\$2,622,000 @ 3% FINANCING INCREASES MARKET VALUE FOR PROPERTY

Recession Proof investment. True hedge against inflation

Building Description: This very nostalgic 2 story property is located at 3104-3112 & 3130 14th Ave in Oakland California. It has 32,382 rentable square feet, with 29 large apartments. The property was built in 1949, with a concrete perimeter foundation, exterior walls are wood, and the roof is composition shingle. There is laundry on site. 80% of the units have been renovated. All units have separate gas, electric meters and individual hot water heaters minimizing the owner's expenses. There is 20% upside in the current rents. With 20% upside in rents, this building allows the next owner to increase returns and leverage investment in the hot Oakland market. There are two separate parcels, one is an 8 unit and the other is a 21 unit.

The apartment unit mix is 2 Studios, 23 one-bedroom units and 4 two-bedroom units and there are 7 garages attached for parking and 8 covered parking spaces. The quality of the building is maintained with pride. The units are separately metered for gas, electricity and hot water. The units have pleasant views from the entry and living room of upstairs units. The laundry is coin operated for additional income. The building is located across the street from the Highland Hospital complex and about 2 blocks from the west bound ramp to 580. There is a Quik Stop gas & convenience store across the street. The building is situated in the middle of some very popular Oakland destinations. It's 2 miles to Lake Merritt and less than 1 mile to both Glenview (shops & restaurants including Blackberry Bistro) and Fruitvale Blvd. which features many shops and a Safeway grocery store.

Construction is typical wood framing with concrete foundation walls raised to create a partial basement on the southern portion and slab on grade foundation on the northern portion. The exterior finishes consist of painted brick veneer and stucco siding. The flat roof contains built up covering. Units are heated by electric wall heaters. Domestic hot water is provided by a central gas fired boiler located in the basement. Domestic water lines are copper. Electrical wiring is observed as copper. The subject has no deferred maintenance and is in good condition.

The Highland Park Apartments blend historic charm with urban realities, offering affordable living with great potential and a strong sense of community, particularly appealing to those seeking proximity to medical facilities and a diverse, established neighborhood. You will appreciate the neighborhood amenities near 3130 & 3104-3112 14th Ave. This part of Oakland is bike friendly, so you get around town easily. You can go for a walk in one of the neighborhood parks. If you like to walk, you will find streets lined with trees and sidewalks that are well-lit at night. Residents in this neighborhood consider the area to be walkable with stores, public transportation, and shops nearby. The complex is close to the Fruitvale Transit Village and Bart Station.

The property at 3130 & 3104-3112 14th Ave in Oakland has strong investment potential due to its proximity to major employers, transportation routes, shopping centers, dining venues, and entertainment options. It is an attractive option for renters seeking convenience and accessibility. The combination of a robust economy and desirable location make this property a promising investment opportunity in the Oakland real estate market.

The Tuxedo neighborhood in Oakland, CA, is a charming, diverse residential area known for its early 20th-century homes (Craftsman, Mission Revival), tree-lined streets, and suburban feel within the city, offering easy freeway access (I-580) and proximity to amenities like Highland Hospital, Manzanita Rec Center, and the Dimond District for shopping/dining. It's considered a desirable spot for families and professionals seeking character and convenience, balancing quiet living with access to Oakland's vibrant culture. Tuxedo offers a picturesque, historically rich, and convenient Oakland living experience, ideal for those wanting classic homes, good schools (nearby), and connectivity without being in the dense downtown core.

Commission-Brokers-Owner is a principal and not a broker. A selling commission of \$120,000 will be to be paid for the procurement and actual consummation of the transaction. If a buyer is procured and the sale is not consummated for any reason a commission will not be due payable.

One of the Hottest Apartment Markets in the Country-Oakland continues to be one of the leaders in the nation's apartment market in rent growth.

Location Description: Oakland is a vibrant and diverse city located in the heart of the San Francisco Bay Area, known for its unique cultural mix. It has a thriving arts scene, a bustling downtown district, and several major sports teams. The city's housing market is highly competitive, with a mix of historic and modern properties that cater to a wide range of renters. The cost of living in Oakland is more affordable than other Bay Area cities, making it an attractive option for those seeking an urban lifestyle without breaking the bank. In terms of location, some of the most desirable neighborhoods for multifamily real estate in Oakland include Temescal, Rockridge, and Montclair

Oakland, California, sits on the eastern edge of San Francisco Bay, known for its mix of city life and natural beauty. Its diverse culture, scenic landscapes and mild weather attract outdoor enthusiasts with sweeping bay views, numerous parks, and plenty of green spaces. From historic Victorian homes to modern hillside estates, Oakland's housing options cater to a wide range of residents. Education is central to Oakland's identity, bolstered by institutions like the University of California, Berkeley, while its vibrant cultural scene thrives in museums, theaters, and lively neighborhoods like Chinatown and Fruitvale, reflecting the city's diverse population. Recreational opportunities abound with parks, trails, and waterfront activities, highlighted by Lake Merritt, the nation's oldest wildlife refuge. Hosting major sports teams and diverse cultural events year-round, Oakland remains a growing hub of creativity, strategically located near San Francisco and Silicon Valley.

Additionally, the proximity to major employers, such as the tech companies in Silicon Valley and the healthcare industry in Oakland itself, makes these neighborhoods highly sought after by renters. Overall, Oakland's diverse neighborhoods, thriving culture, and growing economy make it an ideal location for multifamily real estate investments.

According to the California Department of Finance, the population in Alameda County was 1,510,303 in 2006, which is a 0.7% increase from the 2006 population of 1,500,228. Population for the county is anticipated to continue growing at a similar rate in the foreseeable future. Its growth and popularity can be attributed to its mild climate, close proximity to the coast, varied job opportunities and suburban residential communities. The estimated unemployment rate for Alameda County for July 2007 was 4.0%. This compares with an unadjusted unemployment rate 5.5% of California and 4.9% for the United States. In summary, Alameda County is experiencing steady growth in all areas due to its location, influx of major business opportunities, and overall economic stability. This trend is anticipated to continue into the near future.

San Francisco is the capital of culture, with the largest number of well-established cultural institutions. They include ballet, classical music, art, and the San Francisco Opera, which is regarded by many as one of the top 10 opera houses in the world. The city is also the news media center for all of Northern California and has been the West Coast's financial hub for 150 years. San Francisco's centrality is fading as other parts of the Bay Area grow. Some of the city's population is moving into the suburbs and the suburbs of former suburbs and Silicon Valley is spreading and transforming into other nearby parts of the Bay Area.

The East Bay possesses a diverse economic base featuring a wide range of manufacturing industries (transportation equipment, computer, food processing, fabricated metal products, non-electrical machinery, and stone-clay-glass products). In fact, East Bay has the most diversified manufacturing sector in Northern California. The fastest growing sector in the area is services, but manufacturing continues to grow. The Port of Oakland, the third largest containership port on the West Coast, is a major economic engine in the East Bay as well as the Bay Area as a whole.

Far less congested than San Francisco International, and more centrally located for the East Bay, Oakland International is becoming the people's choice for air travel. Oakland International is a West Coast distribution center for Federal Express, UPS, Airborne Express, Burlington Air Express, and Emery Worldwide, eleven commercial airlines provided more than 1,400, non-stop, direct or connecting flights weekly to destinations in the United States, Canada, Europe, and Mexico. The growth of Bay Area trucking has been fueled by distribution needs of region's industry and agriculture. Due to the high volume of ship container traffic from the Port of Oakland and the widespread use of advanced management techniques, virtually every major trucking firm in the nation has at least one terminal in the Bay area. In fact, there are over 1,000 registered trucking carriers in the East Bay making overnight delivery service to major California cities.

The East Bay has become one of the leading biotechnology research centers in the country with the research activities at the University of California Berkeley, Lawrence Berkeley National Laboratory, Lawrence Livermore National Laboratory, and the many private Biotechnology firms, which have located near the Universities and Labs.

Between the year 2010 and the year 2021 Alameda County population has increased each year. The population has increased 9% from 1,500,000 in 2010 to 1,600,000 in 2021. The California population grew by 5.1% and the US population by 7.3%. Alameda County's population is outpacing the state and US

EAST BAY POPULATION

County/Year (PMSA)	1980	1990	2000	Incr/1990	2010	Incr/1990	2021
Alameda (Oak)	1,105,379	1,304,684	1,443,741	10.66%	1,500,000	19.31%	1,600,000

The East Bay is a mixture of heavy industry (oil refineries, Oakland's container port); knowledge industries (software, biotech) developed around universities and scientific laboratories; and suburban offices, housing, and service industries. A bioscience cluster has developed around the University of California, Berkeley.

Transportation-The East Bay's transportation network has fostered the growth of all types of real estate. The Port of Oakland, an international airport, rail service by four carriers, and a network of interstate and state highways have played important roles in the development of the area. Five principal highways connect the East Bay with adjacent counties. Interstate 80 leads west to San Francisco via the Bay Bridge and east to Sacramento.

Interstate 580 connects the East Bay to the Central Valley and Southern California, via Interstate 5. Interstate 680 serves the area in a north-south direction. Interstate 880 accommodates north-south traffic circulation on the east shore of San Francisco Bay. Highway 24 links Oakland with eastern Contra Costa County, passing through the Caldecott Tunnel. Transbay bridges include the San Francisco-Oakland Bay Bridge, which extends interstate 80 into San Francisco; the Richmond-San Rafael Bridge, leading into Marin County and northern areas; and the Hayward-San Mateo and Dumbarton Bridges connecting East points with San Mateo and Palo Alto on the San Francisco Peninsula.

Sea and Air Cargo-The Port of Oakland, an independent agency of the City of Oakland, is the third largest container-ship port on the West Coast and ranks among the top 4 in the nation and 20 in the world in terms of annual container traffic. The Port has approximately 759.3 acres of developed terminal area, served by 35 container cranes, including 29 of the post-Panamax type, and 20 deep-water berths with a total of more than 20,000 linear feet of berthing length. The fourth largest seaport in the nation, the Port of Oakland handles 99% of all containerized cargo that passes through Northern California ports. Located at the terminus of three transcontinental railroads and four interstate highways, the Port of Oakland is a Key West Coast intermodal connection and the hub of Northern California's distribution system. The Port handled the equivalent of 1,923,104 twenty-foot containers.

The Port of Oakland also operates the Oakland metropolitan International Airport, which covers an area of approximately 3,000 acres, and is located nine miles from downtown Oakland. The airport serves more than 9.8 million passengers and handles more than 1.4 billion pounds of cargo annually. Oakland Metropolitan International Airport has 10,000-foot fully instrumented main runway that can be extended to 12,500 feet and a large terminal complex, capable of servicing up to 2,500 passenger arrivals and departures per hour. A separate International Arrivals Building has customs inspection and baggage claim facilities for handling 500 passengers per hour. The runways, taxiways and plane positions at both cargo and passenger terminals have jumbo jet capacities. Primarily general aviation aircraft also use three other runways. Operations of these general aviation runways are controlled from a separate tower.

Education-The Bay Area has a wealth of top-flight universities and colleges, including the two top-ranked graduate schools in the country, as well as one of the nation's top ranked medical schools. The Bay area is home to excellent institutions of learning.

Opportunities range from extending formal education to acquiring new skills or to simply taking courses of interest. Given the changing technologies driving and sustaining virtually every American industry, business can ill afford to ignore the educational background and enrichment of their workforce. Bay Area companies continually tap into the University of California at Berkeley's extraordinary Resource Can expertise in technology, medicine, business, and public policy. In fact, fancy high-tech. and biotech companies have spun off research originally conducted at Berkeley. Nearby, there are other top public and private colleges, such as Oakland's Mills College California State University, Hayward; Holy Names College; California College of Arts and Crafts; University of California, San Francisco and Davis; and Stanford University.

Compliance Certificate for Private Sewer Lateral

Parcel Address: **3104 14TH AVE, OAKLAND**Parcel Number: **022-0371-016-00**Expiration Date: **07/06/2028**Certificate Number: **73852**Issue Date: **07/06/2021**Type: **Compliance: repaired lateral**

Special Instructions:

Retain this PSL certificate for your records for any future parcel sale, re-model greater than \$100,000, or change of water meter size.

This certificate was issued solely on the basis of the performance of the tested sewer lateral in a verification test performed in the presence of EBMUD personnel. The verification test is designed for the sole purpose of determining whether the tested portion of a sewer lateral is free from leaks at the time the test is performed. By issuing this certificate, EBMUD warrants only that the tested portion of the sewer lateral passed a verification test on the date of the inspection. EBMUD makes no warranty, representation, or guarantee as to the sewer laterals existing or future condition or its compliance with the legal standards of any other jurisdiction, including building or construction standards without limitation. EBMUD expressly disclaims any and all warranties, both express and implied, as to the sewer laterals condition or compliance with legal standards and shall bear no liability in connection therewith.

OMC Chapter 15-27: Petition for Exemption
Page 2 of 3

PARCEL NUMBER 22-371-18-1

PART 2 – WORKSHEET

1. Was the building originally constructed or permitted for construction before January 1, 1991, or designed based on an adopted version of the 1985 or earlier edition of the Uniform Building Code? Yes No

Notes: _____

- If Yes:** Continue to Question 2.
If No: The building is tentatively exempt from OMC Chapter 15.27.
- Skip Questions 2 and 3.
 - Complete the Owner/Agent portion of Part 3.
 - Submit this petition form. Bureau of Building staff are authorized to require additional information as needed. If approved, the Bureau of Building will confirm the exemption in writing.

2. Does the building contain five or more *Dwelling Units*? Yes No

Notes: _____

- If Yes:** Continue to Question 3.
If No: The building is tentatively exempt from OMC Chapter 15.27.
- Skip Question 3.
 - Complete the Owner/Agent portion of Part 3.
 - Submit this petition form. Bureau of Building staff are authorized to require additional information as needed. If approved, the Bureau of Building will confirm the exemption in writing.

Question 3 requires the input of a California licensed design professional (architect, civil engineer, or structural engineer). It is the building owner's responsibility to engage a qualified design professional.

3. Does the building have a *Wood Frame Target Story*? Yes No

If No, indicate also which of these conditions is true:

- The building has no *Target Stories*.
- The building has one or more *Target Stories* but none is a *Wood Frame Target Story*.

Design Professional's Notes: The subject building has 2 nearly identical levels with slab-on-grade construction or ground floor framing that bears directly on the foundation. No crawl space with unreinforced wood-frame cripple wall. No target story.

- If Yes:** The building is subject to OMC Chapter 15.27. Do not submit this petition form.
If No: The building is tentatively exempt from OMC Chapter 15.27.
- Complete all of Part 3.
 - Submit this petition form. Bureau of Building staff are authorized to require additional information as needed. If approved, the Bureau of Building will confirm the exemption in writing.

DEFINITIONS (OMC Section 15.27.150)

Dwelling Unit. A Dwelling Unit shall include any individual residential unit in a building with R-1 or R-2 occupancy, as well as any guest room, with or without a kitchen, in either a tourist or residential hotel or motel but shall not include a housekeeping room. Any unit occupied as a Dwelling Unit, whether approved or not approved for such use, shall be counted as a Dwelling Unit.

Target Story. A Target Story shall mean either (1) a basement story or underfloor area that extends above grade at any point or (2) any story above grade, where the wall configuration of such basement, underfloor area, or story is substantially more vulnerable to earthquake damage than the wall configuration of the story above, except that a story is not a target story if it is the topmost story or if the difference in vulnerability is primarily due to the story above being a penthouse or an attic with a pitched roof.

Wood Frame Target Story. A Wood Frame Target Story means a Target Story in which a significant portion of lateral or torsional story strength or story stiffness is provided by wood frame walls.

ROBUST EMPLOYMENT MARKET

WORKING AGE DENSITY

Oakland Bounce Back

Oakland continues to attract skilled workers drawn to its central location and strong employment base. In early 2025, the city remained in-person work for all employees, igniting renewed confidence in the local economy. Major employers—including PG&E, Kaiser Permanente, and the Port of Oakland—are reinforcing this trend by expanding or returning staff to the office.

These developments underscore Oakland's continued rebound, fueled by renewed downtown activity and increasing demand for housing and services throughout the East Bay. Based on internal WDIS research, Oakland properties built after 2015 with 40 or more units have achieved year-over-year net effective rent growth of 8.8%. With no new projects currently under construction, this positive rent momentum is expected to persist in the near term.

OAKLAND GROSS & NET EFFECTIVE RENTS

Quarter	Gross	Net
Q3 2025	\$2,920	\$2,589
Q2 2025	\$2,913	\$2,562

PG&E RECENTLY EXERCISED OPTION TO BUY BUILDING FOR \$900M

NOTABLE RELOCATION FROM SAN FRANCISCO TO OAKLAND: PG&E
After more than a century being based in San Francisco, utility majority Pacific Gas & Electric (PG&E) announced their decision to relocate to Oakland in 2020. Their 5-year phased move began in late 2022 and is expected to conclude in late 2027. PG&E will occupy approximately 957K SF at Lakeside Center just 1.9 miles away from 1523 1537 8th Ave.
Andy Vesey, the CEO of PG&E's utility subsidiary, said in the statement that the company was proud of its long history in San Francisco but described Oakland as "a perfect fit" and "a thriving hub of industry and innovation in our state."

Affordability Constraints

Home ownership affordability constraints are still prevalent in Oakland, where the median single-family home price is \$700,691. With many residents unable to afford the skyrocketing costs associated with home ownership, let alone the equity of \$140,138 to make an initial down payment on a home in Oakland, demand for apartment homes in Alameda County will continue to be strong and will keep upward pressure on rental rates. With median SFH prices also prohibitively high for most residents in neighboring cities, renting is the clear option for the majority of the population, even with average household incomes rising in this region.

Oakland offers one of the most compelling opportunities for rent growth in Alameda county. Nestled between high-cost neighborhoods and thriving employment hubs, Oakland provides a unique combination of relative affordability and convenient access to major employers and lifestyle amenities.

CITY	MEDIAN SFH PRICE	\$/MO	AVG RENT	DELTA (\$)
San Francisco	\$1,336,000	\$8,541	\$3,349	\$5,192
Berkeley	\$1,330,833	\$8,508	\$2,664	\$5,844
Lafayette	\$1,949,167	\$12,462	\$2,596	\$9,866
El Cerrito	\$1,015,000	\$6,489	\$2,350	\$4,139
Castro Valley	\$1,112,500	\$7,113	\$2,267	\$4,846
Oakland	\$700,691	\$4,480	\$2,181	\$2,299

\$700,691
MEDIAN OAKLAND SFH PRICE

\$2,299
DISCOUNT TO OWNING

The average monthly rent for an apartment in Oakland is approximately \$2,299 less than the monthly cost associated with owning a median-priced home. Payment amount includes PITI, assumes 20% down payment and 7% interest on 30-year fixed mortgage.

Outstanding Demographics & Regional Employers

DEMOGRAPHICS WITHIN A 3-MILE RADIUS OF 1523-1537 8TH AVE

The average annual household income within a three-mile radius of 1523-1537 8th Ave is approximately \$124,193, bolstered by 55% of the population with higher education. As illustrated in the graph below, 45.7% of households within a three-mile radius make more than \$100K, with 20.4% making more than \$200K. Pairing this with the growing rift between the costs of renting versus buying a home, 1523-1537 8th Ave is in an excellent position to take advantage of steady demand, with room for rent growth for years to come.

Amenity Rich Neighborhood

Oakland is a city that truly has it all, blending vibrant neighborhoods, lively entertainment, and a world-class dining scene. Jack London Square is the perfect place to spend an afternoon, offering a scenic waterfront, unique shops, and the chance to step aboard the historic USS Pocomac. When the sun sets, the square transforms into a nightlife hotspot with bustling bars and restaurants like Miss Pearl's, Jam House and The Fat Lady, where you can enjoy delicious cocktails and live music by the water. Temescal District is a must-visit for food lovers, with its charming shops, artisan cafes, and upscale eateries like Pizzeria and The Wolf, offering everything from wood-fired pizzas to modern American cuisine. For a true Oakland experience, head to Uptown, where you can catch a show at the iconic Fox Theater or explore the diverse nightlife scene at The Layover or Botello, where craft cocktails and live performances await. If you're looking to unwind, Lake Merritt offers a peaceful escape right in the heart of the city, perfect for a walk, picnic, or a relaxing boat ride. And when hunger strikes, enjoy the exquisite flavors at nearby gems like Brown Sugar Kitchen for soul food or Comms for an unforgettable fine dining experience. Whether you're seeking arts, food, or entertainment, Oakland's neighborhoods offer the perfect mix of modern conveniences, local charm, and unforgettable experiences.

RATED **A+** IN NIGHTLIFE, WEATHER, OUTDOOR ACTIVITIES, HEALTH & FITNESS according to [noodle.com](https://www.noodle.com)

FOX THEATER

Located just a quick 9-minute drive from 1523-1537 8th Ave, the Fox Theater in Oakland is a must-visit venue for live entertainment. Originally opened in 1928 and beautifully restored in 2019, this historic theater boasts a stunning Art Deco design and can hold up to 2,800 attendees. Known for its excellent acoustics and intimate atmosphere, it has hosted some of the biggest names in music. Legendary performances include shows by Kendrick Lamar, Prince, and The Rolling Stones, who all graced the Fox's stage in memorable, high-energy performances. Whether you're catching a world-class concert or enjoying a Broadway show, the Fox Theater offers a truly unique experience with its rich history, remarkable architecture, and top-tier entertainment.

Lake Merritt

Located within walking distance from 1523-1537 8th Ave is Lake Merritt, the natural centerpiece of Oakland. Always a popular place for both locals and visitors, Lake Merritt is a three-mile tidal lagoon and is home to the oldest wildlife refuge in the U.S., designated in 1870. Dotted with great cafes and restaurants surrounding the lake, and with trails for walking, biking, and rollerblading, it's easy to see why Lake Merritt is one of the best features of Oakland. Attractions on the east side of the lake include the Bonser Garden, Rotary Nature Center, and Children's Fairyland, which draw thousands of tourists each year. On the south end is the Lake Merritt Amphitheater, and the Oakland Museum of California is just a block away.

Residents at 1523-1537 8th Ave have the option to enjoy a walk to and from Lake Merritt, grab a bite to eat at a wide variety of restaurants along the way, and get their shopping done at Whole Foods or Target before they go home - all within about a mile. Oakland is truly a walker's paradise, and it's no wonder this city shows up so frequently on lists of the top 25 healthiest cities in America.

Downtown Oakland

Oakland is located across the Bay Bridge from San Francisco and is the central hub of the East Bay. With beautiful weather year-round, a thriving restaurant and entertainment scene, and one of the most culturally diverse populations in the United States, it's plain to see why Oakland has been a hot West Coast destination for over a decade. Oakland is also much more affordable to live in compared to San Francisco and offers a far more business-friendly climate than neighboring cities in Northern California. From downtown attractions, to the shoreline, to the Oakland Hills, there is something for everyone to love about this remarkable city.

MARKET OVERVIEW

- The population will expand by about 66,000 residents during the next five years, resulting in the formation of more than 27,000 households.
- Due to high home prices and a large proportion of 20- to 40-year-olds, the homeownership rate of 56 percent is well-below the U.S. average, supporting a large renter pool.
- Roughly 42 percent of the population ages 25 and older have attained a bachelor's degree, with nearly 20 percent also holding a graduate or professional degree.

2023 POPULATION BY AGE

QUALITY OF LIFE

The past decade's redevelopment of Downtown Oakland has resulted in housing, office and retail construction, which has improved the quality of life for urban dwellers. In the East Bay, residents and visitors enjoy cultural and recreational activities, including the symphony, an award-winning zoo, the Paramount Theatre, the Oakland Museum of California and numerous parks. The remaining major league sports team in the metro is the Oakland Athletics of the MLB, who play at the Oakland-Alameda County Coliseum. The organization's lease, however, expires in 2024, and the team is expected to relocate to Las Vegas. The Oakland Arena, which was the home of the NBA's Golden State Warriors, is now used for concerts and events.

BAY AREA

This Bay Area city was named hottest real estate market in US

by: Rob Nesbitt

Posted: Nov 28, 2023 / 05:35 PM PST

Updated: Nov 28, 2023 / 08:18 PM PST

SHARE

(KRON) — Oakland has been listed as one of the hottest real estate markets in the country, [according to GoBankingRates.com](https://www.gobankingrates.com).

The website compared every city's real estate market factoring in things like sale price, number of days on the market and number of homes sold.

Oakland's Rockridge neighborhood is a quiet suburban area with a lot to offer and a lot of high-end homes. But high-end homes seem to be the hardest to sell for realtors. The article published Sunday boasts Oakland's housing opportunities saying the median number of days a home for sale is on the market is just 19 days with 72 percent of homes selling above asking price.

David Stark with the Bay East Association of Realtors said that's because of location, location, location.

HOUSING & HOMELESSNESS

Rare opportunity to apply for Section 8 housing waitlist in Oakland

For the first time in 14 years, the Oakland Housing Authority will accept applications for the affordable housing voucher waitlist.

by **Natalie Orenstein**
Jan. 3, 2025, 3:00 p.m.

The Oakland Housing Authority will hold a lottery for 5,000 new spots on the voucher waitlist. Credit: Florence Middleton

The [Oakland Housing Authority](#) is opening its waitlist for Section 8 housing vouchers, which can be used by low-income households to pay part of their rent.

[Applications](#) will open Jan. 7 through Jan. 26 for 5,000 new spots on the list. It's a rare opportunity for Oakland residents seeking affordable housing: the waitlist last opened in 2011.

Recipients of Housing Choice Vouchers — still commonly referred to by their former name, Section 8 — are responsible for paying 30-40% of their monthly income toward rent and utilities. The voucher covers the rest.

Even though the waitlist is reopening, the Oakland Housing Authority has not recently received any new vouchers from the federal government, which distributes them to local authorities. Instead, the agency is planning to reissue a number of existing vouchers from recipients who've moved on to other housing situations, said spokesperson Kelsey Frost.

- [Apply online](#) for the Section 8 waitlist
- Read [our guide](#) to applying for affordable housing

Interested individuals and households can apply [online](#) or in person at Oakland Housing Authority locations where staff can assist. These centers are located at 1327 65th Ave., 1540 Webster St., and 935 Union St. (See dates and times [online](#).)

The agency “encourages every family seeking affordable housing in Oakland to apply to the waiting list lottery,” Frost said. “We have staff to assist with the process, including in-person application kiosks at several locations, multilingual translation, and assistance for persons who may need additional support with the process.”

When applications close, the housing authority will run a random lottery to select the 5,000 households who will be placed on the waitlist. Depending on their spot on the list, selected households could end up receiving a Section 8 voucher in a matter of weeks — or they could wait on the list for years before getting called on.

In order to be eligible, an applicant must make under 50% of the median income for the area. That means a family of four must make under \$77,850. A household of two must make under \$62,300. (See [all current limits](#).)

Section 8 is not a public housing program, meaning voucher-holders must find their own private apartments or houses to rent, as well as landlords who will accept them as tenants. But the government determines how much the overall rent is, setting the cost at what it considers to be a fair market value.

It is illegal in Oakland for landlords to discriminate against prospective Section 8 tenants — they must give everyone a shot at applying for an open unit. But ultimately it's up to the property owner to decide whom to rent to.

When the Oakland Housing Authority received several hundred emergency vouchers early in the COVID-19 pandemic, the agency teamed up with then-Mayor Libby Schaaf to [encourage landlords to participate](#) in the program. There is a benefit to property owners, who can expect regular and timely rent payments. That campaign was successful, Frost said. The housing authority also offers incentives, like paying for some capital improvements at participating buildings and covering security deposits.

Subsidized housing is costly and slow to build, and Oakland doesn't have nearly enough, so the Section 8 program is meant to give low-income renters flexibility and a better chance to find an affordable home.

There are also some vouchers tied to specific affordable housing projects.

Because the vouchers come from the federal government, the program can receive more or less investment depending on the given administration. Some people in the affordable housing industry are concerned that President-Elect Donald Trump could scale down the program.

“Under a worst-case scenario, in which the Section 8 program is severely down-sized, some existing buildings that rely on Section 8 to maintain operations will need to seek other sources, raise rents, or face financial uncertainty,” Emily Weinstein, director of Oakland's Housing and Community Development Department, [previously told](#) The Oaklandside.

Frost said the housing authority will work with the new administration and landlords to guarantee “the highest and best use of precious federal dollars to ensure housing opportunities reach as many families in Oakland as possible.”

Correction: This article previously incorrectly said voucher recipients pay 30-40% of the total rent cost. Voucher holders actually pay 30-40% of their household income toward the total rent cost.

Job boom returns to Bay Area and California as hiring surges in May

South Bay powers Bay Area jobs upswing

By George Avalos | Bay Area News Group | PUBLISHED: June 21, 2024 at 9:55 a.m. UPDATED: June 21, 2024 at 4:17 p.m.

Led by a hiring surge in the South Bay, the Bay Area powered to big job gains in May, banishing — at least for now — the ominous specter of a weak labor market and job losses that haunted the region earlier this year.

The nine-county region added 7,000 jobs in May, the most in a month since December 2023 when the area produced a gain of 11,200 positions, the state's labor agency reported Friday.

The Bay Area's upswing in hiring during May occurred despite massive job cuts in the region's tech industry, primarily in the San Francisco metro area.

The South Bay muscled up to produce a gain of 3,300 jobs, nearly half of all the hiring in the Bay

Area during May, according to the state Employment Development Department.

The East Bay added 2,100 jobs.

The San Francisco-San Mateo region added 1,000 positions, the EDD reported.

California added 43,700 jobs in May and also reached a record-high number of nonfarm payroll jobs that topped 18 million.

Both the California and the Bay Area numbers were adjusted for seasonal volatility.

"The California and Bay Area labor market firmed in May following a string of disappointing job reports, rekindling expectations for a soft landing for the Bay Area economy following two years now of higher interest rates and rapid inflation," said Scott Anderson, chief U.S. Economist for BMO Capital Markets.

The statewide unemployment rate was 5.2% in May, an improvement from 5.3% in April.

The improvement marked the first time in nearly two years that the statewide jobless rate decreased. In August 2022, the statewide unemployment rate reached a record-low level of 3.8%. Until the improvement in May, it had worsened steadily.

"The labor market performance was good enough to calm some nerves in Sacramento and raise the odds that the Bay Area expansion will continue to muddle through in the months ahead," Anderson said.

Here is how some key industries fared in the Bay Area during May, according to seasonally adjusted numbers that Beacon Economics derived from the EDD official report:

— Tech companies slashed employment by a net 2,100 jobs. They cut 2,200 jobs in the San Francisco-San Mateo region and another 400 in the South Bay. The tech industry, however, added 600 jobs in the East Bay.

— Hotels and restaurants added 1,300 jobs in the Bay Area. Hotels and restaurants gained 800 jobs in San Francisco-San Mateo and 400 in the South Bay.

— Financial services firms added 1,700 jobs in the Bay Area, driven primarily by an increase of 1,000 in the San Francisco metro area and 600 in the East Bay. This sector includes banks and other financial firms, insurance companies and real estate firms.

— Health care firms increased employment by 1,200 positions in the Bay Area in May. The South Bay added 1,000 health care jobs last month, the Beacon estimate showed.

"In the Bay Area, the volatile tech and information sectors are still negative, with growth concentrated in hospitality, health care and government," said Jeffrey Michael, executive director of the Stockton-based Center for Business and Policy Research at the University of the Pacific.

It's become clear that the Bay Area's post-coronavirus recovery has begun to lag behind California as a whole.

The state's total of 18.03 million payroll jobs in May was 1.2% higher than the jobs it had in February 2020, the final month before government-mandated business lockdowns went into effect to combat the spread of the coronavirus.

Yet the Bay Area and its three major urban centers all remain below their pre-COVID job heights.

Here is what this news organization's analysis of the EDD report shows regarding the Bay Area's post-coronavirus employment recovery. The numbers compare the May 2024 numbers with February 2020 levels:

- The Bay Area is 1.3% below the February 2020 level, or a jobs deficit of 53,300.
- The South Bay is 0.2% beneath the pre-COVID figure, or a shortfall of 1,800 positions.
- The East Bay is 0.3% below, or a gap of 3,200 jobs.
- The San Francisco-San Mateo region is 3.7% under the pre-coronavirus total, which is a jaw-dropping deficit of 44,300 jobs.

Over the most recent 12 months that ended in May, the East Bay's job totals have risen 0.9%, while the South Bay and the Bay Area are up 0.5%.

In sharp contrast, San Francisco-San Mateo's job totals are down 0.5% during the one-year period.

The San Francisco-San Mateo metro area, Michael said, is "the only one of California's 29 metro areas that has lost jobs over the past 12 months."

Over the first five months of 2024, the San Francisco metro area lost 6,400 jobs. Until the gains in May, the San Francisco region had lost jobs every month this year.

The Bay Area's hefty hiring in May of a net total of 7,000 workers provided a hopeful counterpoint to the dreary trends for the region during the first four months of the year.

From January through April, the Bay Area had lost 600 jobs. But May's upswing means the Bay Area has gained 6,400 jobs over 2024's first five months.

During that same five-month period, the East Bay gained 3,600 jobs.

The South Bay, however, is the primary driver of the Bay Area job market so far in 2024. During the first five months of the year, the South Bay added 7,500 jobs and lost jobs in only one month, February,

The various trends suggest the South Bay retains its top-notch status as a jobs engine, despite the tech sector's well-known boom-and-bust cycles, according to Russell Hancock, president of Joint

Strong Demand for Multifamily to Continue into 2024

Meanwhile deliveries are roaring ahead with the year expected to surge 51.1%.

By **Barbara Ballinger** | September 13, 2023

Demand continues to remain solid for the multifamily asset class as absorption in this year's first half surged to 98,429 units with an increase of 83,449 units in the second quarter of 2023, according to a new report by Newmark. This number almost quadruples absorption from last year's first half, and demand is expected to accelerate in the second half of 2023 and beyond to the first half of 2024.

So far supply – set to reach a 50-year high this year – is keeping pace. Already in this year's first half, 198,806 units were delivered, a record, and total deliveries for the entire year are projected to surge 51.1% year-over-year. Deliveries are also expected to increase in the second half through 2024.

In the four quarters ended in the 2Q of this year, the median market saw inventory growth by 2%. Ten out of 150 markets experienced growth above 5%. But over the next four quarters, change is coming with this measurement set to grow by 3.2%, including in 28 markets with inventory growth of 5% or more. As most markets reflected more new deliveries and with that expected to continue, some markets may be slower to absorb new inventory. But even if that turns out to be true, absorption in 40 of the top 50 markets is still expected to outpace the 2018-2022 annual average.

Meanwhile, for the first time in three quarters, multifamily had positive effective rent growth quarter-over-quarter in the second quarter of this year. Midwestern markets made up six of the top 10 markets for greatest YoY effective rent growth. However, rent growth continued to slow YoY.

Worth noting is that multifamily expenses increased a significant 8.3% Y-o-Y, mostly due to a 28.6% rise in insurance costs, which along with management and other expenses put a strain on landlords. Also, on the to-be-watched list is how price dislocation and the higher interest rate environment hinder the investment sales market, evidenced by the 71.8% YoY decline to \$28.2 billion in quarterly sales volume.

Cities With the Most and Least Expensive Apartment Rents

New York City tops the list as the most expensive U.S. city to rent a one-bedroom apartment—\$3,260—while Wichita, Kansas ranks as the state with the least expensive on-bedroom rent—\$650, [according to a report](#) by Zumper, a renters assistance organization.

Cities With Most Expensive Rents

Ranking	City	Monthly Price for One Bedroom
1	New York City	\$3,260
2	San Francisco	\$2,910
3	Boston	\$2,660
4	Miami	\$2,500
5	San Jose, California	\$2,420
6	Los Angeles	\$2,300
7	San Diego	\$2,280
8	Washington, D.C.	\$2,230
9	Oakland, California	\$2,070
10	Santa Ana, California	\$1,950

After a year of substantial rent growth, Miami passed San Jose to become the fourth most-expensive rental market, the report says. The shift in the rankings shows how quickly rent has increased in Miami and how slow rent growth in the San Francisco Bay Area continues to be.

Cities With Least Expensive Rents

Ranking	City	Monthly Price for One Bedroom
1	Wichita, Kansas	\$650
2	Akron, Ohio	\$680
3	Lubbock, Texas	\$690
4	Shreveport, Louisiana	\$730
5	Lexington, Kentucky	\$800
6	El Paso, Texas	\$810
7	Laredo, Texas	\$810
8	Baton Rouge, Louisiana	\$820
9	Oklahoma City, Oklahoma	\$830
10	Tucson, Arizona	\$840

Rent in 2022 is rising faster than in 2021, according to the report. In March, the average one-bedroom rent nationally rose to an all-time high of \$1,400, which represents a growth of 2.5% for the calendar year so far. This is higher than the 1.9% rise experienced over the same period last year.

TREMENDOUS ACCESS TO MAJOR EMPLOYERS

SAN FRANCISCO MARKET OVERVIEW

San Francisco and the greater Bay Area is a world leader in the fields of technology, life sciences/biotech, hardware, software, social media and alternative energy, and is also home to the second largest corporate base of Fortune 500 companies in the United States. The region's robust venture capital community, leading research and academic institutions, and entrepreneurial and innovative spirit have spawned global technology and biotechnology giants including Google, Apple, Facebook, Salesforce, Oracle, Cisco Systems, eBay, Genentech and Gilead. In addition, the region continues to foster a host of next wave companies including Uber, Twitter, Dropbox, Airbnb, Square and Okta that draw upon the Bay Area's exceptional talent and creativity.

OAKLAND MARKET OVERVIEW

Major office occupiers continue to look east to Oakland to be closer to employee bases. JLL reported tenant requirements nearly doubled quarter over quarter in Q4 2021. In 2021, PG&E finalized plans to move operations out of San Francisco to 87,000 SF in Oakland's 300 Lakeside, aiming to fully occupy in 2023, while Twitter finalized its expansion into Oakland's downtown. Oakland has attracted significant Bay Area office tenant attention and there have been over 2.2 million SF in total office migrations and expansions from San Francisco to Oakland over the last decade.

880 CORRIDOR MARKET OVERVIEW

The 880 Corridor is also poised for the most growth in the Inner Bay. From East Oakland to Fremont, this is the last area to "mature," as it has been preceded in development by San Francisco, the Peninsula, and the South Bay/Silicon Valley. The 880 Corridor has formerly been home to workforce housing and industrial land uses, but its cities have been implementing more zoning for housing in recent years. Indeed, one of the characteristics of the most recent cycle has been a new activation of the 880 Corridor. In addition to its relative housing affordability at a discount to the balance of the Inner Bay, employers have been establishing outposts in the Corridor, such as Tesla's Fremont location and Facebook's Ardenwood site in Newark. BART's completed extension into San Jose and its Phase 2 to Santa Clara are further deepening the Corridor's rapid connections to all Bay Area employment hubs.

RELATIVE AFFORDABILITY WITHIN THE BAY AREA

SIGNIFICANT DISCOUNT TO HOME OWNERSHIP

Given the high home values in the area, the ability to put down 20% on a house can be difficult for even high wage earners, which makes renting the more attractive option for people looking to live in the Bay Area. The table to the right displays the difference between renting a unit in the Portfolio and buying a house in Oakland. It is roughly 63% more expensive on a monthly basis to buy versus rent and takes roughly \$172,510 (20%) down to purchase a home in Oakland. This analysis makes the Portfolio an attractive alternative to owning a home, especially for young professionals and families looking for a more affordable option with direct access to employment centers.

DISCOUNT TO HOME OWNERSHIP	
Average Oakland Home Price	\$862,652
Down Payment (20%)	\$172,510
Mortgage Amount	\$690,042
Interest Rate	5.83%
Monthly Principal and Interest	\$4,106
Monthly Tax Payment (\$11,878 / year)	\$990
Total Monthly Housing Payment	\$5,096
Annual Housing Payment	\$61,152
Portfolio Average Projected Asking Rent	\$1,865
Portfolio Annual Rental Payment	\$22,380
Discount to Home Ownership	63%

OAKLAND OVERVIEW

Oakland is the largest city in Alameda County, the third largest city in the San Francisco Bay Area, and the foundation of the East Bay market. The Oakland CBD encompasses over 22 million SF of office space, 3.7 million SF of retail, 68.5K units of multifamily residential, and 1,698 hotel rooms.

Oakland has evolved into one of the most attractive commercial real estate markets in the nation. Over the last 10 years 4.4 million SF of office space, 465,170 SF of retail space, 7.4 thousand multifamily units have been developed in Oakland. Oakland also offers a multitude of transit options including the BART, AC Transit, I-880/980/580, and Oakland International Airport, as well as a vibrant arts and culture scene featuring numerous restaurants, cafes, entertainment options, and other lifestyle amenities.

Oakland has become well known as an alternative Bay Area office hub, due to its central location and easy access to transit within the Bay Area, better value rents, thriving cultural scene, and presence of large tech offices such as Square (356K SF), Callisto Media (78K SF), Fivetran (79K SF), and Pandora Media (124K SF), Blue Shield (277K SF), Credit Karma (170K SF), Exelxits (110K SF), Delta Dental (82KSF) and UCSF/CHO (125K SF). Most recently, Twitter announced that it will be establishing a presence in Oakland and signed a 66K SF lease at 1330 Broadway. Twitter's decision was made despite its announcement to allow employees to permanently work from home and illustrates the desire for high-quality office space, despite hybrid or work from home arrangements. Twitter's choice of Oakland was largely driven by the need to attract and retain talent in the post-COVID world, underscoring the area's strong amenity base and favorable characteristics.

Office and Multifamily developers have responded nimbly to the greater interest in Oakland and have delivered over 1.5 million SF of office space and 3,346 residential units since 2019. Developers rely on their ability to continue attracting young, well-paid workers into Downtown Oakland to fill up new projects. In a city where 60% of households rent, Oakland's population grew by over 10% from 2010 through 2020, one of the fastest rates of any East Bay city.

ROBUST MARKET GROWTH

Oakland has evolved into one of the most attractive commercial real estate markets in the nation. The area has experienced tremendous growth with over 7.0 million SF of commercial space either approved for development or in planning. Additionally, office rents have risen 16% over the past 36 months, driven largely by growth in the technology sector, with FinTech companies taking nearly 50% of newly leased space in the past 12 months.

OAKLAND MULTIFAMILY MARKET OVERVIEW

DEMAND STILL OUTWEIGHS SUPPLY

Oakland's office market has produced over 1.5 million SF in new deliveries and redevelopments since 2019. In addition, there are nine projects in the pipeline totaling 7.0 million SF, with seven of the nine projects (6.1 million SF) located in Uptown Oakland.

GROWTH IN OAKLAND OFFICE SECTOR

Major office occupiers continue to look east to Oakland to be closer to employee bases. JLL reported tenant requirements nearly doubled quarter over quarter in Q4 2021. In 2021, PG&E finalized plans to move operations out of San Francisco to 87,000 SF in Oakland's 300 Lakeside, aiming to fully occupy in 2023. Data grant, Fivetran, also signed for and occupied 79,377 SF in Q3 2021 while Twitter finalized its expansion into Oakland's downtown, leasing 66,600 SF in Q3 2021 and occupying Q2 2022. Oakland has attracted significant Bay Area office tenant attention and there have been over 2.2 million SF in total office migrations and expansions from San Francisco to Oakland over the last decade. The high-technology sector has generated a substantial proportion of the growth in the Oakland office sector as tenants discover the higher quality of life, discount to San Francisco rents, and the large population base in the East Bay, which represents 40% of the Bay Area workforce overall. Looking forward, there is over 7 million SF in Oakland's office development pipeline (~75% of which is fully entitled), providing further employment and commercial growth nearby.

TWITTER OAKLAND LEASE - THE TIPPING POINT FOR FURTHER OFFICE EXPANSIONS AND GROWTH

Despite switching to a permanent Work from Home model during the Pandemic, Twitter signed a 66,000 SF lease at 1330 Broadway in 2022, located in the heart of Downtown Oakland. The office was designed to be used with a hybrid work model in mind and offers a convenient location for Oakland based commuters. The lease not only demonstrates that there is still a place for a physical office in the post-COVID world, but also underscores Oakland's attractive amenity base, which appeals to younger, high-earning tech employees. The market is poised for tremendous growth as others follow suit.

"The Oakland office market has maintained strong tenant demand from companies both growing their footprint in Oakland and those looking to move to Oakland for its strong workforce, diverse lifestyle, entertainment options, transportation, and ample housing options"

- David Cropper, TMG's Director of Development

Twitter's expansion into Oakland demonstrates that major employers are still drawn to our city's unique cultural amenities and creative energy

- Libby Schaaf, Oakland Mayor

COMPELLING VALUE COMPARED TO SAN FRANCISCO

RENTAL SPREAD AND LACK OF AVAILABILITY DRIVING IN-BOUND MIGRATION

With the rental spread between San Francisco and the Oakland CBD currently at 32%, Oakland offers San Francisco users a compelling value proposition to San Francisco's rapidly escalating cost environment. This, in combination with a lack of expansion options, and lack of any significant new San Francisco deliveries is fueling an acceleration of in-bound migration to the Oakland CBD. Since the beginning of 2011, Oakland has seen nearly 2.9 million SF of inbound migration, the vast majority of which has come from San Francisco.

LIMITED LARGE BLOCK AVAILABILITY

The acceleration of this in-migration has only further pressured the supply demand imbalance for office space within the Oakland CBD. The newly proposed office supply in Oakland will be welcomed by prospective tenants.

SAN FRANCISCO VS. OAKLAND URBAN METRO RENTAL RATES

32%
Rental spread to San Francisco

81%
Of in-bound migrations relocated from San Francisco

14
Minutes to Oakland International Airport

12
Minutes to San Francisco on BART

BENEFITS BEYOND THE RENTAL SPREAD

Beyond rental spreads, the Oakland CBD offers users the additional benefit of lower associated operating costs and compelling tax efficiencies. The City of San Francisco has historically charged businesses a payroll tax however, beginning in 2014, the City has begun converting to a gross receipts based tax structure. While the City of Oakland charges a similar gross receipts based tax, the associated rates in Oakland are equivalent to roughly half that of those charged by the city of San Francisco.

RELEVANT BUSINESS TAX CLASSIFICATIONS & RATES

OAKLAND	
CLASSIFICATION	TAX RATE
Commercial / Rental ¹	1.395%
Business / Personal Services	0.16%
Professional / Semi-Professional	0.36%
Administrative Headquarters	0.12%
Media Firms	0.12%
Public Utilities	0.12%
Total	2.28%

SAN FRANCISCO	
CLASSIFICATION	TAX RATE
Total Commercial Gross Receipt Tax ²	3.50%
Information Services	0.125-0.475%
Civic	0.075-0.150%
Utilities, Arts, & Entertainment	0.300-0.400%
Private Education, Health, Administrative	0.525-0.650%
Finance, Insurance, Prof., Scientific, Technical Serv	0.400-0.560%
Total	5.225%-6.045%

¹ San Francisco Gross Receipt Tax reflects incremental tax range based upon gross revenue.
² Commercial Gross Receipt taxes are generally 100% passed through from Landlord to Tenants.

TOP BAY AREA TENANTS BRING TOP BAY AREA TECH SALARIES TO OAKLAND

As Oakland's expansion progresses, high-profile and high-paying tenants continue to move to the market. With this, the demand for Class-A luxury apartments has never been higher.

COMPANY	WALK TIME	SCOOTER / BIKE TIME	AVERAGE SALARY
Square	7 Minutes	2 Minutes	\$169,867
Nvidia	7 Minutes	2 Minutes	\$147,640

Average Tech Salary			\$126,448
Average Oakland Income			\$85,000

OAKLAND A CENTER OF JOB GROWTH

As Oakland office market continues to expand, it is attracting high profile and high-paying tenants emigrating from San Francisco. As the office, residential and retail infrastructure in Oakland grows, both employers and employees are increasingly selecting Oakland as a strategic alternative to San Francisco. Along with this, companies in San Francisco and the Peninsula are moving across the Bay to accommodate their large base of employees who live in the East Bay.

Recent leases from companies such as Square and Credit Karma are quickly turning Oakland into the Fintech epicenter of the Bay Area, with FinTech companies taking 44% of newly leased space in the past three quarters. Last year, tech unicorn, Fivetran, executed the city's largest lease of the year (80,000 SF) and moved-in late December. More recently, Twitter announced it signed a 66,000 SF lease at 1330 Broadway St., representing not only the ongoing wave of tenant migration from San Francisco, but also that remote work will not stop tech growth & its expansion efforts.

Oakland has over 7M SF of office space in its pipeline, which will begin delivering this year. These newly built and renovated office spaces will continue to drive Oakland's expansion into additional tech and the higher-wage salaries that follow.

OAKLAND ANTICIPATED TO EXPERIENCE SIGNIFICANT RENT GROWTH AS THE RENTAL GAP NORMALIZES

Oakland is anticipated to experience significant rent growth, bringing the rental gap between Silicon Valley & San Francisco back in-line with its pre-pandemic gap.

The rental gap between Silicon Valley and San Francisco relative to Oakland has grown and been further exacerbated by the pandemic. As the graph below highlights, Oakland rents were on average approximately 25% below Silicon Valley and San Francisco prior to 2020. Today, the rental gap has increased more than 35%, respectively. Moving forward, this suggests a clear "snap-back" of rent growth or tightening of the gap between these respective markets as Oakland continues to experience positive absorption and concession burn-off as the supply demand re-balances.

OAKLAND: A STRATEGIC ALTERNATIVE TO SAN FRANCISCO TENANTS & RENTERS

The severe Jobs : Housing imbalance will have meaningful impact on San Francisco and Oakland multifamily market;

SAN FRANCISCO

- Rents will continue to rise
- Renters will transition to Oakland, seeking rent relief in a metropolitan setting

OAKLAND

- Net absorption will remain high
- Rents will continue to rise
- Concessions will decline

NOT ENOUGH SAN FRANCISCO BAY AREA HOUSING: THE GREATEST JOBS TO HOUSING IMBALANCE IN THE COUNTRY

Job creation has outpaced the infrastructure available to accommodate the needs of a rapidly growing economy. Housing is the most critical challenge to regional growth. In the past six years, there was one new housing unit built for every 6.9 Bay Area jobs created. This is far behind the national and statewide rates of 2.5 and 5.3 jobs per unit, respectively, and a larger shortfall than that experienced during the late 1990s. Inadequate supply has led to greatly increased prices; a trend that will likely continue.

BAY AREA'S JOBS: HOUSING RATIO CONTINUES TO WEIGH HEAVILY TO EMPLOYMENT, DENOTING THE LACK OF HOUSING UNITS

RISING HOME COSTS OUTPRICE BUYERS

HOUSEHOLD INCOME VS. MEDIAN SALE PRICE QUALIFICATION

Based on the average household income for Oakland and the larger Alameda market, residents require over 600% more income in order to qualify for the purchase of a home at the median sale price.

HOMEOWNERSHIP AFFORDABILITY

BAY AREA RECOVERY - ECONOMIC INDICATORS ARE HERE

Prior to the pandemic, the Bay Area ranked number one among large metropolitan areas in average annual GDP growth over the previous decade. Unemployment stood at historic lows in the Bay Area at 2.7% in February 2020 prior to the pandemic. The region has rebounded quickly with unemployment reaching 2.2% in May 2022, while continuing to achieve more than 30% of U.S. venture capital investment.

According to Oxford Economics, the Bay Area is forecasted to grow the fastest on a GDP per worker basis amongst major U.S. metros. Bay Area's technology, research, and life science concentrations place the region at the center of advanced industries, be it advanced mobility, artificial intelligence, therapeutics, or cloud solutions.
