This commercial zoned section of Lake Breeze Estates is adjacent to the Lake Breeze Estates residential development of 109 platted lots. The property provides excellent retail sites across the highway from two other major developments that are in the construction stage. The LakePointe Development is approximately 200 acres and will be mostly single-family homes. Adjoining that development is the Elevon Development (formerly Abston Hills Community), a mixed-use development of approximately 1,600 acres with the first phase currently under development. Lavon is experiencing explosive growth as residential development continues with these developments and other developments that are in process. This increase in residential development is adding to the need for commercial/retail development in the area.

It is believed that this corner at Highway 78, a six-lane divided highway at FM 6, and the property along the frontage of Highway 78 will become increasingly important for retail businesses to service the increasing population in the area.
