## NORTHWEST COUNTY & NEW DEVELOPMENT

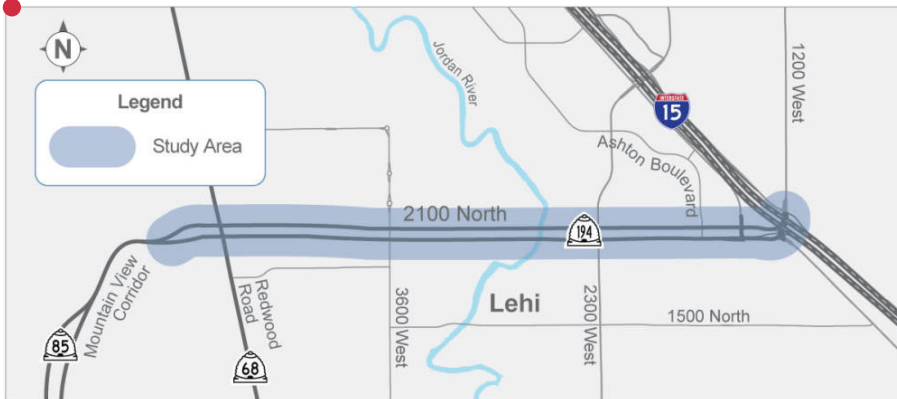

As the Northwest continues to grow, UDOT plans to expand roadways and freeway access. This bodes well for future development within the retail sphere - increasing traffic counts and improving flow of traffic.

### 2100 North Freeway Project

The 2100 North Freeway Project will improve transportation in Lehi and improve the east/west connection from I-15 to Mountain View Corridor. The 2100 North Project will enhance connectivity between Redwood Road and I-15, providing a 2.8-mile freeway segment designed to improve traffic flow and reduce congestion. This project includes the construction of a system-to-system interchange at I-15, approximately 20 roadway structures, and three shared-use-path structures to support pedestrians and cyclists. Additionally, two miles of shared-use path will be realigned or reconstructed to enhance safety and accessibility.

### Northwest Utah County Program

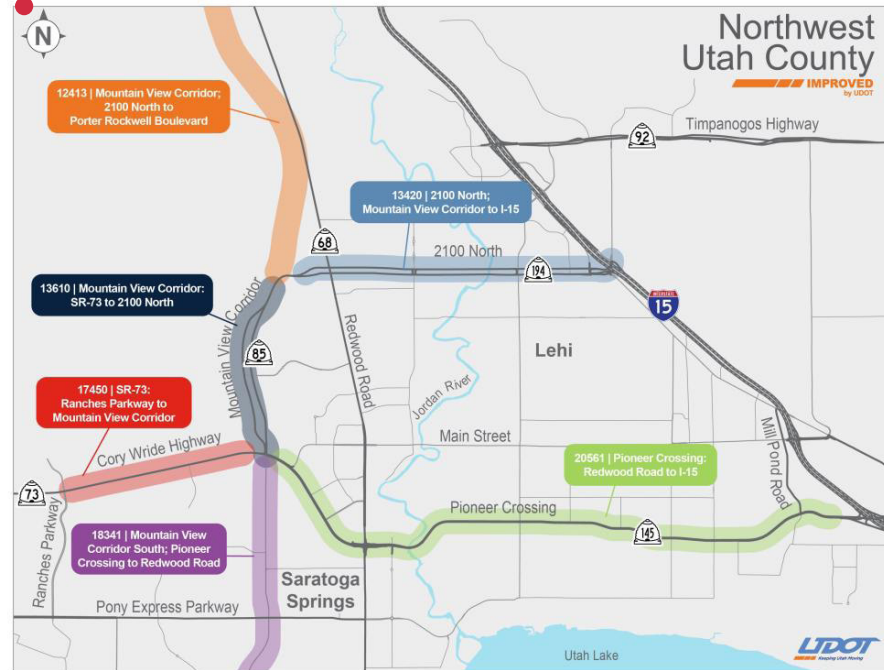

As the population in Utah continues to grow, transportation planning and development play a key role. The Utah Department of Transportation (UDOT) is planning and implementing several transportation improvement projects in Northwest Utah County to keep Utah moving while facilitating a strong economy, and maintaining a high quality of life

### Coordinated Communication

The Northwest Utah County Program was created to provide a “one-stop-shop” of transportation information for the area.

Rather than starting and stopping outreach efforts with each individual project, the Northwest Utah County Program will remain a consistent source of information for years to come.
