# Nevada Tax Advantages

## Synopsis

Nevada has always been a popular state for businesses. Some of the main reasons for that are low-cost startup, regulatory, licensing and annual fees, taxes and tax structure, privacy of business owners, and competitive utility rates for commercial operations.

The Tax Climate Index comparison to neighboring states is significant: California ranks 48th, Arizona 19th, Idaho 15th, Oregon 24th and Utah 8th.

### Nevada Tax System:

Nevada ranks as the 7th best state in the Tax Foundation's 2020 State Business Tax Climate Index, an independent ranking of states in five areas of taxation: corporate taxes, individual income taxes, sales taxes, unemployment insurance taxes, and taxes on property, including residential and commercial property.

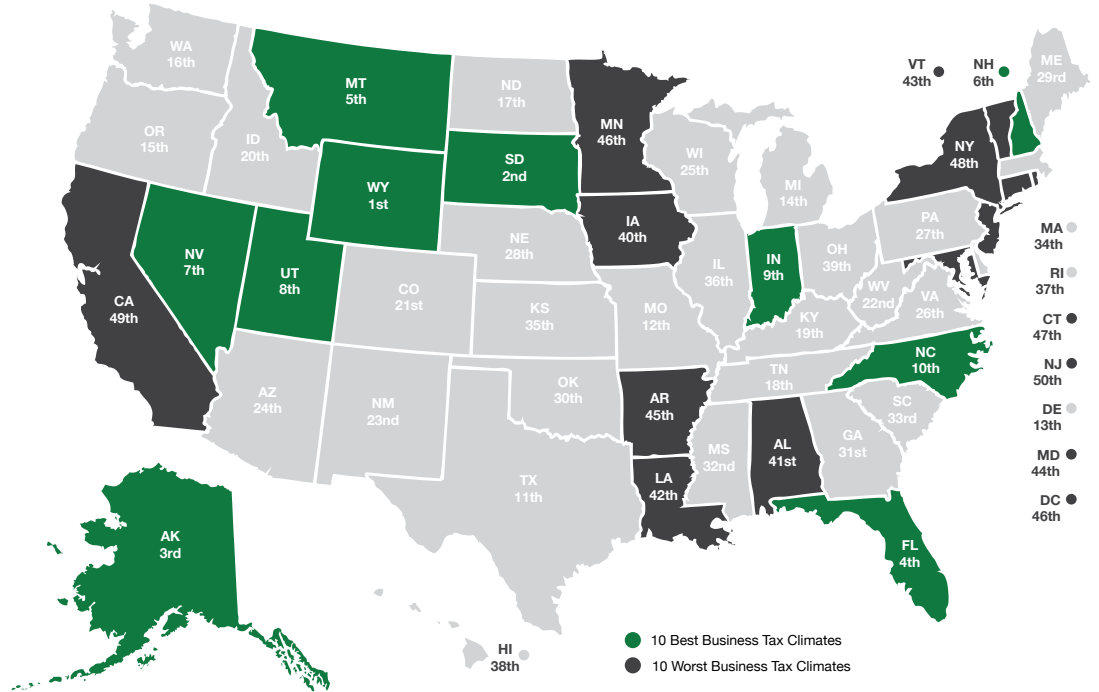

Nevada uses these tax benefits to attract new businesses. There are plenty of taxes you must pay in other states, but not in Nevada.

### Here are the main tax advantages:

- No income tax
- No tax on pensions
- No tax on social security
- No tax on estate or inheritance
- Low property taxes
- No gross receipts tax
- No franchise tax
- No inventory tax
- No tax on issuance of corporate shares
- No tax on sale or transfer of shares

### Road Transportation

Las Vegas and surrounding towns are less than one day's drive over arterial interstate highways to nearly 60 million consumers, as well as to the major U.S. deep water seaports serving the Pacific Rim.

### Rail Transportation

Major Union Pacific and Southern Pacific rail connections in Las Vegas and Reno, play an essential role in carrying the world's freight from the Pacific Coast to America's Heartland and beyond.

### Air Transportation

Globally, Harry Reid International Airport in Las Vegas has been a Top 20 airport for more than five years, annually serving more than 40 million passengers and handling more than 189 million pounds of cargo.

# Southern Nevada Growth

## Education & Workforce Development

Southern Nevada's post-secondary education and training institutions have significantly increased their offerings.

Notably, the **University of Nevada, Las Vegas (UNLV)** doubled its research and development (R&D) performance over the last decade and reached R1 status in 2018, the highest classification for research universities. Additionally, the newly formed UNLV School of Medicine started class in 2017.

**Nevada State College (NSC)** more than double its degree awards since 2011, with especially strong growth in awards to racial and ethnic minorities, and in health professions that support a key regional target industry.

**The College of Southern Nevada (CSN)** was named as a Leader College of Distinction by national non-profit network Achieving the Dream in 2019 for its work on improving student outcomes and reducing student achievement gaps.

## Innovation Ecosystem

In 2016, Las Vegas established an Innovation District to spur smart-city technology infrastructure and launched the International Innovation Center @ Vegas (IIC@V) incubator to support development of high priority emerging technologies.

The Las Vegas-based Nevada Institute for Autonomous Systems was designated in 2013 as one of six official unmanned aircraft systems (UAS) test sites in the United States, and the UNLV Tech Park has quickly emerged as a hub for regional innovation.

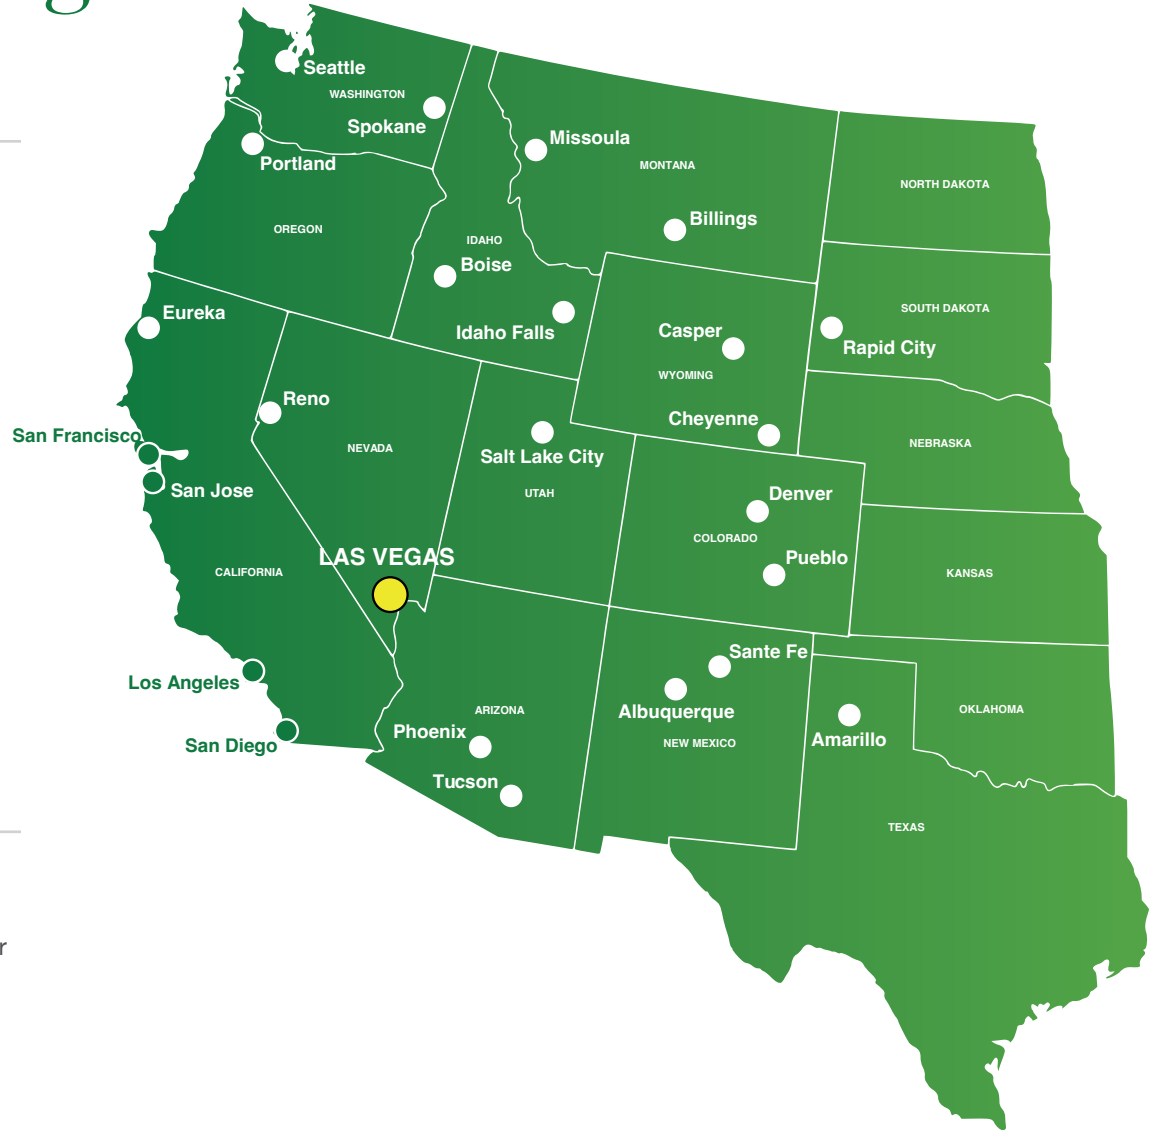

In July 2019, Google broke ground on a \$600 million data center, and in October 2019 Switch announced a partnership with UNLV to support sports science R&D. Switch also expanded its footprint in Southern Nevada to 4.6M SF of data center space.

The Las Vegas Convention and Visitors Authority (LVCVA) partnered with the Boring Company to build a high-speed electric autonomous people mover for the Las Vegas Convention Center.
