

OGILVY COMPLEX

PROJECT DESCRIPTION

The Ogilvy Complex redevelopment project involves the construction of a building in the side yard near the railway line. This six- to eight-storey building will include parking on the ground floor and office on the upper floors. Greening interventions have also been planned.

PROJECTED AREAS

Total: Between 79,500 and 106,000 sq.ft.
 Standard floor: 13,250 sq.ft.

NEIGHBORHOOD

PARC-EXTENSION

This 1.6 km² area has more than 31,000 inhabitants of more than a hundred different ethnic groups, making Parc-Extension the most multicultural neighborhood in Montreal. Greek cafes, Pakistani grocery stores and Indian restaurants are within walking distance of Ogilvy Complex.

GREEN SPACES

Jarry Park

Large 35-hectare urban park with scenic views of the Mont-Royal, this park is perfect to enjoy a walk (pond, fountain) or do sports (swimming pool, tennis court). This site is also home to the IGA stadium (formerly Uniprix) which hosts the annual Rogers Cup (Tennis Masters).

Place of the Jean-Talon Station

The green esplanade of the 1931 train station is one of the Montreal POP Music and Craft Festival sites. The place is perfectly laid out to relax, play or to enjoy a picnic.

Athena Park

Despite its small size, this busy park hosts neighborhood parties as well as interethnic encounters.

RESIDENTIAL AREAS

Although Parc-Extension is the most densely populated neighborhood in Montreal, it is one of the safest. In fact, many housing projects are currently underway to accommodate the density of the neighborhood.

MIL CAMPUS – UDM

In September 2019, professors, researchers and students will move into the new science complex of the Université de Montréal that will be surrounded by large green spaces.
