100%
renewable

Virginia portfolio GHG Scope 2
emissions reduced
by one-third

Reduced energy by 8% and
carbon by 25% since 2015

Composting at all
properties in DC portfolio

Ocean Seabins have been
installed in the marina at The
Yards in Washington, D.C. They
collect floating debris in the
water so that it never makes its
way to the ocean.

96%

of owned and managed
buildings are LEED certified

5 office rooftops have installed
solar fields and are producing
alternative energy.

To help grow the bee population,
8 beehives are residing on
rooftops throughout our
downtown portfolio

Rooftop gardens at 4
of our properties is a
sustainable amenity
for our tenants and the
local community

SUSTAINABILITY FIRST. ALWAYS.

We know: a cleaner future can't wait. It's why we're committed to reducing waste, saving energy, and managing resource across our portfolio. It's why we build with LEED Gold Standards in mind and adhere to guidance from third-party sustainability assessors, winning awards in the process.

And it's why we integrate innovative technology into our properties that help us create more efficient structures. Because when it comes to sustainability, we're all in.

Real estate, reimagined.

brookfieldproperties.com/sustainability

100% OF THE ELECTRICITY REQUIREMENTS FOR THE WASHINGTON, DC REGION OFFICE PORTFOLIO SUPPLIED THROUGH NUCLEAR POWER BY 2024.

BROOKFIELD PROPERTIES

ESG

BENEFITS TO TENANTS

INCREASES demand for finite zero emissions electricity supply, incentivizing new development and improving the mix of in-state clean energy sources.

LEVERAGING Brookfield's scale by contracting with nuclear power plants containing equipment from and supplied by Westinghouse, a Brookfield portfolio company.

24/7 CARBON-FREE ENERGY, ensuring contracted zero emissions electricity is flowing into the grid at the same time power is being drawn from the grid at each property.

WE WILL ACHIEVE THIS IN 2 WAYS

1

Through procurement of **Emissions Free Energy Credits** (EFECs) from zero-emissions energy.

2

A power purchase agreement from a Westinghouse-supplied nuclear power plant.
