Strong & Exciting Business Climate

Virginia is consistently ranked one of the best places to do business by CNBC (#3 2022) and Forbes (#4 2022) due to a range of compelling business incentives, attractive employment demographics, central location, low cost of doing business, robust infrastructure, quality of life features, and future economic development opportunities.

Albemarle County is one of Virginia's most thriving localities, and among the most highly regarded, dynamic and desirable places to work and live in the country. Low student-teacher ratios and high graduation rates demonstrate why the Albemarle County school system is among the top 10% in the state, and those wishing to continue their education and professional development will find numerous workforce development facilities as well as higher education facilities such as the University of Virginia and Piedmont Virginia Community College. Over 50% of the county's residents have a bachelor's degree or higher. There are an estimated 105,000 people living in the county, which is comprised of 726 square miles.
