HISTORY

Built in 1878, Washington Square is a grouping of a block of buildings that have been renovated into one office building designed around two atriums. The building was renovated in phases and is divided into two sections, 214 2nd Avenue and 222 2nd Avenue. The building features brick facades and large double hung windows.

Second Avenue, known as Market Street until 1903, has long been a hub of commerce, characterized by its Victorian-era buildings dating back to the late 19th century. These buildings, originally warehouses and storefronts, played a crucial role in Nashville's development.

Efforts to revitalize Second Avenue continue, involving local business owners, former residents, and urban development officials. The community remains dedicated to restoring this iconic part of Nashville, balancing historical preservation with modern style.
