Cools & Heats Large Rooms

Delivers powerful cooling (12,000 BTU) and heating (12,000 BTU) for large-sized rooms up to 550 sq. ft., ensuring year-round comfort.

Built-In WiFi

Control and monitor your AC from anywhere with the Wi-Fi-enabled SmartHQ app, ensuring your room is always at the perfect temperature when you arrive home

Maximum Comfort

Provide year-round comfort including heating and cooling with adjustable fan speeds, offering flexibility and energy efficiency tailored to your needs.

Remote Control

Conveniently adjust the temperature from anywhere in the room using the included remote control.

Easy Installation

Features a slide-out chassis for easy installation in double-hung windows, with a complete installation kit included.

Voltage Type

Operates with a standard 115-volt outlet, ensuring compatibility with most homes.

Superior Heating Efficiency

Experience up to 2x more effective heating with advanced heat pump technology compared to traditional electric resistance heating, ensuring faster, more energy-efficient warmth in your home.

Cools & Heats Large Rooms

Delivers powerful cooling (12,000 BTU) and heating (12,000 BTU) for large-sized rooms up to 550 sq. ft., ensuring year-round comfort.

Built-In WiFi

Control and monitor your AC from anywhere with the Wi-Fi-enabled SmartHQ app, ensuring your room is always at the perfect temperature when you arrive home

Maximum Comfort

Provide year-round comfort including heating and cooling with adjustable fan speeds, offering flexibility and energy efficiency tailored to your needs.

Eco Mode

Eco Mode automatically shuts off the fan when your room reaches the desired temperature, reducing energy consumption and lowering utility costs.

Filter Reminder

A convenient filter reminder alerts you when it's time to clean the filter, ensuring your AC maintains peak performance.

Electronic Controls

Simple, intuitive digital controls make it easy to adjust your AC settings with precision.

Remote Control

Conveniently adjust the temperature from anywhere in the room using the included remote control.

Easy Installation

Features a slide-out chassis for easy installation in double-hung windows, with a complete installation kit included.

Adjustable Louvers

Four-way adjustable louvers allow for even air distribution or targeted cooling/heating in specific areas of the room.

Auto-Dimming LED Light

The LED display automatically dims after one minute of inactivity, ensuring a disturbance-free sleep environment.

Voltage Type

Operates with a standard 115-volt outlet, ensuring compatibility with most homes.
