### **LAKE ANNA**

Lake Anna is one of the largest freshwater inland lakes in Virginia, covering more than 13,000 acres with 225 miles of shoreline. Located 72 miles south (just over 1hr drive) of Washington, D.C. in Louisa, Orange and Spotsylvania counties, and close to Charlottesville and Fredericksburg, Lake Anna is easily accessible from anywhere in Virginia.

For nearly 40 years, Lake Anna has been a popular vacation and second home destination for residents of Virginia, Maryland and North Carolina. Alternatively, many people call the Lake Anna region home and that number of full-time residents only continues to rise.

Between 2019 and 2024, the population in Lake Anna is set to grow by over 8.5%, this is 10 times the national average.

Lake Anna is a growing community, the business scene has significantly picked up in recent years and more modern conveniences are arriving by the day. These are direct results of the rise in population growth and demand.

Lake Anna services a vast trade area of approximately 615 square miles. This has historically been an underserved market with a pent up demand for retail services and goods that continues to grow by the day. The spending power in this trade area totals \$1 Billion. As it stands today the supply in the market is only capturing roughly \$335 of that revenue leaving \$665 M in sales potential.

54 Mansfield Road, Mineral, VA 23117

# **LOUISA COUNTY**

Louisa County is located in the Central Piedmont region of Virginia near the geographic center of the state. Louisa is just 15 miles west of Greater Richmond, the state capitol, and 15 miles east of Greater Charlottesville, home of the University of Virginia. Louisa County is located just 90 miles south of the nations capital and 140 miles northwest of the port city of Norfolk.

The county's 517 square miles are a mix of residential, historic farms, open pasture and wooded area.

Increasingly the business community is finding Louisa to be an attractive central location for manufacturing and commercial investment.

### STRATEGIC LOCATION

Close proximity to Washington DC and Richmond provides easy access to Federal and State Government agencies, related businesses, as well as to Washington Dulles International Airport for those who value being able to fly non-stop to most anywhere in the world.

East-west I-64 intersects the region, providing direct highway access to the heart of the mid-west and the many concentrations of different types of businesses that populate that part of the country. North-south I-81 and I-95 are within an hour or less from many places in the region where businesses might locate.

Population explosion expected for Louisa in coming years

Jul 7, 2017

New numbers predict that Louisa County's population will grow faster than previously thought.

Sixteen years ago, state officials projected that Louisa County would nearly double in population over the next half-century. Though the county experienced a dramatic slowdown in growth after The Great Recession hit in 2008, new projections released last week suggest that the 2001 numbers were on target.

The Weldon Cooper Center, an arm of the University of Virginia tasked by the state with forecasting how the Commonwealth will grow in the future, expects Louisa to have nearly 48,000 residents by 2045. There are just over 34,000 people in the county today.

The projections in the county's comprehensive plan, last updated in 2001, call for the number of residents to surpass 48,000, but not until 2050.

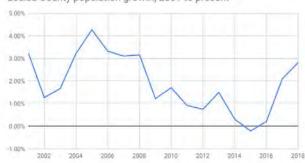

The reason the Cooper center says growth will speed up in Louisa in the future is because the county grew so much in the recent past. From 2000 to 2010, the population jumped by 29 percent, a rate of nearly three percent each year. Since then, the annual increase has been less than one percent. But it's not going to stay that way.

#### Population on the rise in Louisa County

Mar 3 2019

Louisa County population growth, 2001 to present

and 2018. Estimates released by the University of Virginia's Weldon Cooper Center on Jan. 28 show the population was 36.021 as of July 2018. Population growth slowed dramatically after the Great Recession began in

Louisa County's population grew last year at its fastest rate in a decade, with just under 1,000 new

Estimates released by the University of Virginia's Weldon Cooper Center on Jan. 28 show the population was 36,021 as of July 2018. Population growth slowed dramatically after the Great Recession began in 2008, but it has bounced back.

Data provided by the Louisa County Community Development Department shows that many new residents are choosing to live in the Zion Crossroads and Lake Anna growth areas, but plenty of people still opt to settle in the county's rural sections

Of 281 building permits issued for new single-family homes in 2018, 64 percent were for property in one of the seven growth areas. Seventy permits were for homes at Lake Anna and 56 in Zion Crossroads, with most of the latter in the Spring Creek subdivision

The Countryside subdivision in the town of Louisa also saw a spurt in development, with 15 new permits. Another 15 homes are under construction in the Mineral growth area, eleven of them in the Hidden Farm Estates subdivision off of Chopping Road.

The most housing development in the rural parts of the county in 2018 was toward the east, with 41 new permits for homes in Bumpass, Holly Grove and areas in between. Another 27 permits were issued in the county's western third, closer to Gordonsville and Zion Crossroads

Paul Snyder, the county's building official, said that while construction has picked up, it's still nothing like it was during the mid-2000s

new homes?
Of the 147 comments that were "score able" in either category or stated "meither," 21 were for an RV resort, nine for more homes and 21 for

Wills told L&T: "We want to be con try with what we are doing," and we asked him to explain how he plans to

perience with world-class amenities. We are interviewing several firms that specialize in RV resort management and design. It's our goal to partner with one of these firms to maximize the of-ferings we will be providing."

We also asked the #1 question of

"Why do you think an RV resort i needed at Lake Anna?"

peeded at Lake Anna?"
"We know from experience and research farer so a need for this type of control to the state of the s

"We are working with the county and

the community on making this venue a best-in-class property. Our planning team is seeking to maximize ure

### **RV Resort Update**

space and develop a plan that best meets the quals for the property."

To address the RV resort plan versus by right homes Life & Times asked Wills to contrast and compare the footprint of the proposed RV resort versus the amount of homes the land could support

"Any plan that is proposed will be an approved design with the inputs of the surrounding area. The land use is consistent with the master land plan for the County. We've taken great care to listen to the inputs of the community as well as the County and we are confident the venue will become an exceptional addition to the region."

Any RV resort would include wastewater treatment plan. We asked for details on that, too.

"The property will utilize the veristnet in west-water treatment facilities. Our plant will meet or exceed the standards set forth by the state and County. There will be no discharge to Lake Anna

Many Facebook commenters were concerned about the long-term appeurance of an RV resort, as in how you can the owners assure the exist ing Lake Anna community the RV resort would remain upscale and what does the term "upscale" mean for an RV resort?

"First and foremost our goal is to offer the very finest in guest amenities. Second, firere will be standards

#### **RV Resort Update**

quire pre-approval of units prior to taking a reservation. Manage ment of those standards is a top priority for the property."

Some also commented on Facebook about an unacceptable increase in boat traffic should an RV resort be approved and we asked Wills about that

"We've gone to great lengths to study and address the concerns about traffic on the lake. We will be certain to keep this a major focus as we approach approval of the site."

"Our goal is to be a leader in the outdoor hospitality arena. We have studied dozens of worldclass properties and we have taken a 'best practices' approach toward our venue. We are confident in the success of our plan" Statements released on the RV resort cite it would create 15-20 full time jobs and 50 seasonal, full time jobs. We asked Wills to explain what those jobs would be?

"The property will be staffed by approximately a dozen full-time professional staff that are fully qualified in RV resort operations These include the day-to-day management of the property as well as providing exceptional quest services. In addition to those positions we envision the need for seasonal staff to assist in the operation of the resort during the peak season. Many of these staff will serve in the areas of guest services and property maintenance." LKA
