

FB-V3 FALLBROOK VILLAGE 3 ZONE

8300 INTENT

The Fallbrook Village 3 (FB-V3) Zone is intended to provide opportunities for clean industry and manufacturing, including art-making. The area is also intended to allow uses that support community businesses and provide basic goods and services that are needed by community residents. To this end, in addition to the uses allowed in the FB-V1 and FB-V2 Zones, the FB-V3 Zone allows manufacturing and other general industrial uses where all materials and activities are located indoors and meet standard noise, vibration and odor limitations. In addition, many of the more intensive service-oriented civic and commercial uses that are not allowed in the retail oriented FB-V1 and FB-V2 Zones are allowed in the FB-V3 Zone. Residential uses are allowed where it can be shown that the use is compatible with adjacent commercial and industrial uses. Property within the FB-V3 Zone shall be subject to the Community Design Review Area Regulations in Section 5750 and the Fallbrook Design Guidelines.

3. Site Plan Review Criteria. The Site Plan shall be reviewed and evaluated by the Director for conformance with the following criteria.
 - a) Residential uses shall be located and designed so they are buffered from potentially adverse impacts created by adjacent, commercial and industrial uses.
 - b) Impacts to be addressed shall include noise, odors, air quality, lighting, visual quality and vibration.
 - c) Building and structures shall use construction methods such as windows and building materials that will reduce noise generated by the business and will reduce noise that may impact the residential use.

In making a decision on such a Site Plan permit exemption due consideration shall be given to the recommendation of the appropriate Design Review Board. Such recommendation shall be in writing, signed by the Chairperson or other member of the Review Board who has been authorized by the Review Board to sign Site Plan permit exemption recommendations, and shall be accompanied by a copy of the project plans upon which the recommendation was based. Site Plan permit exemption requests shall be transmitted by the applicant to the Review Board using a form approved by the Director for that purpose. If no recommendation is received by the Director from the Review Board within 45 days following the Review Board's receipt of the request, the Director may make a decision without the Review Board's recommendation.
 - b) If all of the purposes and requirements of the Site Plan will be fulfilled by a concurrent discretionary permit which will be reviewed by the appropriate Design Review Board.

No building permit shall be issued for a project for which the Site Plan permit exemption has been granted except pursuant to plans bearing the Director's stamp granting such exemption. No deviation from aspects of such plans pertinent to the criteria listed in Section 8303.a.3, such as materials, landscaping, site design and lighting, shall be permitted without prior recommendation of the appropriate Design Review Board and approval of the Director.

8330 PARKING REGULATIONS

- a. Purpose and Intent. The intent of the Fallbrook Village parking regulations is to ensure adequate off-street parking in relation to allowed uses and activities. The regulations are also intended to maintain and enhance existing zero front yard setback development patterns in the traditional commercial district consistent with the Fallbrook Design Guidelines. To achieve this purpose, a portion of the Fallbrook Village 3 Zone is located in the Fallbrook Special Parking District and all of the Fallbrook Village 3 Zone provides for reduced parking requirements with provision for meeting parking requirements in shared parking lots.
- b. Parking Requirements. The portion of the FB-V3 Zone specified in Section 5761 b.1 is included in the Fallbrook Special Parking District (see Zoning Ordinance Section 5761). In the FB-V3 Zone, the number of spaces required by the Parking Schedules in Sections 6758 through 6783 may be reduced up to 25%.
- c. Relationship of Required Parking to Building Site. Required parking and bicycle spaces may be located on the same legal parcel with the use or structure they are intended to serve. The parking requirement may and should preferably be met through participation in a shared parking lot. Parking requirements may be fulfilled on-site or on any other property within 600 feet of the site requiring the parking. Evidence must be provided to the County that parking lot ownership shares have not been previously used or counted to meet the parking requirements for any other existing business. The parking spaces shall be tied to the property receiving the permit using a method acceptable to the Director.
- d. Location of Parking on Building Site.

This provision does not apply to any shared parking lot provided pursuant to Section 8330 c. above that does not have a building on the same legal parcel.
 - 3. Open Parking. Open parking spaces shall be outside the ultimate right-of-way of any street and shall be located generally behind a building. This provision does not apply to any shared parking lot provided pursuant to Section 8330 c. above that does not have a building on the same legal parcel.
 - 4. Exceptions. A use permit, variance or administrative permit may specify the location of parking areas and bicycle spaces in locations other than a required by Section 8330 d. 1 – 3.
- e. Parking Space Dimensions
- 1. The minimum dimensions for parking spaces shall be as specified in Section 6792 of the Zoning Ordinance. The Director may require larger dimensions if he determines that larger dimensions are needed to provide safe and adequate parking in specific situations.
 - 2. Accessible Parking. At least one space of the required parking, if any, in any parking area shall be designed for accessible parking as specified in the California Building Code. Such spaces shall be located along the shortest accessible route of travel between such spaces and the entrance of the use or structure, and shall be reserved and designated for disabled persons. The total number of required accessible spaces shall be that specified by the California Building Code as contained in Title 24 of the California Code of Regulations.
- f. Design Standards for Off-Street Parking. Parking spaces and areas shall meet the following design and improvement standards:
- 1. Surfacing. All parking spaces or areas, loading spaces and driveways serving them shall be hard surfaced in accordance with the specifications set forth in Section 6792 of the Zoning Ordinance. The type of surfacing for proposed parking spaces and driveways shall be indicated on all plot plans that accompany Site Plan applications and building construction plans.

3. Parking Design. The design, dimensions, construction, landscaping, and surfacing of parking and bicycle spaces, driveways and other areas shall conform to the requirements of the Section 6792 of the Zoning Ordinance. The Director may administratively waive or modify one or more such requirements when practical difficulties make their strict application infeasible, and upon a finding that the waiver or modification is consistent with the purpose and intent of this section.
