This map was prepared in  
accordance with the Rules of  
Practice for Land Surveyors  
of the State of Tennessee  
and that this is a category "I"  
survey of the unadjusted survey  
shown hereon.  
I consulted the federal  
and state hazard boundary map  
shown in the survey and  
found no other hazards noted.  
I used a Trimble R10 GNSS  
receiver and a Trimble R10  
GNSS receiver for this survey.  
I used a Trimble R10 GNSS  
receiver for this survey.  
I used a Trimble R10 GNSS  
receiver for this survey.

- The owner and/or developer of any lot, in developing the lot into building, whether primary structure or accessory structure, or conducting any development or use that will disturb soils on the lot, shall reserve and maintain area sufficient for primary, secondary (and tertiary when applicable) septic field lines appropriate to the size and use of buildings and other development or activities. The Blount County Environmental Health Department should be consulted prior to any construction to determine appropriate area to be reserved undisturbed for septic field use.
- In accordance with the policies of the Tennessee Department of Environmental and Conservation, the Blount County Health Department has not evaluated the existing subsurface sewage disposal system (SSDS) on the property represented by this plat. The Blount County Environmental Health Department makes no representation as to the performance of any existing or future SSDS system, or its future operation.
