

ARTICLE VCOMMERCIAL DISTRICTS

5-101 PURPOSES

Four zoning districts are provided for commercial uses. When taken together, these districts are intended to permit development of property for the full range of commercial uses needed to serve the citizens of La Grange and surrounding areas in a suburban setting.

Specifically, the C-1 Central Commercial District is intended to provide for the development and maintenance of a concentrated, pedestrian-oriented commercial shopping center, with special provisions protecting, in the core of that district, the retail environment at street level.

The C-2 West End Commercial District is intended to provide areas in the Burlington-Hillgrove commercial corridor for existing commercial uses. This district is designed to encourage both the retention of existing businesses and the redevelopment of new uses compatible with nearby residential uses.

The C-3 General Service Commercial District is intended to provide areas for the development of service, commercial, and retail uses requiring direct vehicular access.

The C-4 Convenience Commercial District is intended to serve the day-to-day shopping and consumer service needs of the local low-density residential neighborhoods of the Village.

5-102 PERMITTED USES

The following uses and no others are permitted as of right in the Commercial Districts indicated in the following table. In interpreting the use designations, reference should be made to the Standard Industrial Classification Manual (see Appendix A) and Section 14-301 of this Code. SIC codes are given in parentheses following each use listing, when available. For a use including "NAICS" in parentheses, reference should be made to the North American Industrial Classification System Manual (1997). No Adult Uses are allowed in any Commercial District.

 9. Spacing requirement between facilities. A facility may not be located, established, maintained, or operated on any zoning lot in the C-1 District if any portion of that zoning lot is located within 400 feet of any portion of any other zoning lot on which a facility is located, regardless of zoning classification.
- H. Storefront Windows. A minimum of 50 percent of storefront windows along the public street or other pedestrian way accessible from the public street must be unobstructed and allow for visibility into the space from the exterior. 1. Height Limitation for Accessory Structures. No accessory structure may exceed 15 feet in height measured from grade; provided, however, that flag-poles may extend to a height of 10 feet above the highest point of the roof of the principal structure and the height of any antennas is governed by Subsection 9-101C of this Code.
2. Height Adjustments in Planned Developments. No adjustment pursuant to Section 14-508 of this Code of the maximum allowable height requirement may increase the maximum allowable height to more than the greater of five stories or 70 feet in any commercial district.
3. Nonconforming Lots. See Section 12-105 of this Code for lot requirements with respect to nonconforming lots of record.
4. Specified Structures and Uses in Required Setbacks. The following structures and uses, except as limited below, may be located in any required yard:
 - (a) Statuary, arbors, trellises, and ornamental light standards having a height of 10 feet or less; and
 - (b) Awnings, canopies, eaves, and gutters projecting not more than three feet into the required yard; and
 - (c) Bay windows and balconies projecting not more than three feet from an exterior wall for a distance not more than 1/3 of the length of such wall; provided that such projections must come entirely within planes drawn from the main corners of the building at an interior angle of 22-1/2* with the wall in question; and
 - (d) Chimneys, flues, belt courses, leaders, sills, pilasters, lintels, ornamental features, cornices, and the like projecting

5. Platted Building Lines. See Subsection 15-101F of this Code.
6. Special Setbacks, La Grange Road. Notwithstanding any other provision of this Code to the contrary, in the area lying between 47th Street and the southerly limits of the Village, no building or other structure in any area now or hereafter zoned for any commercial use may be erected or maintained having any wall or other portion of said building or structure within 50 feet of the centerline of La Grange Road; nor may any such building or structure be required to be set back further than 50 feet from the centerline of La Grange Road; nor may any such building or structure designed for multiple family dwellings be erected or maintained having any wall or other portion of said building or structure within 75 feet of the centerline of La Grange Road.
7. Certain Yard Dimensions in Commercial Districts. No yard or setback is required except as provided in Paragraph F8 below or where the use directly abuts an R-1, R-2, R-3, R-4, or R-5 District. In such latter case, a setback must be provided in accordance with the requirement of the adjacent district. For purposes of this Paragraph,

properties separated by a street, alley, or other right-of-way will not be considered to be "directly abutting" properties.

8. Side Yards in Commercial Districts. No side yard is required for commercial uses except as provided in Paragraph F7 above. Multiple family uses must provide side yards of at least five feet plus two feet for each story over one or as provided in Paragraphs F6 and F7 above, whichever is greater.
9. Side and Rear Yard Regulations for Accessory Structures and Uses. Parking lots and areas wherever located and other detached accessory structures and uses when located within the rear 20 percent of the lot will not be required to maintain an interior side or rear yard or setback; provided, however, that this regulation does not apply to antennas and antenna support structures and provided further, however, that no accessory structure or use, or combination of such structures or uses, located within an otherwise required side or rear yard pursuant to this Paragraph may occupy more than 50 percent of such required yard. See Sections 9-101 and 9-104 for regulations applicable to antennas and antenna support structures.
10. Floor Area Ratio Adjustments. No adjustment pursuant to Section 14-508 of this Code of the maximum allowable floor area ratio requirement may increase the maximum allowable floor area ratio to more than 4.25 in the C-1 District, 3.0 in the C-2 District, and 1.8 in the C-3 District. No increase of the maximum allowable floor area ratio is allowed in the C-4 District. No such adjustment may be recommended or authorized except on the basis of the development's excellence in achieving the purposes of this Code. In determining whether such excellence has been shown, special consideration will be given to the following factors:
 - (a) The extent to which the developer has consolidated lots to achieve and exceed the minimum lot area required; and

- (b) The extent to which adjacent residential areas are buffered from the effects of the development; and
- (c) The quality and extent of landscaping, including special elements such as water features and public art; and
- (d) The quality of design of vehicular circulation elements and parking facilities; and
- (e) The care taken to maximize energy conservation in site design, building design, and building systems; and
- (f) The quality of roof design and finishes in terms of consistency with adjacent residential uses and the avoidance of flat roofs
