HISTORY & ARCHITECTURE

The building was designed by Reid & Reid, who were also the architects for Hotel del Coronado and Bay Area landmarks, like the Fairmont Hotel, the Call/Spreckles building, amongst other architectural gems.

The fluted Ionic columns were fashioned after the Temple of Minerva in Assisi, Italy. Minerva is the Roman Goddess of wisdom.

The building was constructed with white Colorado mule marble - upon the entire facade and throughout the interior - the same material quarried for the Lincoln Memorial of Washington, DC.

THE OPPORTUNITY

Iconic 1900's Vintage Neo Classical Gem Beautifully Restored and Fully Upgraded with Modern Building Systems and Amenities

This signature sales-offering – available for purchase by an investor, and/or owner/user – is comprised of the following unique features

- A location along one of the most prestigious retail corridors in Los Angeles – at the northwest corner of Broadway and 8th Streets
- Nine stories, including 8,500 rentable-square feet (“RSF”) of retail, and 47,692/RSF of commercial offices on the 2nd - 9th floors of the building – for a total of 56,795 RSF
- Adidas will soon be opening a flagship experiential venue on the ground and lower level floors – 8,500 RSF in total
- Each commercial-office floor offers between ~5,400 - 6,800 RSF: providing full-floor identity and maximum flexibility to owner-users and/or third-party office users alike
- The entire base building electrical/mechanical and seismic systems have been recently replaced to meet high commercial-building standards
- Complete details on the above are available through owner’s virtual due-diligence room (which can be accessed through an accompanying confidentiality-agreement)

TRANSFORMATIVE UPGRADE SUMMARY

The background image shows the interior of a building during a major renovation. The ceiling is exposed, revealing a complex network of pipes, conduits, and structural beams. Several large, white-painted concrete columns support the structure. In the center, there is a glass-walled elevator or entrance area. The lighting is a mix of natural light from a skylight and modern, recessed linear fixtures.

- Complete re-adaptive renovation of interior to accommodate office – including penthouse and rooftop amenity – plus ground floor retail and basement area
- Modernization of interiors for open floorplans
- Seismic upgrade/reinforcement throughout building
- Entire building environmental remediation completed

- Cleaning and restoration of building facade/exterior in compliance with DTLA requirements to maintain historic buildings
- Rehabilitation and restoration of upper floor heritage windows with new storefront glazing at grade for entire main floor
- Mechanical modernization of elevators including restoration of historic interior cabs
- Entire building systems – including mechanical, HVAC, electrical, plumbing, fire/safety and more – replaced to meet modern code
