## §2.3. Use Interpretation

## §2.3.1. Grouping of Uses

As set forth in the Permitted Land Use Table (see §2.2.1), certain uses are grouped together based on common functional, product, or physical characteristics. Characteristics include the type and amount of activity, the type of customers, how goods or services are sold or delivered, likely impact on surrounding properties, and site conditions. Grouping uses provides a systematic basis for assigning uses to appropriate general use districts. Any use not specifically set forth in this UDO is expressly prohibited, unless determined otherwise as set forth in paragraph §2.3.6 below.

## §2.3.2. Uses Not Grouped

As set forth in the Permitted Land Use Table (see §2.2.1), due to their specific nature and characteristics, certain uses have not been grouped. Individual uses may be defined in Article 12, Definitions.

## §2.3.3. Civic Use Groups

Airport and Bus Terminals: Transportation services and facilities for the landing and takeoff of airplanes and helicopters, fixed base operations, flying schools, air shipment warehouses, passenger terminals for bus service, and associated loading and unloading areas.

Parks and Open Areas: Uses focusing on natural areas consisting mostly of open vegetation, passive or active outdoor recreation areas, or community gardens, and having few structures. Parks and open areas shall include the following: tot lot and playgrounds; mini-parks; plazas; squares; greens; neighborhood parks; botanical gardens; nature preserves and recreation trails; or any similar use.
