About this segment

Exurbanites

This is the

#1

dominant segment
for this area

In this area

28.7%

of households fall
into this segment

In the United States

1.9%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Exurbanites residents are now approaching retirement but showing few signs of slowing down. They are active in their communities, generous in their donations, and seasoned travelers. They take advantage of their proximity to large metropolitan centers to support the arts but prefer a more expansive home style in less crowded neighborhoods. They have cultivated a lifestyle that is both affluent and urbane.

Our Neighborhood

- Established neighborhoods (most built between 1970 and 1990) found in the suburban periphery of large metropolitan markets.
- A larger market of empty nesters, married couples with no children; average household size is 2.50.
- Primarily single-family homes with a high median value of \$423,400, most still carrying mortgages.
- Higher vacancy rate at 9%.

Socioeconomic Traits

- Residents are college educated; more than half have a bachelor's degree or higher; nearly 81% have some college education.
- This labor force is beginning to retire. 1 in 3 households currently receive Social Security or retirement income. Labor force participation has declined to less than 60%.
- More of the residents prefer self-employment or working from home.
- Consumers are more interested in quality than cost. They take pride in their homes and foster a sense of personal style.
- Exurbanites residents are well connected, using the Internet for everything from shopping to managing their finances.
- Sociable and hardworking, they still find time to stay physically fit.

Market Profile

- Exurbanites residents' preferred vehicles are late model luxury cars or SUVs.
- Active supporters of the arts and public television/radio.
- Attentive to ingredients, they prefer natural or organic products.
- Gardening and home improvement are priorities, but they also use a number of services, from home care and maintenance to personal care.
- Financially active with wide-ranging investments, these investors rely on financial planners, extensive reading, and the Internet to handle their money.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2023. Update Frequency: Annually.

About this segment

Home Improvement

This is the

#2

dominant segment
for this area

In this area

14.3%

of households fall
into this segment

In the United States

1.7%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Married-couple families occupy well over half of these suburban households. Most Home Improvement residences are single-family homes that are owner occupied, with only one-fifth of the households occupied by renters. Education and diversity levels are similar to the U.S. as a whole. These families spend a lot of time on the go and therefore tend to eat out regularly. When at home, weekends are consumed with home improvement and remodeling projects.

Our Neighborhood

- These are low density suburban neighborhoods.
- Eight of every 10 homes are traditional single-family dwellings, owner occupied.
- Majority of the homes were built between 1970 and 2000.
- More than half of the households consist of married-couple families; another 12% include single-parent families.

Socioeconomic Traits

- Higher participation in the labor force; most households have 2+ workers.
- Cautious consumers that do their research before buying, they protect their investments.
- Typically spend 4–7 hours per week commuting, and, therefore, spend significant amounts on car maintenance (performed at a department store or auto repair chain store).
- They are paying off student loans and home mortgages.
- They spend heavily on eating out, at both fast-food and family restaurants.
- They like to work from home, when possible.

Market Profile

- Enjoy working on home improvement projects and watching DIY networks.
- Make frequent trips to warehouse/club and home improvement stores in their minivan or SUV.
- Own a giant screen TV with fiber-optic connection and premium cable; rent movies from Netflix.
- Very comfortable with new technology; embrace the convenience of completing tasks on a mobile device.
- Enjoy dining at Chili's, Chick-fil-A, and KFC.
- Frequently buy children's clothes and toys.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2023. Update Frequency: Annually.

About this segment

Savvy Suburbanites

This is the

#3

dominant segment
for this area

In this area

14.3%

of households fall
into this segment

In the United States

3.0%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Savvy Suburbanites residents are well educated, well read, and well capitalized. Families include empty nesters and empty nester wannabes, who still have adult children at home. Located in older neighborhoods outside the urban core, their suburban lifestyle includes home remodeling and gardening plus the active pursuit of sports and exercise. They enjoy good food and wine, plus the amenities of the city's cultural events.

Our Neighborhood

- Established neighborhoods (most built between 1970 and 1990) found in the suburban periphery of large metropolitan markets.
- Married couples with no children or older children; average household size is 2.85.
- 91% owner occupied; 66% mortgaged.
- Primarily single-family homes, with a median value of \$362,900.
- Low vacancy rate at 3.8%.

Socioeconomic Traits

- Education: 50.6% college graduates; 77.6% with some college education.
- Higher labor force participation rate at 67.9% with proportionately more 2-worker households at 62.2%.
- Well-connected consumers that appreciate technology and make liberal use of it for everything from shopping and banking to staying current and communicating.
- Informed shoppers that do their research prior to purchasing and focus on quality.

Market Profile

- Residents prefer late model, family-oriented vehicles: SUVs, minivans, and station wagons.
- Gardening and home remodeling are priorities, usually DIY. Riding mowers and power tools are popular, although they also hire contractors for the heavy lifting.
- There is extensive use of housekeeping and personal care services.
- Foodies: They like to cook and prefer natural or organic products.
- These investors are financially active, using a number of resources for informed investing. They are not afraid of debt; many households carry first and second mortgages, plus home equity credit lines.
- Physically fit, residents actively pursue a number of sports, from skiing to golf, and invest heavily in sports gear and exercise equipment.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2023. Update Frequency: Annually.

About this segment

Pacific Heights

This is the

#4

dominant segment
for this area

In this area

13.9%

of households fall
into this segment

In the United States

0.7%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Pacific Heights is one of the smaller markets (with less than 1 percent of households), composed of upscale neighborhoods in the urban periphery of metropolitan areas, along the Pacific Coast in California, in Hawaii, and in the Northeast. This market includes the highest percentage of multiracial populations. This is a family market, distinguished by married-couple families, with and without children, some in multigenerational households. They own their homes, mainly high-priced single-family homes, with a higher proportion of town houses. Workers are generally employed in white collar occupations such as business, computer, architecture, and engineering roles. Median household income and net worth are much higher than the US. These trendy residents buy nice food and clothing, as well as the latest gadgets.

Our Neighborhood

- These are diverse, densely populated neighborhoods in the urban periphery of metropolitan areas.
- Homes are primarily owner occupied and older, most built 1950–1979 (57%).
- Two-thirds of homes are single family; 14% are townhouses.
- Nearly 70% of owned homes are valued at over \$500,000.
- Percentage of vacant housing units at 4.1% is one of the lowest.
- About 61% of households are composed of married couple families, with or without children under 18 years, with a higher ratio of adult children living at home.
- Two-thirds of households own 1 or 2 vehicles, but 28% own 3 or more.

Market Profile

- Prefer imported vehicles, owning later models.
- Favor trendier stores for apparel; Costco and specialty markets for groceries.
- Own iPads and newer Mac computers.
- Use the Internet to visit online blogs and chat rooms, watch TV programs and movies, trade and track investments, and make purchases.
- Enjoy visiting theme parks, eating out at family restaurants, stopping by Starbucks for coffee, listening to all news, contemporary, and hit radio music, and reading fashion magazines.
- Partial to Showtime, HBO, Travel Channel, and CNN.
- Make phone calls overseas; some foreign travel over the last 3 years.

Socioeconomic Traits

- Education completed: Over 67% of residents have some college education; 41% have a bachelor's degree or higher.
- Labor force participation rate is average at 62%.
- Salaries account for most of the household income among these professionals, but investment income adds to their affluence.
- Financially conservative, these consumers tend to opt for low-risk investments.
- They keep up-to-date with the latest styles and trends, as well as the latest

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Workday Drive

This is the

#5

dominant segment
for this area

In this area

11.7%

of households fall
into this segment

In the United States

3.1%

of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Workday Drive is an affluent, family-oriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in this suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and family-oriented pursuits.

Our Neighborhood

- Workday Drive residents prefer the suburban periphery of metropolitan areas.
- Predominantly single family, homes are in newer neighborhoods, 34% built in the 1990s, 31% built since 2000.
- Owner-occupied homes have high rate of mortgages at 68%, and low rate vacancy at 4%.
- Median home value is \$257,400.
- Most households are married couples with children; average household size is 2.97.
- Most households have 2 or 3 vehicles; long travel time to work including a disproportionate number commuting from a different county

Market Profile

- Most households own at least 2 vehicles; the most popular types are minivans and SUVs.
- Family-oriented purchases and activities dominate, like 4+ televisions, movie purchases or rentals, children's apparel and toys, and visits to theme parks or zoos.
- Outdoor activities and sports are characteristic of life in the suburban periphery. They attend sporting events, as well as participate in them like bicycling, jogging, golfing, and boating.
- Home maintenance services are frequently contracted, but these families also like their gardens and own the tools for minor upkeep, like lawn mowers, trimmers, and blowers.

Socioeconomic Traits

- Education: 40.5% college graduates; more than 72% with some college education.
- High labor force participation rate at 71%; 2 out of 3 households include 2+ workers.
- Connected, with a host of wireless devices, anything that enables convenience, like banking, paying bills, or even shopping online.
- Well insured and invested in a range of funds, from savings accounts or bonds to stocks.
- Carry a higher level of debt, including first and second mortgages and auto loans
