## SAN FRANCISCO

The Bay Area is the birthplace and center of innovation and advancement in technology in the United States. Some of the largest technology firms, financial companies and educational institutions are located here. The San Francisco metro consists of San Francisco, San Mateo and Marin counties, and contains a population of 1.84 million people. The city of San Francisco accounts for all of San Francisco County, and contains nearly 860,000 residents. Marin County is located to the north of the city and has 252,000 residents, while San Mateo County is south of San Francisco and has a population above 730,000 people. While the metro represented one of the later-recovering markets from the pandemic, the area's population is slated to expand by just over 30,000 residents over the next five years.

### METRO HIGHLIGHTS

#### WORLD-CLASS INSTITUTIONS

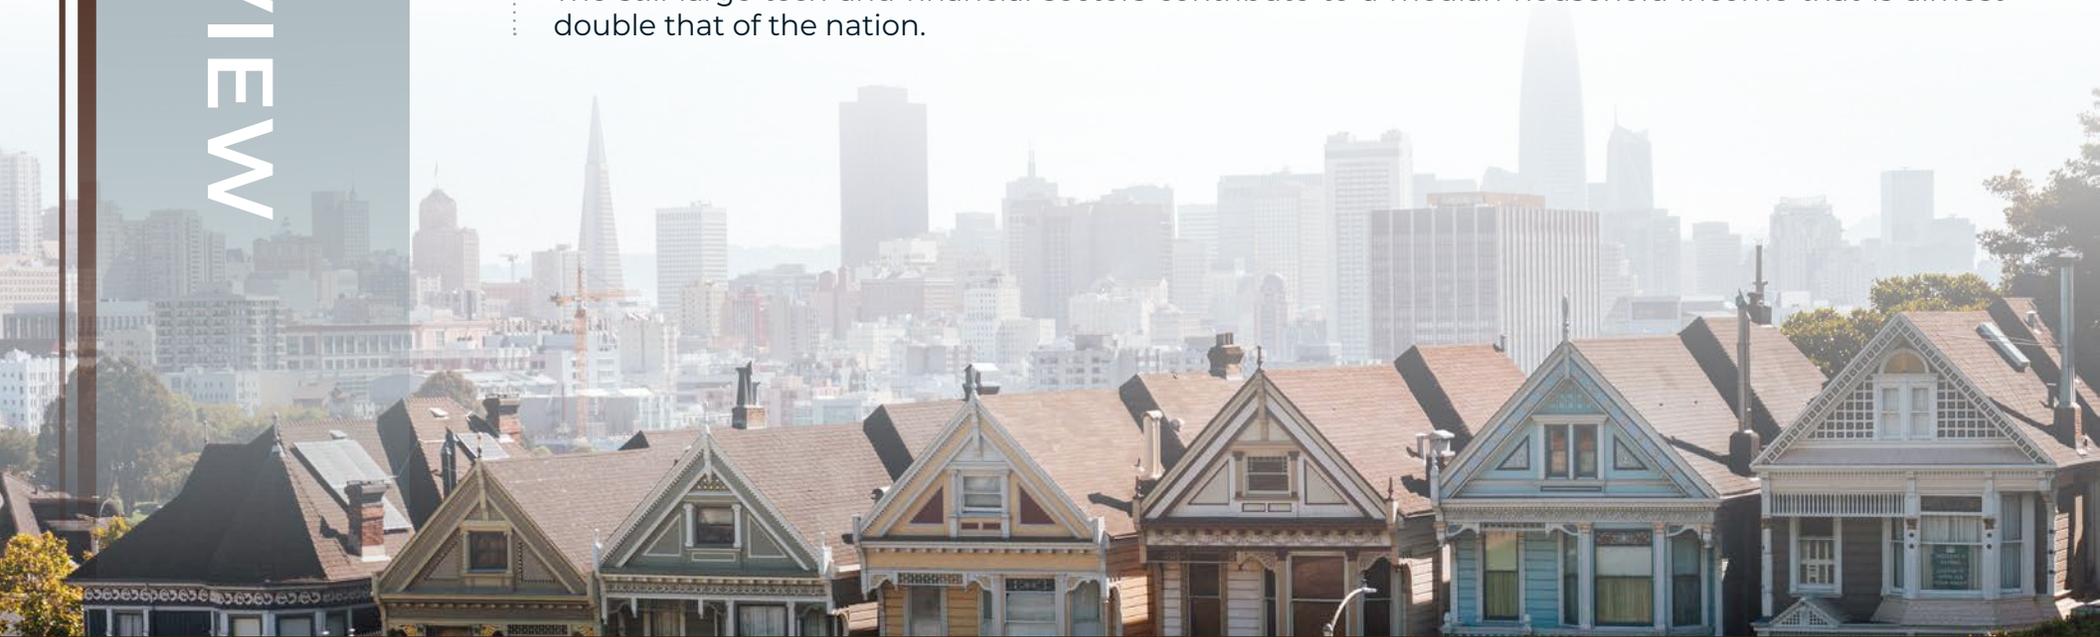

The Bay Area is home to top-ranked educational and research institutions, including one campus of the University of California system, along with the University of San Francisco.

#### EDUCATED WORKFORCE

The metro has one of the most skilled labor forces in the nation. Approximately 50 percent of residents ages 25 and older have obtained a bachelor's degree, well above the national rate.

#### HIGH-INCOME EARNERS

The still large tech and financial sectors contribute to a median household income that is almost double that of the nation.

## ECONOMY

The metro is home to 16 Fortune 500 companies that span a diverse range of sectors. Firms include Wells Fargo, Meta, Salesforce, Gilead Sciences, Inc. and PG&E Corp.

Tourism is a strong economic driver, drawing more than 20 million visitors annually prior to the pandemic. The sector has shown continuous improvement in the wake of the health crisis, with the expected return of international travel boosting the outlook.
