63 AC MIXED USE DEVELOPMENT

PLANNED USES—The following uses have been preliminarily approved by the county in 2018.

Eastern area : Planning area 1

High density residential with one to three-bedroom units designed for work force pricing. Three to four story residential construction. Efficient floor plans and adjacent parking matching tenant profiles. Could include residential styles that match senior housing and care facilities. Permitted uses will include accessory retail services, educational, and day care. Landscaping areas will include recreation, environmental protection, drainage retention, and buffers to mixed-uses. Potential self-storage and other compatible uses in the power line easement.

*** Net area excluding roads and power line easement is 34.5 Acres.**

*** 1500 residential units plus accessory uses**

Western area : Planning area 2

Commercial and retail uses in two story “store front” shaped buildings. Shared parking in front of each space. Uses include typically retail, restaurants, offices, services, entertainment, hospitality, medical, gas station, and other related uses. Prominent shared signage, outdoor dining, and landscape amenities are featured. Accessory residential is permitted with separate entry areas. Area in power line easement could be used for self storage, drainage retention and parking.

*** Net area excluding roads and power line easement is 21.5 acres**

*** 500,000sf of rental space plus accessory uses (option: 200 affordable residential)**

Area information

Desert Hot Springs is a city in Riverside County, California. The city is located within the Coachella Valley comprised of 7 cities. The population of the valley in winter is over 500,000 and about 300,000 in summer. The population of Desert Hot Springs was 25,938 at the 2010 census and is projected to be close to 60,000 by 2027.

Desert Hot Springs is named for its many natural hot springs. It is one of few places in the world with naturally occurring hot and cold mineral springs. Like many of its neighboring cities, Desert Hot Springs continues to see an explosion in population. Drawn by its affordable family living, Desert Hot Springs is a young, vibrant community that is on the move. In addition to world famous resorts, the community was the first city in Southern California to legalize medical marijuana cultivation and has since been overwhelmed by marijuana developers and growers bringing many new jobs to the area. Because of its proximity to Los Angeles, and Riverside there has been an increase in population especially after the pandemic of residents moving to the city. It is located 8 miles from Palm Springs.
