### **WETLANDS**

The investigation area is comprised of three legal tax parcels totaling 9.72 acres. It is currently developed with two single-family residences and associated infrastructure. Residential landscaping and patches of forest are present throughout the site. Adjacent land use consists of high-intensity single-family residential development. The topography of the site is relatively flat, with several depressional areas. No wetlands or streams were identified within the investigation area as of June 27, 2022, by Wetland Resources Environmental Consulting.

## **Upcoming Zoning Changes Relevant to Buyers – City of Poulsbo (Residential Low)**

Several updates to Poulsbo's zoning code are expected to be adopted by Fall 2025, offering increased flexibility for residential development:

**Accessory Dwelling Units (ADUs):** New rules will allow two ADUs per lot (attached or detached), each up to 1,000 square feet. Detached ADUs may be up to 25 feet in height. Existing legal structures converted to ADUs may be exempt from standard setback and coverage requirements.

**Duplexes on Corner Lots:** Duplexes will be permitted on corner lots within the RL zone. These will be treated as a single structure for purposes of lot size, setbacks, and density, making it easier to add density without a rezone.

**Unit-Lot Subdivisions:** The city is making its unit-lot subdivision option permanent, allowing small-lot, fee-simple homes with shared infrastructure. This offers an alternative to traditional plats, particularly useful for infill or cluster housing projects.

**Planned Residential Developments (PRDs):** The minimum site size for PRDs is being reduced from 5 acres to 3 acres, enabling more parcels to qualify for flexible design and potential density bonuses.

These changes support increased housing variety while maintaining the existing RL development standards (setbacks, height, lot coverage). Buyers considering development in Poulsbo should be aware of these opportunities when evaluating property potential.

Kind regards,

Joey Soller

Director of KW Commercial Greater 360
