Risk Characterization Standards.
- On June 25, 2014, Coneco submitted an IRA Plan to the DEP-CERO detailing proposed IRA assessment activities at the Disposal Site.
- As a result of IRA excavation activities conducted on June 3, 2014, a total of approximately 36 cubic yards (35.84 tons) of remediation waste, comprised of impacted soil from the immediate vicinity of UST-1, was generated at the Disposal Site and temporarily stored on-Site pending proper off-Site disposal. On July 15, 2014, the remediation was transported off-Site under Bill of Lading to the Aggregate facility located in Shrewsbury, Massachusetts.
- On June 3, 2014, a total of approximately 622 gallons of water and/or residual product removed from UST-1 and UST-2 were contained with a vacuum tank truck and transported on the date of generation under Uniform Hazardous Waste Manifest (002017795 GBF) for proper off-Site disposal. In addition, approximately 65 gallons of sludge removed from the bottom of UST-1 was collected and contained within two (2) properly labeled and sealed DOT-approved 55-gallon drums, which were temporarily stored on-Site pending proper off-Site disposal. The drums were removed from the Site on June 6, 2014 and transported under Uniform Hazardous Waste Manifest (002017797 GBF) for proper disposal.
- Based on the results of laboratory analysis of soil samples collected during IRA excavation and assessment activities, calculated EPCs for soil at the Site are below the applicable S-1/GW-2 and S-1/GW-3 Method 1 Risk Characterization Standards, and are protective of current and future Site uses. No concentrations of the contaminants of concern were detected in the submitted groundwater sample excess of the GW-2/3 Risk Characterization Standards.

10.0 PERMANENT SOLUTION STATEMENT

A summary and conclusions of the Permanent Solution Statement are as follows:

- No uncontrolled sources of contamination are present at the Disposal Site. Remediation waste has been transported off-Site for proper disposal.
- In accordance with 310 CMR 40.1020, remedial activities at the Disposal Site have, where feasible, reduced concentrations of oil and/or hazardous materials associated with this release to levels approaching “Background” as defined in “Conducting Feasibility Evaluations Under the MCP,” DEP Policy #WSC-04-160, and 310 CMR 40.0006.
- A level of “No Significant Risk” for current and future use scenarios exists at the Disposal Site and a Permanent Solution with No Conditions has been achieved.
- No Activity and Use Limitations are necessary to ensure the existence or maintenance of a level of “No Significant Risk” at the Disposal Site.
- The criteria for a Permanent Solution with No Conditions specified at 310 CMR 40.1040 and 310 CMR 40.1041(1), have been met in relation to the non-PCB MODF release at the Disposal Site. A Permanent Solution Statement Transmittal Form (BWSC-104) and Copies of Public Involvement Notices are included in Appendix 6.

Based on the information presented herein, it is the opinion of Coneco that a condition of “No Significant Risk” to human health, safety, public welfare, and the environment exists for current and potential future uses of the Disposal Site in relation to the identified release of petroleum products and no additional response actions are required.

11.0 LIMITATIONS

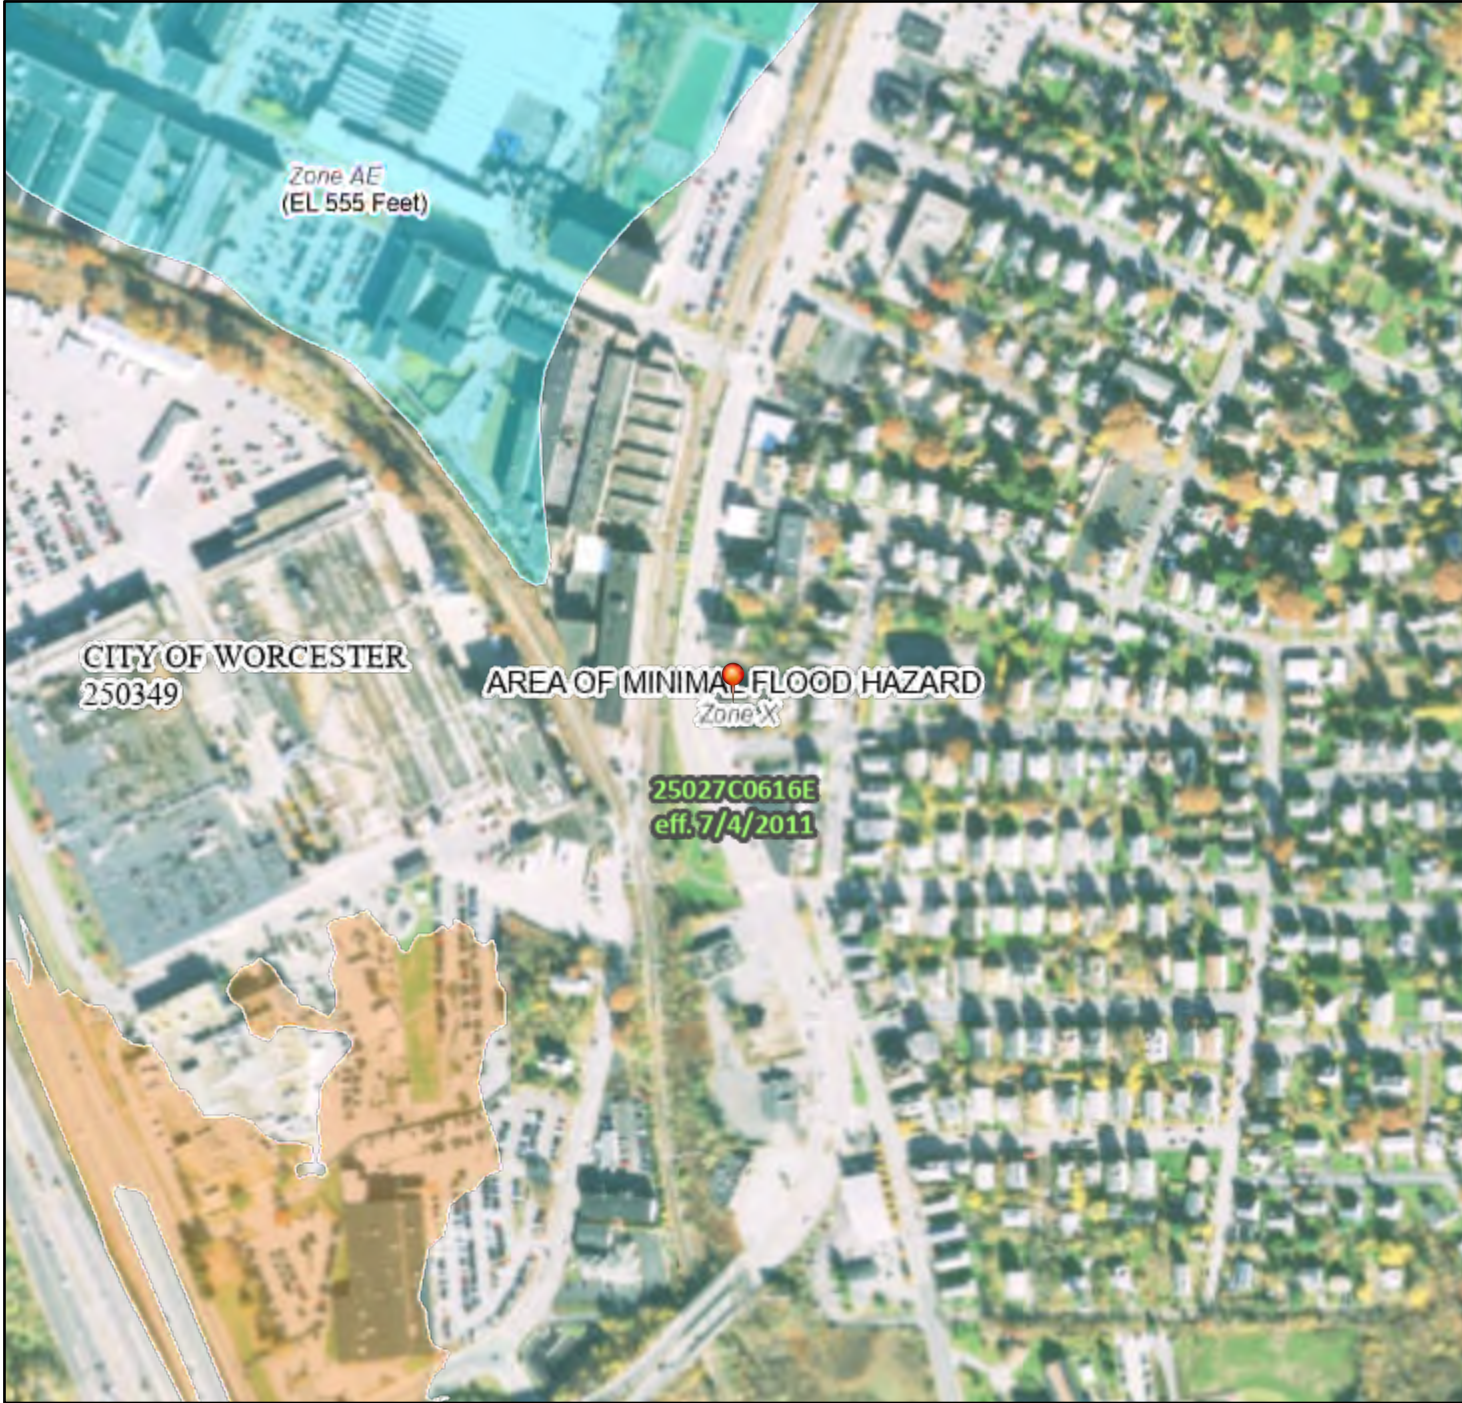

The conclusions expressed by Coneco in this report are based solely on the references cited. Observations were made under the conditions stated. Information provided by subcontractors, federal, state, and local agencies contacted was relied upon as complete. The purpose of this report was to describe current Site conditions, delineate the presence of potential soil and groundwater contamination resulting from the historic release of petroleum products, and remediate impacted media at the Site. This report represents Coneco’s opinion relative to the referenced findings. Unless otherwise specified in the scope of work, Coneco accepts no responsibility for client performance of recommendations as may be offered in this report.

Should additional information become available concerning this Site or neighboring properties in the future, that information should be made available to Coneco for review so

		Unmapped

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on **10/6/2023 at 4:40 PM** and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.
