Where seamless technology sets the new standard for building intelligence.

Innovation is at the core of everything at 77 West Wacker, from our modernized elevators to the way we communicate with our tenants. In 2020, we developed and proudly introduced TranswesternHub, a transformative tenant experience platform that uses state-of-the-art integrated technology to foster connectivity, transparency, and comfort.

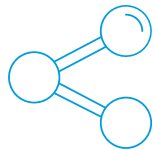

Touchless Elevator Access

Lenel OnGuard security keycard access system with mobile credentials and Bluetooth access readers.

Elevator Modernization

Touchless passenger elevators with KONE Destination Dispatch system, state-of-the-art control operating panels, LCD screens, cloud-based digital signage, HD video surveillance and two-way high-quality video communication for emergency/crisis alert.

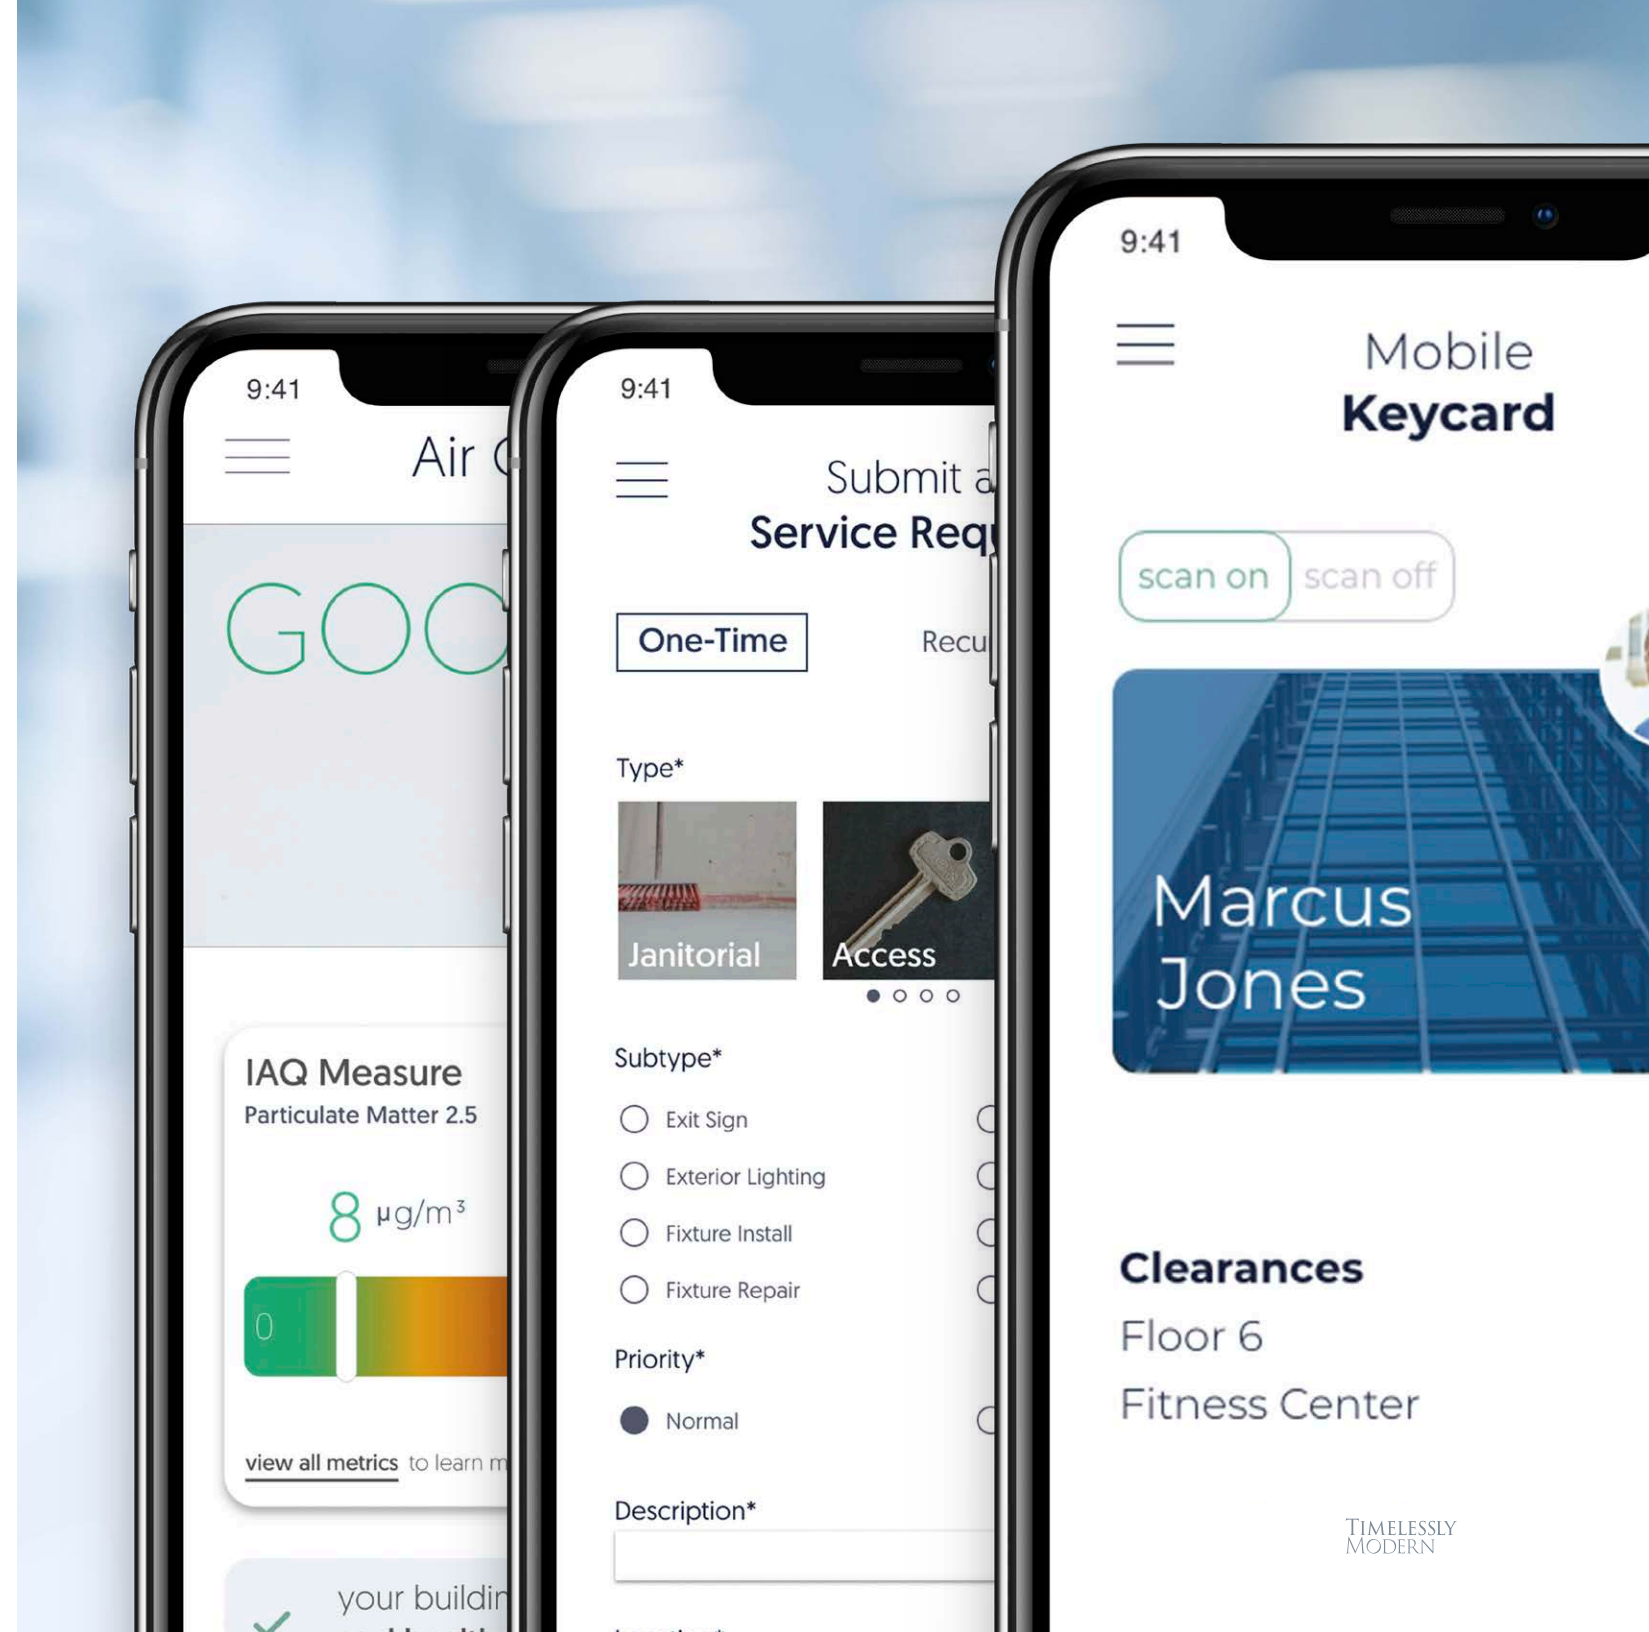

TranswesternHub

Groundbreaking mobile application that includes touchless entry and elevator access, a work order system, visitor registration, real-time chat, tenant communication, conference room & freight elevator reservation.

Introducing a curated tenant experience: TranswesternHub.

TranswesternHub, developed by 77 West Wacker, is a transformative tenant experience platform that uses state-of-the-art integrative technology to foster connectivity, transparency, and comfort. Tenants at 77 West Wacker gain touchless mobile entry and the ability to remote call our fully modernized elevators, live chat with building management, reserve an amenity space, monitor indoor air quality, and more – all from their smart phone.

Where responsiveness meets flexibility to create the optimal environment

77 West Wacker puts tenant health and wellbeing above everything else. When the COVID-19 pandemic arose, we did more than simply adapt, we were ready with ongoing air quality testing, a bipolar ionization HVAC system, award-winning sustainability efforts, and a brand-new surveillance system. Count on 77 West Wacker to be perpetually ahead of the curve.

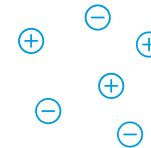

Air Quality Testing

Continuous monitoring of indoor air quality (IAQ) and transparent IAQ reporting to tenants to enhance the health, wellness, and productivity of occupants.

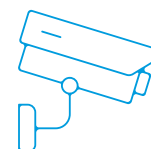

Building Health + Sustainability

CDC & GSA's Fitwel Certification, Fitwel 3 Star Rating, USGBC's LEED EBOM Platinum, BOMA 360, Energy Star

Bipolar Ionization HVAC System

Works to inactivate airborne micro-organisms and pathogens such as bacteria and viruses to further increase the buildings IAQ.

HD Security Surveillance System

Avigilon HD security surveillance system with enhanced Zero Eyes software performing firearm video analytics and real time detection.

Visitor Registration

Online Registration system with QR Codes implementing automated health screenings.
