## A Stable Healthcare-Focused Office Corridor

The North I-17 office submarket provides a dependable, low-volatility environment well suited for medical and dental practices. With vacancy at 8.7%—below long-term averages—and no new office construction underway, the area offers limited competition and sustained demand. Market-rate rents aligned with the broader Phoenix metro support cost predictability, while modest inventory creates a more focused, community-oriented setting. Together, these factors make North I-17 an ideal location for healthcare providers seeking stability, patient retention, and long-term operational confidence.
