With a workforce of 31,155, much of the installation's annual economic impact of nearly \$2.4 billion goes directly into area shops, real estate, banks, and other businesses.

The Augusta Region has long been a hotbed for the tech- and cyber-related companies such as Unisys, ADP, and Raytheon.

Now, Augusta is home to the US Cyber Command at Fort Eisenhower and the newly completed Georgia Cyber Center, a \$100 million investment and the largest government cybersecurity facility in the United States. Located on the Nathan Deal Campus for Innovation, the center is a unique public/private partnership involving academia, state and federal government, law enforcement, the U.S Army, and the private sector. Other cyber-focused businesses are paying attention and taking advantage of the expanding field by moving their headquarters and establishing branches in the Augusta Region. The \$100 million Georgia Cyber Center, the single largest investment in a cybersecurity facility by a state government to date, is a unique public/private partnership involving academia, state and federal government, law enforcement, the U.S. Army and the private sector.
