Acres: 37.870 (\$217,800 per)

37.87+ acres for multi-family and commercial development. Located just north of the James A. Reed Memorial Wildlife Area, this property is close to schools, retail and highways. Property is divisible and ideal for commercial development. The property is adjacent to the new Griffin Riley development to the west which includes residential, multi-family and retail.

Lee's Summit has planned a collector road that will bisect the property north/south through a planned residential community to the west. This will be the primary access to the property. Sewers run west - east along the northern property line. Seller is willing to divide the property, north/south, for the right terms.

The property is presently in unincorporated Jackson County, MO, but will need to be annexed into Lee's Summit to be developed.

Lee's Summit has a history dating to the 1850s. Now a bustling community nearing 100,000 residents, it stands alone with well-planned neighborhoods, vibrant shopping centers, and a strong employment base. It is highly accessible via Interstate 470 and State Highway 350. Money Magazine ranks it consistently in the Top 100 Best Places to Live, moving to #27 in 2010.

# about us

our  
credentials  
include:

## by far, the largest brokerage of land in the Kansas City metro.

For over 20 years now, we have had the top 20 commercial real estate firms in Kansas City polled, counting and cataloging all of their land listings. And for 20 years running, **The Land Source offers more commercial land listings than all of those other firms combined.**

As the only default land brokerage company in KC, our client's land gets more looks than land listed by any another other firm in town.

## we've got skills.

The Land Source is uniquely qualified to be your **Development Services** team. We have led dozens of projects - in multiple KC municipalities - through gaining governmental entitlements for owners to build their investments. Our fee-based services are designed for our clients to retain all equity within their ownership group.

## we practice the Art of land realty.

As dirt simple as some might think the business of land realty is, in truth, **it's an art.** Nowhere in real estate does the confluence of capital financing, architecture, engineering, governmental pleasantries, utility services, stormwater runoff, tax incentives, and grandma's third-cousin-once-removed-co-trustee-still-on-the-deed, come into play more than in land realty. The Land Source has been there – on both sides of the many fences – and our experience will benefit you.

## technology edge.

Our proprietary technology systems form an integrated and collaborative platform that all members of our team utilize. Our database merges our 22,000+ contacts, **7,000+ land properties**, and 1,600 land contracts with our marketing systems. While most brokers only work their personal listings with their own contacts, our open systems are accessible to all of our team members, from any of their devices, anywhere in the world. This efficiency creates the setting for optimal communications which leads to better outcomes for our clients.
