OWNER-USER INDUSTRIAL COMPOUND IN-PLACE INCOME TO OFFSET OCCUPANCY COSTS

11080-11084 Jeff Brian Lane is a first time offering of a ±10,500 SF industrial compound consisting of three free standing warehouse/office buildings in Wilton, California. The property has been held under single ownership since development and has never previously been offered for sale.

The compound is partially leased, providing in place income to offset owner user occupancy costs. Lease terms offer near term flexibility, allowing a buyer to occupy space immediately while maintaining supplemental income or increasing owner occupancy over time.

The property configuration supports single user control or multiple operating uses, making it well suited for contractors, trade based businesses, equipment users, and service operators seeking functional space and real estate control in a supply constrained submarket of Sacramento County.

PROPERTY OVERVIEW
