*flexible floor plans ready to be configured to tenant's needs

Worthwhile builds custom software solutions that transform business outcomes. We create lasting value through technology and enable our clients' success by cultivating people who will ensure that our communities flourish for generations.

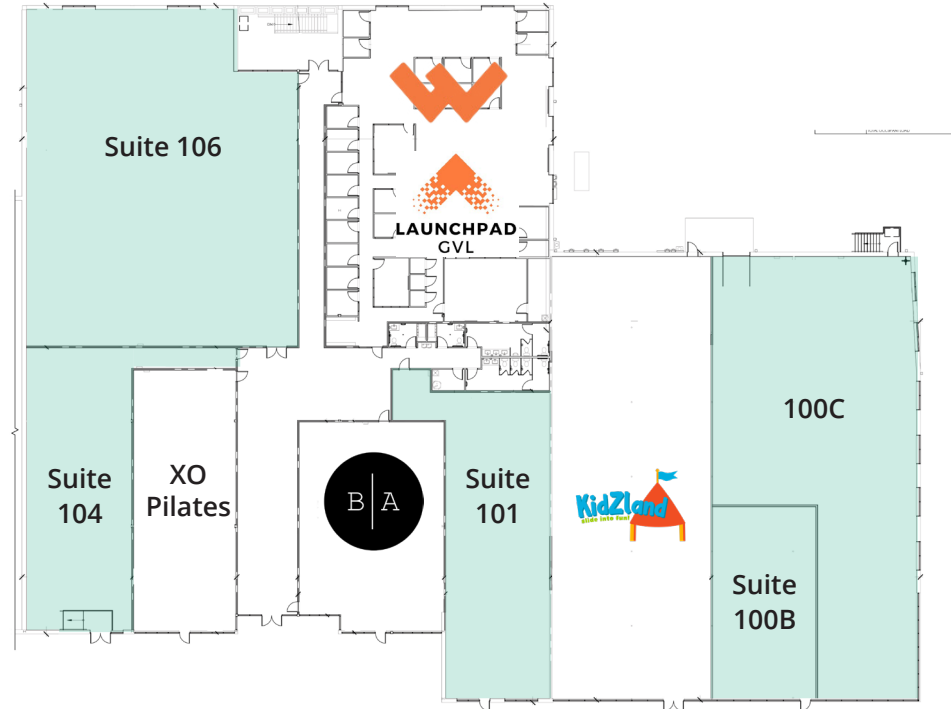

The concept of laser tag meets a more adult theme of tactical combat, turning simple laser tag battles into a multi-sensory experience. Imagine being able to feel like you were in a video game like Call of Duty. Lights, sound, and wind combine to produce an experience unlike any laser tag the Upstate has seen before.

Barista Alley is so much more than just a cafe; it is a place that brings the community together. Whether it be to study, work, socialize, have a date night, or just relax, Barista Alley offers an experience that you will want to revisit over and over.

Property location

The Swamp Rabbit Trail

Running along the scenic Reedy River, the 22-mile Prisma Health Swamp Rabbit Trail links Travelers Rest to Greenville along a historic railroad corridor. Opened to the public in 2009, the trail has experienced continual growth and offers fun, non-motorized recreation and transportation opportunities to residents and visitors

The development of the trail caused a boom of development, with bike rental shops, local eateries, breweries, retail shops, and housing popping up along the esplanade. Views of the Reedy River are plentiful along the trail.

The recently completed "Green Line" extension is a \$6 million, four-and-a-half-mile extension of the trail from Cleveland Park along Laurens Road to CU-ICAR. The extension has sparked residential and commercial investment along the Laurens Road corridor, and, according to consulting firm Stantec's master plan for the extension, property values over the next 10 years for area communities, whose socioeconomic statuses vary, are predicted to increase by \$1.5 billion.

Everywhere that trail runs there's been a real influx of economic development.
