### AVAILABLE PACKAGES

#### RESIDENT OFFICES

A resident office offers all the services & amenities of a traditional office at a fraction of the cost.

Included in this package are the physical office space, shared resources such as a receptionist, phone service, internet access, hot beverage service, meeting room space, work room access and more.

#### VIRTUAL OFFICES

A virtual office package offers some of the same services as a resident office, except the physical office space (which is available to use on an as-needed basis). This is perfect for the business professional working from home, but needing a professional space for occasionally meeting clients or co-workers.

NRBC provides a professional image through the business address and phone services.

#### CONF. ROOMS & DAY OFFICES

Resident and virtual office packages provide a set number of hours monthly or quarterly for meeting space, scheduled simply by calling or emailing our reception desk.

Conference room space is also available to outside groups, including non-profit organizations, which may qualify for a substantial discount.

Need an office for just a few hours? Our day offices are the solution, complete with phone and internet services.
