August 7, 2024

**Report of
Phase I Environmental Site Assessment
McFarland Parkway Property
McFarland Parkway
Alpharetta, Forsyth County, Georgia
Geo-Hydro Project Number 241993.30**

Mr. Lill:

Geo-Hydro Engineers, Inc. (Geo-Hydro) has completed the requested Phase I Environmental Site Assessment (Phase I) for the above referenced location. This Phase I was performed in general conformance with the scope and limitations of ASTM Practice 1527-21. This assessment includes findings, our opinions, and conclusions founded on our review of records, interviews, and our reconnaissance of the subject property. This report and our observations are intended for the benefit of Lowland Capital, LLC and may not be used or relied upon by any other party without Geo-Hydro's prior written consent.

If you have any questions about this report, or if we can be of further assistance, please call us.

Sincerely,

GEO-HYDRO ENGINEERS, INC.

APPENDICES

1.0 SUMMARY

The subject property consists of one parcel located north of McFarland Parkway in Alpharetta, Forsyth County, Georgia. The subject property comprises 1.3-acres identified by Forsyth County Parcel ID: 041 085. The subject property is currently unoccupied, wooded land (Plate 1). The surrounding land use is primarily commercial and residential property. The approximate site location is shown on Figures 1 and 2. The approximate subject property boundaries are shown on Figure 3.

We have performed a Phase I Environmental Site Assessment (Phase I) in general conformance with the scope and limitations of ASTM Practice 1527-21. Any exceptions to, or deletions from, this practice are described in Section 2.0 of this report. This assessment has revealed the following recognized environmental conditions, controlled recognized environmental conditions, historical recognized environmental conditions and/or significant data gaps in connection with the subject property:

- **Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners
765 McFarland Road
UST, DRYCLEANERS, FINANCIAL ASSURANCE, UST FINDER, AST**

Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners (Quik Mart) is located at 765 McFarland Road, approximately 145 feet to the west in a topographically upgradient position in relation to the subject property. Quik Mart is referenced by EDR in the underground storage tank (UST), Drycleaners, Financial Assurance, UST FINDER, and aboveground storage tank (AST) databases. The UST and UST Finder listings are connected to the current use of one 10,000-gallon diesel UST installed on August 9, 2004 and two 12,000-gallon gasoline USTs installed at the facility on December 21, 1995. Information on file with the Georgia Environmental Protection Division (GEPD) Underground Storage Tank Management Program (USTMP) indicates that there are no reported releases at the facility. However, numerous violations were cited during the last UST system inspection in 2016. The Financial Assurance is connected to the facility's G.U.S.T. Trust Fund status granted January, 23, 1996. The AST listing is likely connected to the sale of an unknown number of propane tanks. The Drycleaner listing is connected to a Fashion Cleaners facility formerly located in the suites attached to the gasoline station's convenience store. Dry-cleaning facilities commonly use hazardous materials such as chlorinated solvents in their operations. Based proximity to the subject property, age of USTs, and former presence of a drycleaning operation at the facility, the Quik Mart facility constitutes a recognized environmental condition with respect to the subject property.

Based on the findings of this Phase I, it is our opinion that the potential for a past or present release of hazardous or petroleum substances leading to contamination of soil or groundwater at the subject property is low to moderate and further investigation is warranted at this time.

2.0 INTRODUCTION

2.1 Purpose

The purpose of this report is to provide an environmental site assessment as part of due diligence prior to purchase of the subject property. This effort included making appropriate inquiry into the previous ownership and uses of the property and identifying recognized environmental conditions with respect to the subject property and its surroundings in accordance with and 1527-21 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*.

Under ASTM E 1527-21, “recognized environmental condition” is defined as “(1) the presence of hazardous substances or petroleum products in, on, or at a property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on or at the subject property under conditions that pose a material threat of a future release to the environment. A *de minimis* condition is not a recognized environmental condition.” No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a subject property. Performance of this Phase I is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a subject property with respect to reasonable limits to time and cost.

2.2 Scope of Services

The scope of services for this project was outlined in our proposal number 241993.P0, dated July 2, 2024, which is included in the Appendix.

2.3 Significant Assumptions

The findings and opinions conveyed via this Phase I are based on information obtained from a variety of sources enumerated herein, and which Geo-Hydro Engineers, Inc. believes are reliable. However, Geo-Hydro Engineers, Inc. cannot and does not guarantee the authenticity or reliability of the information it has relied upon.

For evaluations of potential contaminant migration with respect to the subject property and nearby properties, we have assumed that the groundwater table and associated hydraulic gradient is parallel with the ground surface.

2.4 Limitations and Exceptions

This report is subject to the limitations in ASTM E 1527-21, *Standard Practice for Environmental Site Assessments*. Although we performed a reconnaissance at the subject property to observe for hazardous substance activity, it is possible that evidence of such activity exists at the site which is not readily visible. Evidence of hazardous substance activity may exist below the ground surface, below a thick growth of vegetation, or at some other location where the view is obstructed, or access is prevented. In general, we

expended reasonable effort to perform observations in these areas. However, we did not perform excavations, removal of vegetation, or other effort to obtain visual access to these areas. The site reconnaissance was intended to investigate for conditions, which indicate to us the possible presence of hazardous materials at the site. Such reconnaissance does not definitively demonstrate the existence of, or the absence of, hazardous substances.

2.5 Special Terms and Conditions

The scope of services and contractual Terms and Conditions for this project was outlined in Geo-Hydro's proposal number 241993.P0, dated July 2, 2024. A copy of the scope of services is included in the Appendix.

2.6 User Reliance

This report and our observations are intended for the benefit of Lowland Capital, LLC and may not be used or relied upon by any other party without Geo-Hydro's prior written consent.

3.0 SITE DESCRIPTION

3.1 Location and Legal Description

The subject property consists of one parcel located north of McFarland Parkway in Alpharetta, Forsyth County, Georgia. The subject property comprises 1.3-acres identified by Forsyth County Parcel ID: 041 085. The subject property is currently unoccupied, wooded land (Plate 1). The surrounding land use is primarily commercial and residential property. The approximate site location is shown on Figures 1 and 2. The approximate subject property boundaries are shown on Figure 3.

3.2 Subject Site and Vicinity General Characteristics

The subject property is located in a portion of Forsyth County that is primarily commercial and residential in land use.

3.3 Current Use of the Subject Property

The subject property is currently unoccupied, wooded land.

3.4 Descriptions of Structures, Roads, Other Improvements on the Subject Site

The subject property can be accessed from McFarland Parkway.

3.5 Current Uses of Adjoining Properties

The subject property is adjoined to the north by wooded property (Plate 2). The subject property is adjoined to the east by a self-storage unit (Plate 3). The subject property is adjoined to the southeast by McFarland Parkway, then Corrugate Gear and Services (Plate 4). The subject property is adjoined to the south by McFarland Parkway, then BB's Bagels (Plate 5). The subject property is adjoined to the west by residential property (Plate 6).

4.0 USER PROVIDED INFORMATION

4.1 Title Records

A review of recorded land title records was not part of this scope of work. As discussed in ASTM E 1527-21, the user is responsible to provide a search of recorded title records for the subject property.

4.2 Environmental Liens or Activity and Use Limitations

Geo-Hydro contracted with EDR for them to perform a search for environmental liens and activity and use limitations (AULs) associated with the subject property back to 1980. No environmental liens or activity and use limitations were found in connection with the subject property on the current property deed. The EDR Environmental Lien and Activity and Use Limitations Search report can be found in the Appendix.

4.3 Specialized Knowledge

Mr. Jared Lill of Lowland Capital, LLC did not communicate any specialized knowledge regarding the subject property.

4.4 Commonly Known or Reasonably Ascertainable Information

Mr. Lill did not communicate any commonly known information regarding the subject property.

4.5 Valuation Reduction for Environmental Issues

Mr. Lill did not indicate that the purchase price of the subject property has been reduced due to environmental reasons.

4.6 Owner, Property Manager, and Occupant Information

The subject property is owned by HV Real Estate, LLC according to the Forsyth County tax assessor's website.

4.7 Reason for Performing Phase I

Lowland Capital, LLC has requested this Phase I as part of due diligence for a real estate transaction involving the subject property.

5.0 RECORDS REVIEW

5.1 Standard Environmental Record Sources

As part of our review of governmental regulatory records, we contracted with Environmental Data Resources (EDR) of Connecticut to provide an ASTM E 1527-21 compliant search of available databases. A copy of the results of this database search is included in the Appendix.

Certain database records are retrieved based on zip code or county proximity to the subject property and do not have sufficient location information to plot them on a location map. These facilities are called “orphan” sites. There were 2 orphan sites identified in the EDR report. These sites were further researched, and, based on the nature of the listings (National Pollutant Discharge Elimination System listings, which are outside the scope of this assessment), are not considered recognized environmental conditions with respect to the subject property, at this time.

The subject property is not referenced by EDR. There were 31 total listings identified by EDR within the respective search radii specified in ASTM 1527-21. The following table summarizes select listings identified within close vicinity of the subject property. Facilities listed by EDR and not included in this table, in our opinion, are not considered recognized environmental conditions to the subject property based on distance and/or topography.

Facility Name Address	Noted Listings	Proximity to Subject Property	Presumed Groundwater Flow	REC, CREC, or HREC?
McFarland Parkway Storage 795 McFarland Parkway	NPDES, FINDS, ECHO	Adjoins to East	Downgradient	No
Tomahawk Recycling, INC./ Atlanta North 774 McFarland Road	AST, AIRS, SWF/LF, NPDES, Tier 2	Approximately 300 feet Southwest	Upgradient	No
Quik Mart/ Citgo Quik Mart/ Big H Foods/ Jin man/ Fashion Cleaners 765 McFarland Road	UST, DRYCLEANERS, FINANCIAL ASSURANCE, UST FINDER, AST, EDR HIST CLEANER, RCRA NONGEN/NLR, FINDS, ECHO	Approximately 145 feet West	Upgradient	Yes
HD Suoky Plumbing/HVAC LTD 520 Branch Drive	RCRA NONGEN/NLR	Approximately 525 feet East	Down-gradient	No

Facility Name Address	Noted Listings	Proximity to Subject Property	Presumed Groundwater Flow	REC, CREC, or HREC?
Corrugated Gear & Sprocket INC 100 Anderson Road	RCRA NONGEN/NLR, FINDS, ECHO	Adjoining to the South	Cross-gradient	No
Sammy Investment INC 765 McFarland Parkway	EDR HIST AUTO	Approximately 145 feet West	Upgradient	No
Tomahawk Waste Management 744 McFarland Road	SWF/LF	Approximately 300 feet Southwest	Upgradient	No

McFarland Parkway Storage
795 McFarland Parkway
NPDES, FINDS, ECHO

McFarland Parkway Storage is located at 795 McFarland Parkway, adjoining the subject property to the east. The McFarland Parkway Storage facility is referenced by EDR in the National Pollutant Discharge Elimination System (NPDES), FINDS, and ECHO databases. The NPDES listing is connected to the historical permit for discharging stormwater which expired July 31st, 2023. The FINDS and ECHO databases serve as “catch-all” databases for facilities that may not be listed on other environmental databases. In this case, the FINDS and ECHO database listings for this facility are connected to the NPDES listing. Due to the nature of the listings, the McFarland Parkway Storage facility is not considered a recognized environmental condition in relation to the subject property at this time.

Tomahawk Recycling, INC./Atlanta North
774 McFarland Road
AST, AIRS, SWF/LF, NPDES, Tier 2

The Tomahawk Recycling, Inc./Atlanta North Facility was formerly located at 774 McFarland Road, approximately 300 feet to the southwest in a topographically upgradient position in relation to the subject property. The Tomahawk Recycling, Inc./Atlanta North facility is referenced by EDR in the aboveground storage tank (AST), Aerometric Information Retrieval System Facility Subsystem (AIRS), Solid Waste Facility/Landfill (SWF/LF), NPDES, and Tier 2 databases. The AST listing is connected to an unspecified number of ASTs at the facility. The AIRS listing is connected to air permitting at the facility, which is outside the scope of this assessment. The SWF/LF listing is connected to the facility’s inventory of solid waste disposal. The Tomahawk facility was a recycling facility that did not perform onsite waste disposal. The NPDES listing is connected to the historical permit granted to Atlanta North for discharging stormwater which expired on July 1, 2011. The Tier 2 database is a list of facilities used by the Environmental Protection Agency to track and enforce rules related air permitting at the facility. The permit is no longer in effect. Based on the nature of the activities at the former Tomahawk Recycling/Atlanta North facility and distance from the subject property, it is our opinion that the Tomahawk Recycling, Inc./Atlanta North

facility is not considered a recognized environmental condition with respect to the subject property, at this time.

Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners
765 McFarland Road
UST, DRYCLEANERS, FINANCIAL ASSURANCE, UST FINDER, AST

Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners (Quik Mart) is located at 765 McFarland Road, approximately 145 feet to the west in a topographically upgradient position in relation to the subject property. Quik Mart is referenced by EDR in the UST, Drycleaners, Financial Assurance, UST FINDER, and AST databases. The UST and UST Finder listings are connected to the current use of one 10,000-gallon diesel UST installed on August 9, 2004 and two 12,000-gallon gasoline USTs installed at the facility on December 21, 1995. Information on file with the GEPD USTMP indicates that there are no reported releases at the facility. However, numerous violations were cited during the last UST system inspection in 2016. The Financial Assurance is connected to the facility's G.U.S.T. Trust Fund status granted January, 23, 1996. The AST listing is likely connected to the sale of an unknown number of propane tanks. The Drycleaner listing is connected to a Fashion Cleaners facility formerly located in the suites attached to the gasoline station's convenience store. Dry-cleaning facilities commonly use hazardous materials such as chlorinated solvents in their operations. Based proximity to the subject property, age of USTs, and former presence of a drycleaning operation at the facility, the Quik Mart facility constitutes a recognized environmental condition with respect to the subject property.

HD Suooky Plumbing/HVAC LTD
520 Branch Drive
RCRA NONGEN/NLR

The HD Suooky Plumbing/HVAC LTD facility is located at 520 Branch Drive, approximately 525 feet to the east in a topographically downgradient position in relation to the subject property. The HD Suooky Plumbing/HVAC LTD facility is referenced by EDR in the Resource Conservation and Recovery Act (RCRA) – Non-Generator/No Longer Regulated (Nongen/NLR) database. This listing is connected to the storage and handling of ignitable wastes, spent solvents, heavy metals, and other hazardous wastes at the facility. No RCRA violations were found for the facility. Due to the facility's downgradient position and lack of RCRA violations, it is Geo-Hydro's opinion that the HD Suooky Plumbing/HVAC LTD facility is not considered a recognized environmental condition with respect to the subject property at this time.

Corrugated Gear & Sprocket INC
100 Anderson Road
RCRA NONGEN/NLR, FINDS, ECHO

The Corrugated Gear & Sprocket INC facility is located at 100 Anderson Road, adjoining the subject property to the south across McFarland Parkway, in a topographically cross-gradient position in relation to the subject property. The Corrugated Gear & Sprocket INC facility is referenced by EDR in the RCRA NONGEN/NLR, FINDS, and ECHO database. The RCRA NONGEN/NLR listing is connected to the storage and handling of ignitable wastes, spent solvents, heavy metals, and other hazardous wastes at the

facility. The FINDS and ECHO databases serve as “catch-all” databases for facilities that may not be listed on other environmental databases. In this case, the FINDS and ECHO database listings for this facility are connected to the RCRA NONGEN/NLR listing. Due to the facility’s cross-gradient position and lack of reported releases, it is Geo-Hydro’s opinion that the Corrugated Gear & Sprocket INC facility is not considered a recognized environmental condition with respect to the subject property at this time.

Sammy Investment INC
765 McFarland Parkway
EDR HIST AUTO

The Sammy Investment Inc. facility was historically located at 765 McFarland Parkway, approximately 145 feet to the west in a topographically upgradient position in relation to the subject property. The Sammy Investment Inc. facility is referenced by EDR in the EDR HIST AUTO database. The EDR HIST AUTO database lists this facility as a Gasoline Service Station during the year 2014. The property is currently occupied by Quik Mart/Chevron gasoline station, and this facility is the same facility as the Quik Mart/Chevron previously discussed as the Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners (Quik Mart). This facility does constitute the same recognized environmental condition as the Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners (Quik Mart).

Tomahawk Waste Management
744 McFarland Road
SWF/LF

The Tomahawk Waste Management facility was historically located at 744 McFarland Road, approximately 300 feet to the southwest in a topographically upgradient position in relation to the subject property. The Tomahawk Waste Management facility is referenced by EDR in the Solid Waste Facility/Landfill database. This listing is connected to the facility’s permit for operating as a solid waste transfer station. The Tomahawk facility was a recycling facility that did not perform onsite waste disposal. Due to the nature of this listing and distance from the subject property, the Tomahawk Waste Management facility is not considered a recognized environmental condition at this time.

5.2 Additional Environmental Records

No additional environmental reports with respect to the subject property were provided to Geo-Hydro Engineers.

5.3 EDR Environmental Lien and Activity and Use Limitations Search

Geo-Hydro contracted with EDR for them to perform a search for environmental liens and activity and use limitations (AULs) associated with the subject property back to 1980. No environmental liens or activity and use limitations were found in connection with the subject property on the current property deed. The EDR Environmental Lien and Activity and Use Limitations Search report can be found in the Appendix.

5.4 Physical Setting Sources

Physical setting analysis provides insight into the likely pathways for hazardous substance transport and migration. Geo-Hydro reviewed available resources to obtain information regarding topography, geologic setting, subsurface soils, and groundwater characteristics in the vicinity of the subject property.

The USDA Soil Conservation Service data in the EDR Radius Report indicates that the dominant soil type in the general area of the subject property is categorized as sandy clay loam. Sandy clay loam is in a Class B hydrologic group and is a moderately well and well-draining soil with moderate infiltration rates.

According to available topographic information from the Cumming, Georgia, USGS quadrangle, the ground surface elevation at the subject property ranges from 1,000 to 1,130 feet above mean sea level. The topography of the subject property slopes down generally to the east-southeast.

5.5 Historical Use Information on Property

Site observations, review of historical aerial photographs, historic USGS topographic maps, city directory listings, and interviews were used to determine site history extending back to 1938. Historical information indicates that the subject property appears to have been historically wooded from the late 1930's to late 1960's and then transitioned to rural residential from the 1970's to the early 1990's. The subject property then transitioned back to wooded property in the late 1990's until it was graded in early 2023 during the construction of the adjoining self-storage building in early 2023.

Date	Subject Property Use	Historical Sources
2023 to present	Vacant and recently Graded	USGS Topographic Maps, Aerial Photographs, City Directories, Interviews, Google Earth, Site Visit
Late 1990's to early 2023	Vacant and Wooded	USGS Topographic Maps, Aerial Photographs, City Directories, Interviews
1970's to early 1990's	Rural Residential	USGS Topographic Maps, Aerial Photographs, City Directories, Interviews
Late 1930's to late 1960's	Vacant and Wooded	USGS Topographic Maps and Historical Aerial Photographs

5.5.1 Historical Fire Insurance Maps

Historical fire insurance maps were not available for subject property. A copy of the Unmapped Property report is included in the Appendix.

5.5.2 Historical Aerial Photographs

A chronology of aerial photographs was provided for this report by EDR. Photographs were reviewed from 2019, 2015, 2010, 2007, 1999, 1993, 1981, 1978, 1972, 1968, 1960, 1955, 1951, and 1938. The subject property appears to have been historically agricultural and residential from the late 1930's to early 1980's

and unoccupied, wooded property from the early 1990’s to the present day. Copies of the historical aerial photographs reviewed are included in the Appendix.

5.5.3 Historical USGS Topographic Maps

A chronology of USGS topographic maps was provided for this report by EDR. Maps were reviewed from 2020, 2017, 2014, 2003, 2002, 1992, 1985, 1973, 1972, 1968, 1964, 1894, and 1890. The subject property and adjoining properties in the USGS topographic maps appeared to be generally similar to the aerial photographs of similar years. Copies of the historical USGS topographic maps reviewed are included in the Appendix.

5.5.4 Historical City Directories

Geo-Hydro reviewed available city directory listings for addresses along McFarland Parkway. City directories were available for various years from 1981 to 2020. The subject property has no address and was therefore not mentioned in the city directory listings. No facilities of obvious environmental concern were identified through the city directory review that are not addressed in Section 5.1. A copy of the city directory listings is included in the Appendix.

5.6 Historical Use Information on Adjoining Properties

Historical records reviewed indicate the properties adjoining the subject property were historically occupied by agricultural, wooded, and residential properties from the late 1930’s through the early 1980’s. The general area underwent residential and commercial development in the early 1990’s. The adjoining properties appear residential, commercial, and wooded from the early 1990’s to present day.

Aerial Photographs	Adjacent Properties North	Adjacent Properties East	Adjacent Properties South	Adjacent Properties West
2019	Wooded	Wooded	Commercial	Residential
2015	Wooded	Wooded	Commercial	Residential
2010	Wooded	Wooded	Commercial	Residential
2007	Wooded	Wooded	Commercial	Residential
1999	Wooded	Wooded	Commercial	Residential
1993	Wooded	Wooded	Commercial	Residential
1981	Wooded/Residential	Residential	Agricultural/Residential	Residential
1978	Wooded/Residential	Residential	Agricultural/Residential	Residential
1972	Wooded/Residential	Residential	Agricultural/Residential	Residential
1968	Wooded/Residential	Residential	Agricultural/Residential	Residential
1955	Agricultural/Residential	Agricultural/Wooded	Agricultural/Residential	Agricultural/Wooded
1951	Agricultural/Residential	Agricultural/Wooded	Agricultural/Residential	Agricultural/Wooded
1938	Agricultural/Residential	Agricultural/Wooded	Agricultural/Residential	Agricultural/Wooded

6.0 INFORMATION FROM SITE RECONNAISSANCE

6.1 Methodology and Limiting Conditions

A site reconnaissance was performed on July 23, 2024, by Ms. Hailey Barahona and Ms. Morgan Kerpics of Geo-Hydro. The reconnaissance consisted of visual and physical observations of the subject property. The objective of the reconnaissance was to observe for indications that hazardous substances or petroleum products might have been stored on, disposed of, or utilized on the subject property.

Although we performed a reconnaissance at the subject property to observe for hazardous substance activity, it is possible that evidence of such activity exists at the site which is not readily visible. Evidence of hazardous substance activity may exist below the ground surface, below a thick growth of vegetation, or at some other location where the view is obstructed, or access is prevented. In general, we expended reasonable effort to perform observations in these areas. However, we did not perform excavations, removal of vegetation, or other effort to obtain visual access to these areas. The site reconnaissance was intended to investigate for conditions which would indicate to us the possible presence of hazardous materials at the site. Such reconnaissance does not definitively demonstrate the existence of, or the absence of, hazardous substances. The site reconnaissance was performed by walking the perimeter of the subject property and making several transects through the interior of the subject property.

6.2 General Site Setting

The subject property consists of one parcel located north of McFarland Parkway in Alpharetta, Forsyth County, Georgia. The subject property comprises 1.3-acres identified by Forsyth County Parcel ID: 041 085. The subject property is currently unoccupied, wooded land (Plate 1). The surrounding land use is primarily commercial and residential property. The approximate site location is shown on Figures 1 and 2. The approximate subject property boundaries are shown on Figure 3.

6.3 Exterior and Interior Observations

The following table includes a list of exterior and interior observations addressed during site reconnaissance. "Yes" means that potential evidence of the item was identified. "No" means that no evidence of the item was identified.

Item Identified On the Subject Property	Identified?	
	Yes	No
Industrial or Manufacturing Facilities		X
Hazardous Substance Storage Containers/Drums		X
Above Ground Storage Tanks (ASTs)		X
Underground Storage Tanks (USTs)		X
Chemical Gases or Foul Odors		X
Surface Impoundments, Lagoons, or Holding Ponds		X
Transformers, Hydraulic Equipment, and Suspect PCB Equipment		X

Item Identified On the Subject Property	Identified?	
	Yes	No
Stains or Corrosion Inside Buildings		X
Floor Drains, Sumps, and Septic Systems		X
Sheens, Odors or Discoloration Associated with Observed Water Bodies, Springs, Lagoons, Swamps, Rivers, Lakes		X
Stained or Discolored Soils or Pavement		X
Distressed, Discolored, or Stained Vegetation		X
Landfills, Dumping, Disturbed Soils, Direct Burial Activity, Injection Wells, or Other Disposal Activities		X
Fill Materials of Unknown Origin, Mounds, or Depressions Which Suggest Trash or Other Solid Waste Disposal		X
Air Emissions or Waste Water Discharges		X
Wells and Cisterns		X
Monitoring Wells, Piezometers, Other Surface Monitoring Devices		X
Evidence of Prolonged Use or Misapplication of Pesticides, Herbicides, or Fertilizers		X

7.0 INTERVIEWS

7.1 Interview with Owner

An owner interview was sent to Mr. Jared Lill to forward to the current owner. As of issuance of this report, no response has been received. If a response is received which alters the findings of this report, an addendum will be issued.

7.2 Interview with Site Manager

See Section 7.1.

7.3 Interviews with Occupants

See Section 7.1.

7.4 Interviews with Local Government Officials

Geo-Hydro made an Open Records Request with Forsyth County Government regarding possible environmental concerns at the subject property. As of issuance of this report, no response has been received. If a response is received which alters the findings of this report, an addendum will be issued.

7.5 Interviews with Others

An interview with the former Fashion Cleaners, located at 765 McFarland Parkway, was attempted by phone, but the phone number is no longer in service, and the business is no longer located at this address.

8.0 FINDINGS AND CONCLUSIONS

We have performed a Phase I Environmental Site Assessment (Phase I) in general conformance with the scope and limitations of ASTM Practice 1527-21. Any exceptions to, or deletions from, this practice are described in Section 2.0 of this report. This assessment has revealed the following recognized environmental conditions, controlled recognized environmental conditions, historical recognized environmental conditions and/or significant data gaps in connection with the subject property:

- **Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners
765 McFarland Road
UST, DRYCLEANERS, FINANCIAL ASSURANCE, UST FINDER, AST**

Quik Mart/Citgo Quik Mart/Big H Foods/Jin man/Fashion Cleaners (Quik Mart) is located at 765 McFarland Road, approximately 145 feet to the west in a topographically upgradient position in relation to the subject property. Quik Mart is referenced by EDR in the UST, Drycleaners, Financial Assurance, UST FINDER, and AST databases. The UST and UST Finder listings are connected to the current use of one 10,000-gallon diesel UST installed on August 9, 2004 and two 12,000-gallon gasoline USTs installed at the facility on December 21, 1995. Information on file with the GEPD USTMP indicates that there are no reported releases at the facility. However, numerous violations were cited during the last UST system inspection in 2016. The Financial Assurance is connected to the facility's G.U.S.T. Trust Fund status granted January, 23, 1996. The AST listing is likely connected to the sale of an unknown number of propane tanks. The Drycleaner listing is connected to a Fashion Cleaners facility formerly located in the suites attached to the gasoline station's convenience store. Dry-cleaning facilities commonly use hazardous materials such as chlorinated solvents in their operations. Based on proximity to the subject property, age of USTs, and former presence of a drycleaning operation at the facility, the Quik Mart facility constitutes a recognized environmental condition with respect to the subject property.

Based on the findings of this Phase I, it is our opinion that the potential for a past or present release of hazardous or petroleum substances leading to contamination of soil or groundwater at the subject property is low to moderate and further investigation is warranted at this time.

9.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONAL

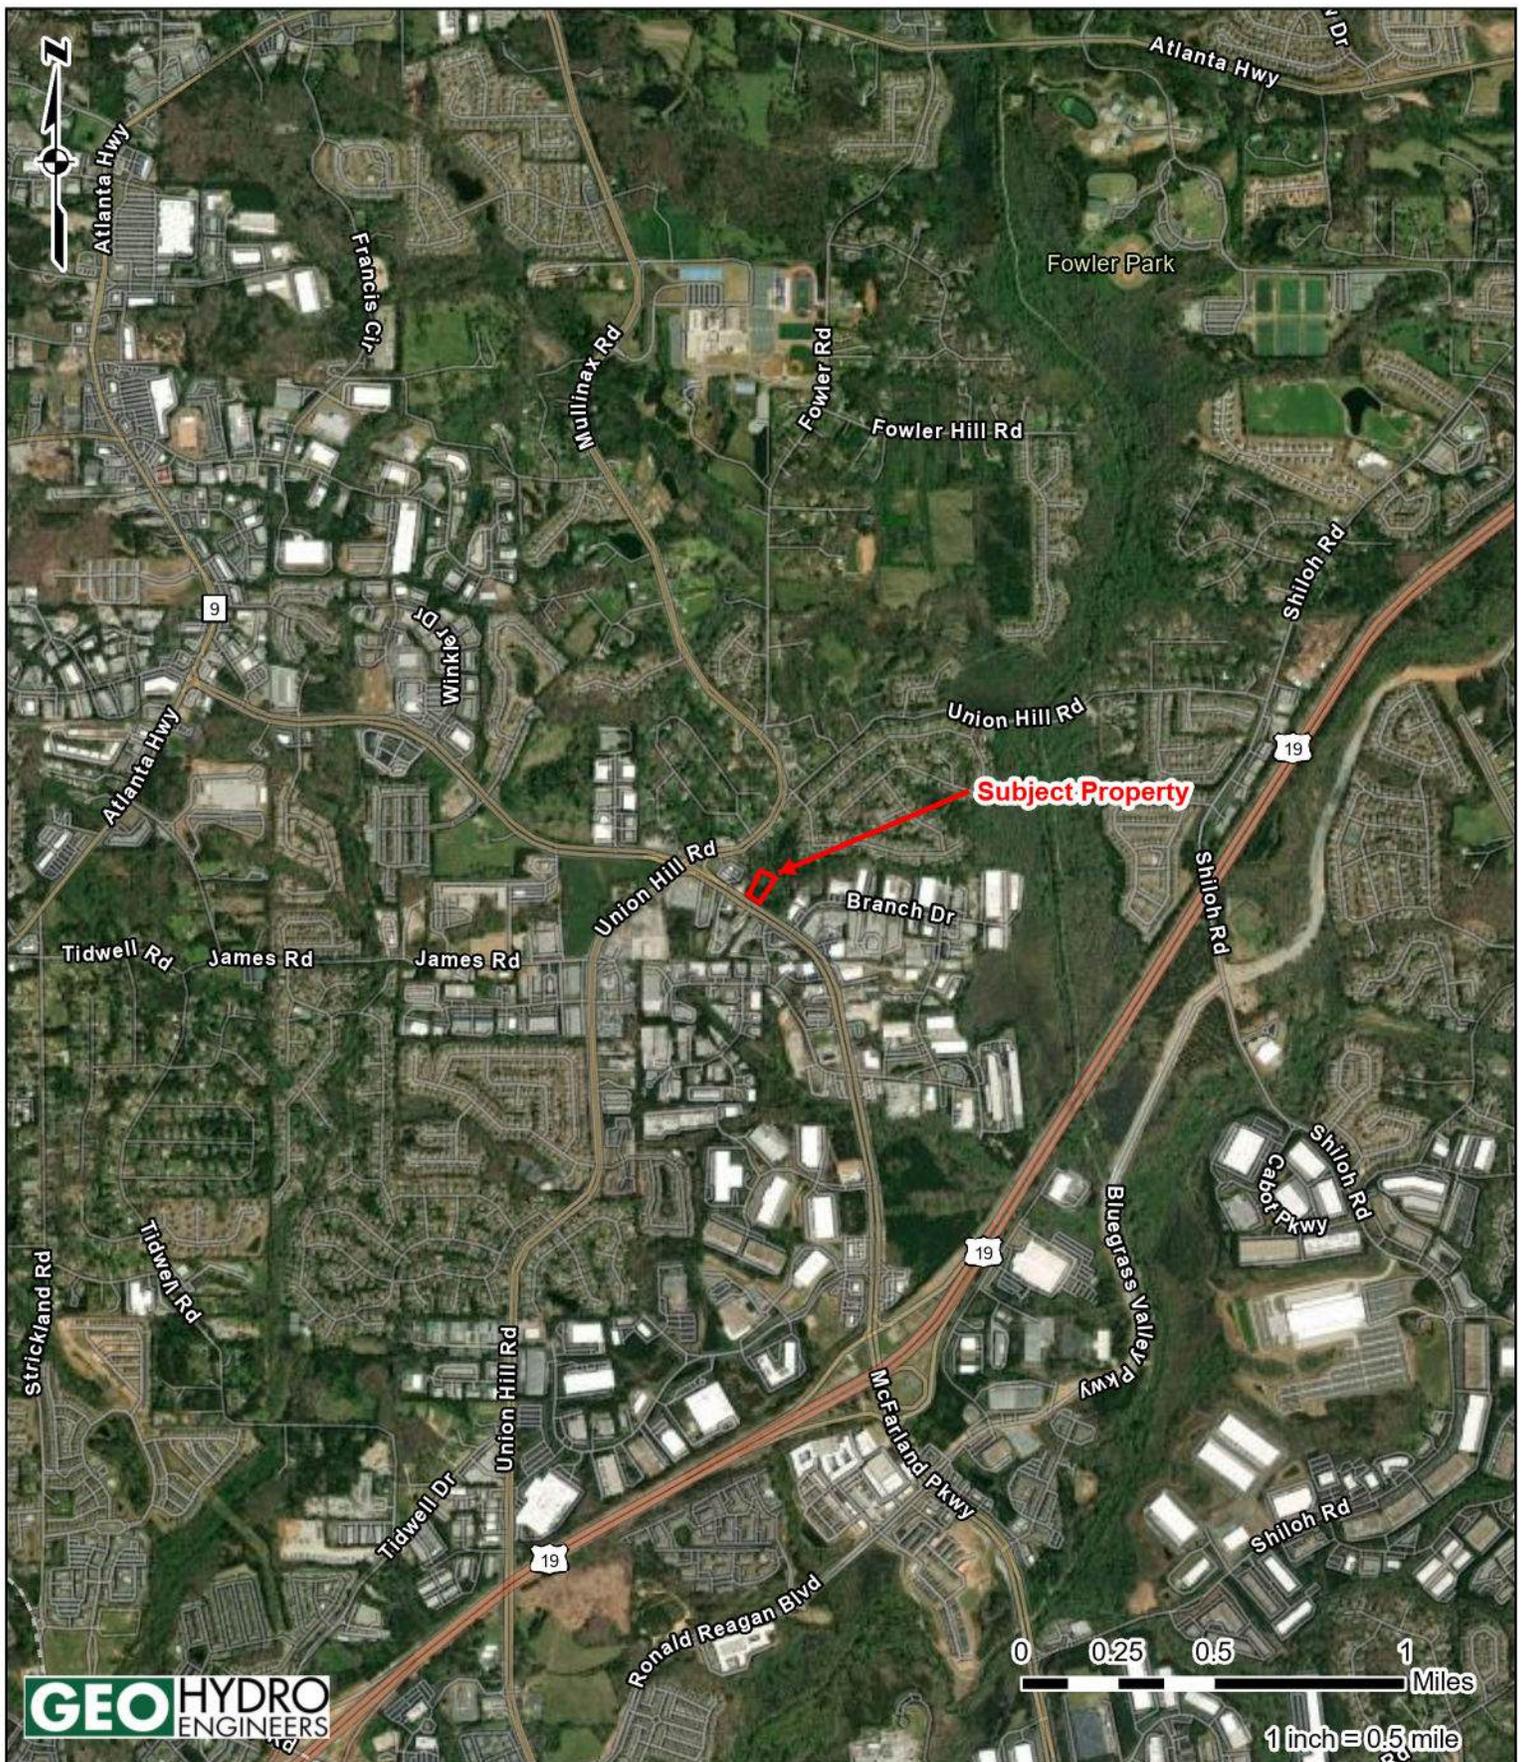

“I declare that, to the best of my professional knowledge and belief, I meet the definition of an *environmental professional* as defined in 40 CFR 312.10” and “I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed all the appropriate inquiries in conformance with the Standards and practices set forth in 40 CFR Part 312.”

L. Jarrett Baggett, P.G.
Environmental Services Director

PHASE I ENVIRONMENTAL SITE ASSESSMENT

SUBJECT PROPERTY USER QUESTIONNAIRE

Project Name: **795 McFarland Parkway Phase I**

Project Number: **241993.30**

The following questions are required for a Phase I Environmental Site Assessment in order to complete "all appropriate inquiry" from the **USER'S** knowledge of the subject property history.

1. Do you know of any environmental liens against the subject property?
Response: No
2. Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls in place at the site or recorded in government law?
Response: No
3. Do you know of any environmental problems or issues associated with the subject property?
Response: No
4. Observed utilities include: City Water and Sewer : Are there any other utilities?
Response: No
5. Is the property serviced by natural gas?
Response: No
6. Is the subject property serviced by city or county sewer and water?
Response: City
7. Were homes ever on the subject property?
Response: No
8. Were heating oil tanks ever on the subject property?
Response: No
9. Were septic systems ever on the subject property?
Response: No
10. Were water wells ever on the subject property?
Response: No
11. What years was the property residential?
Response: No
12. When was the subject property occupied by chemical using businesses (gas station, dry cleaner, printer, etc.)?

PHASE I ENVIRONMENTAL SITE ASSESSMENT

SUBJECT PROPERTY USER QUESTIONNAIRE

Project Name: 795 McFarland Parkway Phase I

Project Number: 241993.30

Response: No
13. Are there any neighbors that present the subject property with any environmental concerns?
Response: No
14. Do you have any previously prepared environmental reports pertaining to the subject property?
Response: No
15. Has the purchase price of the subject property been reduced due to environmental reasons?
Response: No
16. Please provide a brief summary of the subject property's history back to 1940.
Response: see see low land

Forsyth County Fire Department

Martie Shepherd, Administrative Assistant, Sr.

07/19/2024

Re: FOIA Document Request
795 McFARLAND PKWY

According to the Forsyth County Fire Department's records, the property in question shows no reports of fire or incident of environmental concerns.

The Fire Marshal's Office records show that there are no open or outstanding fire code violations for the requested property. Additionally, there are no records of any hazardous material storage and/or spill, and no records of above or below ground storage tanks.

Building code violations are handled by the Forsyth County Planning & Development Division and UST/AST permits are handled by the State Fire Marshal's Office.

Reporting of any hazardous materials stored onsite is handled by EPA/EPD.

Onsite septic systems permits/inspections and onsite water well system permits/inspections are handled by the Forsyth County Health Department.

Environmental liens and/or land use restrictions are handled by the Department of Natural Resources.

If I may be of further assistance to you, I may be reached at 770-205-4532.

Sincerely,

Martie Shepherd

EDR Environmental Lien and AUL Search 1980

The EDR Environmental Lien and AUL Search 1980 report provides results from a search of available land title records for environmental cleanup liens and other activity and use limitations (AULs), such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address and/or parcel information to:

- search for parcel number and/or legal description
- search for ownership information filed between 1980 and the most current publicly available date
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.
- search for publicly available environmental encumbering instrument(s) filed between 1980 and present
- provide a copy of any environmental encumbrance(s)
- provide a copy of the current deed when available

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Property Archives, LLC researched and compiled the land title information contained in this EDR Environmental Lien and AUL Search 1980 report on behalf of EDR.

COUNTY OF FULTON

LIMITED WARRANTY DEED

THIS INDENTURE, made as of the 6 day of March, 2020, between RICHARD A. WHITCOMB, resident of the State of Georgia, as party of the first part, hereinafter called "Grantor", and HV REAL ESTATE, LLC, a Delaware series limited liability company, as party of the second part, hereinafter called "Grantee" (the words "Grantor" and "Grantee" to include their respective heirs, personal representatives, successors, and assigns where the context requires or permits).

WITNESSETH:

THAT, Grantor, for and in consideration of the sum of Ten and No/100 (\$10.00) Dollars, and other good and valuable consideration, in hand paid at and before the sealing and delivery of these presents, the receipt, adequacy and sufficiency of which being hereby acknowledged by Grantor, has granted, bargained, sold, aliened, conveyed, and confirmed, and by these presents does grant, bargain, sell, alien, convey, and confirm unto the said Grantee, all of Grantor's interest in and to the tract or parcel of land lying and being in Land Lots 749 and 750, 2nd District, 1st Section, Forsyth County, Georgia, as more particularly described on Exhibit "A", attached hereto and incorporated herein by this express reference, TOGETHER WITH every contingent remainder and right of reversion, and together with all buildings, rights, members, structures, easements, alleys, ways, appurtenances, improvements, shrubbery, trees, plants, fixtures, privileges, tenements, or hereditaments, in any way belonging, relating or appertaining thereto (collectively the "Property"), SUBJECT TO and only to all matters of record as of the date hereof (hereinafter collectively referred to as the "Exceptions").

THAT, Grantor will, subject to the Exceptions, warrant and forever defend the right and title to Grantor's interest in and to the Property unto Grantee and the heirs, legal representatives, successors, and assignees of Grantee against the claims of all persons claiming by, through or under Grantor but not otherwise.

TO HAVE AND TO HOLD the said Property unto Grantee, together with all and singular to the rights, members, easements, licenses, benefits, and appurtenances thereof, to the same being, belonging or in anywise appertaining, to the only proper use, benefit, and behoof of the said Grantee forever, in FEE SIMPLE, in as full and ample a manner as the same was held, possessed, and enjoyed, or might have been held, possessed, and enjoyed, by the Grantor.

IN WITNESS WHEREOF, Grantor has signed and sealed this Deed the day and year first above written.

GRANTOR:

Signed, sealed and delivered this 6 day of March, 2020, in the presence of:

LIMITED WARRANTY DEED

STATE OF GEORGIA
COUNTY OF FORSYTH

THIS INDENTURE is made this 8th day of January, 2019 between **RICHARD A. WHITCOMB**, a resident of DeKalb County, Georgia (herein called "Grantor"), and **795 MCFARLAND PARKWAY, LLC**, a Georgia limited liability company (herein called "Grantee").

WITNESSETH: That Grantor, for and in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration, in hand paid at and before the sealing and delivery of these presents, the receipt and sufficiency of which are hereby acknowledged, has granted, bargained, sold and conveyed and by these presents does grant, bargain, sell and convey unto Grantee all that tract or parcel of land described on **Exhibit "A"**, attached hereto and made a part hereof.

TO HAVE AND TO HOLD the said bargained premises, together with all and singular the rights, members and appurtenances thereof, to the same being, belonging or in any wise appertaining, to the only proper use, benefit and behoof of Grantee, forever, IN FEE SIMPLE.

Grantor will warrant and forever defend the right and title to the above described property unto Grantee against the claims of all persons owning, holding or claiming by, through or under Grantor and not otherwise, subject only to those Permitted Title Exceptions listed on **Exhibit "B"** attached hereto and made a part hereof.

The words "Grantor" and "Grantee" include all genders, plural and singular, and their respective heirs, successors and assigns where the context requires or permits.

IN WITNESS WHEREOF, the said Grantor has hereunto set his hand and seal, the day and year above written.

Signed, sealed and delivered

SUBJECT: Notice of Violation – Status Report
Underground Storage Tank (UST) system
Quik Mart
765 McFarland Road
Alpharetta, GA; Forsyth County
Facility ID # 9058123 / Air Station # 3183

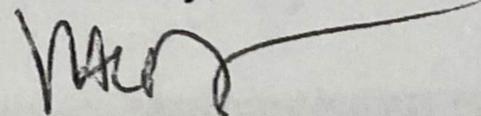

Dear Mr. Ali:

This letter is in response to the information received concerning the response to the Notice of Violation (NOV). The documentation that was provided has been reviewed in accordance with the Georgia Rules for Underground Storage Tank Management (GUST Rules).

Compliance of the violations per the Georgia Environmental Protection Division (EPD) investigation, on October 20, 2011 has been achieved. No further action pertinent to the violations is required if records are maintained properly.

If you should have any questions regarding this correspondence, please advise. You may contact at Victoria Bujeker at 404-392-3608.

Sincerely,

Victoria Bujeker
Environmental Specialist

move liquid from Reg + Prem Sumps, from all spill tickets and vapor recovery bucket and have it disposed of properly. Submit invoice. And photo in each one.

REPAIRS - CHECK THE APPROPRIATE ITEM.

- Submit all tanks and/or piping repair records, if applicable.
- Submit release detection equipment repairs, if applicable.
- Submit record of tightness test conducted after repair.

GALVANIC (STI-P3) CATHODIC PROTECTION SYSTEM

- Copy of the last Cathodic Protection System test conducted on the tank and/or piping.

SPILL/OVERFILL PREVENTION INFORMATION - CHECK THE APPROPRIATE ITEM.

- Submit proof of installation and **TYPE** of overfill prevention. *for all tanks x*
- Submit proof of installation of spill prevention.

VIII. AIR STAGE I & STAGE II VAPOR RECOVERY - CHECK THE APPROPRIATE BOX.

- Copy of the Stage I / Stage I EVR Vapor Recovery Certification Test results
- Copy of the Stage II Vapor Recovery
- Compliance or Certification Test results
- Copy of the Stage II training certificate
- Copy of the Stage II Daily Inspection Log for the last 12 months.
- Documentation that the Stage II Vapor Recovery System was decommissioned prior to the 2016 deadline.

CORROSION PROTECTION INFORMATION - CHECK THE APPROPRIATE BOX.

CORROSION PROTECTION

- Documentation that the tanks and/or piping is made of a noncorrosive material.
- 10 year and/or 5 year internal inspection report.

INTERNAL LINING

- Documentation that internal lining was applied.

IMPRESSED CURRENT SYSTEM

- Copy of the last Cathodic Protection System test conducted on the tank and/or piping.
- Copy of the Rectifier log for the last 36 months.

IX. OPERATOR CERTIFICATION

- Provide copies of Certified Operator training for the following disciplines:
 - Operator A
 - Operator B
 - Operator C *ck okg*

Have wiring at Reg, Prem, + diesel manholes for ATG protected and submit photos / invoice. *All info received*

PLEASE BE SURE TO INCLUDE YOUR FACILITY ID ON EACH PAGE OF THE INFORMATION YOU SEND IN RESPONSE.

Please submit the information requested no later than (date): Oct 6, 2016

Send the information to my attention via fax to (404) 362-2654, ATTN: Judy Phillips

You may also e-mail the documentation to: Judy Phillips @ dnr.state.ga.us *dnr.ga.gov*

Send it via US Mail to:

ADDITIONAL INFORMATION REQUEST - RECORDS TO BE SUBMITTED:

FACILITY ID #: 9058123 AIR STATION ID#: 3183

UST NOTIFICATION REQUIREMENTS - CHECK THE APPROPRIATE BOX.

- Submit a copy of the current Annual Tank Registration Certificate.
- Submit a "Notification Data for Underground Storage Tank Form (7530-1)" *with an original signature if there have been any changes to the UST System or ownership since the submittal of the last Annual Tank Registration.*

FINANCIAL RESPONSIBILITY ASSURANCE CHECK THE APPROPRIATE BOX.

GUST TRUST FUND PARTICIPANT:

- Submit a copy of one petroleum invoice for each quarter for the last three years (12 invoices). These invoices must show that the Environmental Assurance Fees (EAFs) have been paid on each gallon of petroleum product purchased. This may also be listed on the invoices as the GUST Fee or Tax.

NOT A GUST TRUST FUND PARTICIPANT, SUBMIT A COPY OF ONE OF THE FOLLOWING:

- Self-Insured
- Insurance
- Letter of Credit
- Surety Bond
- Documentation showing that company's net worth exceeds \$10,000,000

RELEASE DETECTION FOR TANKS - CHECK THE APPROPRIATE BOX.

INVENTORY CONTROL WITH TANK TIGHTNESS TESTING

- Submit a copy of the monthly report, including the last 36 months of inventory readings and reconciliation results.
- Copy of the report of the last tank tightness test. *The reports should include documentation of monthly water checks.*

STATISTICAL INVENTORY RECONCILIATION (SIR) -Monthly Monitoring Method

- Copy of the reports of the last 36 months of SIR results. *The reports should include documentation of monthly water checks.*

MANUAL TANK GAUGING (MTG)

- Submit a copy of the last 36 month reports of stick readings and results.
- Submit a copy of the last tank tightness test if tank is 1,001 to 2,000 gallons in capacity.

AUTOMATIC TANK GAUGING (ATG) - Monthly Monitoring Method

Oct 2013 through present OKg

- Submit a copy of the last 36 monthly test reports (conducted at least at a 0.2 gph leak rate); the records should indicate at least one "pass" test result per month per tank.

VAPOR AND GROUNDWATER MONITORING - Monthly Monitoring Method

- Copy of initial site assessment
- Documentation that portable or fixed monitoring device is functional and calibrated.
- Submit a copy of the monitoring well log reporting the monitoring log reporting that the interstitial space has been checked at least once per month for the past 36 months.

INTERSTITIAL MONITORING - Monthly Monitoring Method

- Submit annual Functionally Test Report for the sensor.
- Submit a copy of the interstitial monitoring log reporting that the interstitial space has been checked at least once per month for the past 36 months.

IV. RELEASE DETECTION FOR PIPING - CHECK THE APPROPRIATE BOX.

SUCTION PIPING

- Documentation that the piping system has only one check valve, which is located beneath the dispenser and the piping slopes back towards the tank.

OR

- Piping system with check valve at tank: Submit a copy of the last line tightness test conducted or a copy of the last 36 months reports of the monthly monitoring method used.

1 * last 3 yro.

PRESSURIZED PIPING

- Submit a copy of the last annual line tightness test result or a copy of the last 36 reports of the monthly monitoring results.
- The last test results of all mechanical automatic line leak detectors.
- Submit a copy of the last 36 months of the 0.2 gph line tightness test conducted by the electronic line leak detection
- Submit copies of the electronic line leak detector report verifying that the device is operable and a 3.0 gph test was conducted and passed each of the last 3 years.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Geo-Hydro Engineers, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA), ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT. Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal sites subject to CERCLA removals and CERCLA orders

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 04/22/2024 has revealed that there is 1 SEMS site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
REGAL CHEMICAL FIRE Site ID: 0407731 EPA Id: GAN000407731	600 BRANCH DRIVE	ESE 1/8 - 1/4 (0.187 mi.)	C18	70

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/03/2024 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
COOKSON ELECTRONICS EPA ID:: GAD980803837	200 TECHNOLOGY DR	SE 1/2 - 1 (0.942 mi.)	31	108

Lists of state- and tribal hazardous waste facilities

GA NON-HSI: Georgia Non Hazardous Site Inventory Sites.

A review of the GA NON-HSI list, as provided by EDR, and dated 02/04/2024 has revealed that there is 1 GA NON-HSI site within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
WORLD WIDE MANUFACTU	843 MCFARLAND RD.	SE 1/8 - 1/4 (0.182 mi.)	D17	70

EXECUTIVE SUMMARY

Lists of state and tribal landfills and solid waste disposal facilities

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Natural Resources' Operating Solid Waste Facilities' list.

A review of the SWF/LF list, as provided by EDR, and dated 10/25/2023 has revealed that there are 5 SWF/LF sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Natural Resources' Underground Storage Tank Database.

A review of the UST list, as provided by EDR, and dated 01/30/2024 has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/03/2024 has revealed that there are 8 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 07/01/2024 has revealed that there are 2 PFAS ECHO sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there is 1 UST FINDER RELEASE site within approximately 0.5 miles of the target property.

SPEEDWAY #8495	910 MACFARLAND PKWY	SSE 1/4 - 1/2 (0.413 mi.)	F27	98

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there is

EXECUTIVE SUMMARY

1 UST FINDER site within approximately 0.25 miles of the target property.

QUIK MART	765 MCFARLAND RD	W 0 - 1/8 (0.035 mi.)	B8	27

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as "e-Manifest," will modernize the nation's cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 07/24/2023 has revealed that there is 1 E MANIFEST site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
FLEX-PAK INC	555 BRANCH RD SW	E 1/8 - 1/4 (0.141 mi.)	C15	43

DRYCLEANERS: A list of drycleaners in the state. The listing includes drycleaner facilities, that use perchloroethylene, that responded to the Notification of Compliance Status forms. It also includes those businesses that are pick-up stores only and do not conduct dry cleaning on site.

A review of the DRYCLEANERS list, as provided by EDR, and dated 01/05/2024 has revealed that there is 1 DRYCLEANERS site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D009
Waste Description:	Mercury
Waste Code:	D016
Waste Description:	2,4-D (2,4-Dichlorophenoxyacetic Acid)
Waste Code:	D018
Waste Description:	Benzene
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The National Compliance Database (NCDB) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA).

The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with

REGAL CHEMICAL COMPANY (Continued)

1004460519

Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.

The Section Seven Tracking System (SSTS) tracks the registration of all pesticide-producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and related devices that are produced, sold, or distributed.

THE SUPERFUND ENTERPRISE MANAGEMENT SYSTEM (SEMS) INTEGRATES MULTIPLE LEGACY SYSTEMS INTO A COMPREHENSIVE TRACKING AND REPORTING TOOL, PROVIDING DATA ON THE INVENTORY OF ACTIVE AND ARCHIVED HAZARDOUS WASTE SITES EVALUATED BY THE SUPERFUND PROGRAM. IT CONTAINS SITES THAT ARE EITHER PROPOSED TO BE OR ARE ON THE NATIONAL PRIORITIES LIST (NPL) AS WELL AS SITES THAT ARE IN THE SCREENING AND ASSESSMENT PHASE FOR POSSIBLE INCLUSION ON THE NPL.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D004
Waste Description:	Arsenic
Waste Code:	D007
Waste Description:	Chromium
Waste Code:	D009
Waste Description:	Mercury
Waste Code:	D011
Waste Description:	Silver
Waste Code:	F002
Waste Description:	The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F005
Waste Description:	The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	U002
Waste Description:	2-Propanone (l) (Or) Acetone (l)

Waste Code: U069
Waste Description: 1,2-Benzenedicarboxylic Acid, Dibutyl Ester (Or) Dibutyl Phthalate

Waste Code: U112
Waste Description: Acetic Acid, Ethyl Ester (l) (Or) Ethyl Acetate (l)

Waste Code: U140
Waste Description: 1-Propanol, 2-Methyl- (l,T) (Or) Isobutyl Alcohol (l,T)

Waste Code: U159
Waste Description: 2-Butanone (l,T) (Or) Methyl Ethyl Ketone (Mek) (l,T)

Waste Code: U161
Waste Description: 4-Methyl-2-Pentanone (l) (Or) Methyl Isobutyl Ketone (l) (Or) Pentanol, 4-Methyl-

Waste Code: U220
Waste Description: Benzene, Methyl- (Or) Toluene

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 05/22/2024	Source: EPA
Date Data Arrived at EDR: 06/03/2024	Telephone: N/A
Date Made Active in Reports: 06/26/2024	Last EDR Contact: 07/02/2024
Number of Days to Update: 23	Next Scheduled EDR Contact: 10/07/2024
	Data Release Frequency: Quarterly

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 05/22/2024	Source: EPA
Date Data Arrived at EDR: 06/03/2024	Telephone: N/A
Date Made Active in Reports: 06/26/2024	Last EDR Contact: 07/01/2024
Number of Days to Update: 23	Next Scheduled EDR Contact: 10/07/2024
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

NON HSI: Non-Hazardous Site Inventory

This list was obtained by EDR in 1998 and contains property listings that have reported contamination of soil or groundwater under the Georgia Hazardous Site Response Act (HSRA). These sites were not placed on the Georgia Priority list (Hazardous Site Inventory or HSI) because their hazard evaluation scores did not exceed the threshold levels established for sites posing an imminent threat to health or the environment. Disclaimer provided by Rindt-McDuff Associates - the database information has been obtained from publicly available sources produced by other entities. While reasonable steps have been taken to insure the accuracy of the data, RMA does not guarantee the accuracy of the data. No claim is made for the actual existence of pollution at any site. This data does not constitute a legal opinion.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facility's name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset, as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration's document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories. UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

Date of Government Version: 06/08/2023	Source: Environmental Protection Agency
Date Data Arrived at EDR: 10/04/2023	Telephone: 202-564-0394
Date Made Active in Reports: 01/18/2024	Last EDR Contact: 05/08/2024
Number of Days to Update: 106	Next Scheduled EDR Contact: 08/19/2024
	Data Release Frequency: Varies

UST FINDER RELEASE: UST Finder Releases Database

US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Southeast Map:	16008983 DULUTH, GA
Version Date:	2020

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

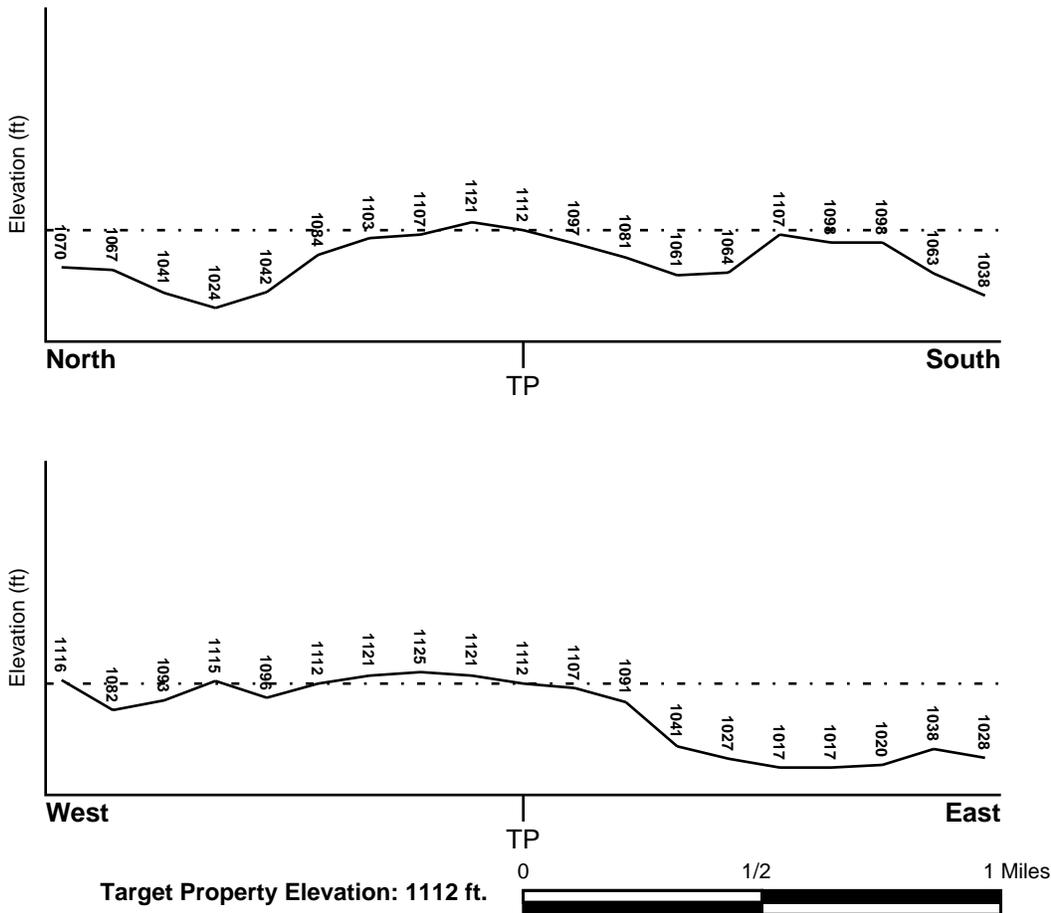

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ESE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
13117C0138F	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
13117C0139F	FEMA FIRM Flood data
13117C0226F	FEMA FIRM Flood data
13117C0227F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
CUMMING	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Precambrian
System: Precambrian
Series: Paragneiss and schist
Code: Ym (decoded above as Era, System & Series)

GEOLOGIC AGE IDENTIFICATION

Category: Metamorphic Rocks

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: CECIL

Soil Surface Texture: sandy clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 60 inches

Depth to Bedrock Max: > 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 2.00 Min: 0.60	Max: 6.50 Min: 4.50
2	7 inches	11 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50
3	11 inches	50 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Elastic silt.	Max: 2.00 Min: 0.60	Max: 5.50 Min: 4.50
4	50 inches	75 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: sandy loam
loam
fine sandy loam

Surficial Soil Types: sandy loam
loam
fine sandy loam

Shallow Soil Types: clay
sandy clay
gravelly - loam

Deeper Soil Types: loamy fine sand
sandy loam
weathered bedrock

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

Telephone: 706-542-1581

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

**Proposal to Perform
Phase I Environmental Site Assessment
795 McFarland Parkway
Alpharetta, Forsyth County, Georgia
Geo-Hydro Proposal Number 241993.P0**

Dear Mr. Lill:

Geo-Hydro Engineers, Inc. (Geo-Hydro) is pleased to submit this proposal to perform a Phase I Environmental Site Assessment for one parcel located at 795 McFarland Pkwy in Alpharetta, Forsyth County, Georgia. The subject property consists of one parcel that is approximately 4.21-acre and is referenced by Forsyth County Parcel ID: 041541. The approximate site boundary is outlined below in blue on an excerpt from the Forsyth County Tax Assessors website.

We will perform the Phase I work in general accordance with ASTM E-1527-21 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The Phase I assessment report will not include sampling or testing of soil, groundwater, radon, methane, or other materials at the site. In addition, vapor intrusion, as an indoor air quality issue, is a non-scope consideration in the ASTM E 1527-21 Phase I scope of work.

SCOPE OF WORK

PHASE I ENVIRONMENTAL SITE ASSESSMENT

We will perform the Phase I work in general accordance with ASTM E-1527-21 *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The Phase I assessment report will not include sampling or testing of soil, groundwater, radon, methane, or other materials at the site. In addition, vapor intrusion, as an indoor air quality issue, is a non-scope consideration in the ASTM E 1527-21 Phase I scope of work.

A) Assessment Procedures and Methods

1) Site History

- a) Aerial Photographs: We will review and interpret available historical aerial photographs of the site and surrounding area to allow inference regarding historical site usage.
- b) Maps and Data: We will review pertinent available documents and maps regarding local geologic and hydrogeologic conditions. We will review and interpret available topographic and archival land use maps of the site to aid in the establishment of past site usage. We will review practically reviewable data regarding past site usage.
- c) Historical Use Information: We will review as many standard historical sources as are necessary and reasonably ascertainable to develop a history of the previous uses of the subject site and surrounding area in order to help identify the likelihood of past uses having led to recognized environmental conditions in connection with the subject site. Standard historical sources include aerial photographs, fire insurance maps, topographical maps, and city directories.

2) Site Reconnaissance

- a) Present Use and Improvements: We will identify present use, improvements, and facilities on the site, if any.
- b) Topography: We will review the range of site elevations, overall site topography or slope, and significant physiographic features.
- c) Hydrology: We will make observations at the site regarding hydrology and review reasonably available published hydrologic data for the area.
- d) Site Inspection: We will physically inspect the subject site. We will make observations for reasonably ascertainable recognized environmental conditions.
- e) Chemicals and Raw Materials: We will identify reasonably ascertainable hazardous or potentially hazardous chemicals or raw materials used, generated, stored, released, transported, or disposed of in connection with the site.
- f) Polychlorinated Biphenyls (PCB's): We will make observations for the presence of potential PCB containing equipment and PCB contamination.
- g) Wells: We will attempt to visually identify any active or inactive wells on the site.

- h) Pits and Sumps: We will attempt to identify readily accessible pits and sumps located on the subject site.
 - i) On Site Storage Tanks: We will attempt to identify if above ground and underground storage tanks exist at the site.
 - j) Drinking Water, Wastewater Streams, and Utilities: We will attempt to identify drinking water sources. We will attempt to identify disposal methods for wastewater. We will attempt to identify all utilities available at the site.
 - k) Adjacent Property: We will perform a windshield survey of adjoining properties, their uses, and potential impact on the site.
 - l) Photographs: We will take representative photographs of the subject site and observed recognized environmental conditions.
 - m) Interviews: We will attempt to conduct interviews to determine possible recognized environmental conditions on the subject property.
- 3) Records Review
- a) Regulatory Listings: We will review reasonably ascertainable data bases for inclusion of the site and adjoining property, and surrounding property within the approximate minimum search distance stipulated in ASTM E-1527 for inclusion on the US EPA National Priorities List (NPL), the CERCLIS list, underground storage tanks (UST's), and leaking underground storage tanks (LUST's), within the approximate minimum search distances stipulated in ASTM E-1527.
 - b) Soils: Based on our experience in the area and review of USDA Soil Conservation Service maps, we will identify general subsurface soil conditions.
 - c) Geology: We will review available geologic maps and other practically reviewable geologic data.
 - d) Wetlands Records Review: We will review available wetlands inventory maps. We will not perform a wetlands delineation.
 - e) Landfills: We will review reasonably ascertainable databases for indications of past solid waste disposal at the site.

4) Other Review

We will attempt to identify any other matters which we believe to be relevant with regard to recognized environmental conditions including the potential for pesticide and herbicide usage.

B) Assessment Report

We will prepare an assessment report presenting the results of the above inquiry. The report will generally follow the format provided in ASTM E-1527-21.

COST INFORMATION

A breakdown of our costs is provided below.

TASK	FEE
Phase I Environmental Site Assessment	\$XXXX

SCHEDULE

After receiving notice-to-proceed (NTP), Geo-Hydro will begin work immediately. We will complete the field work for the Phase I Environmental Site Assessment within a few days of NTP and provide you with a verbal summary of our findings at that time. We expect to provide a final report within four weeks of NTP.

* * * * *

We are pleased to submit this proposal and look forward to the opportunity of working on this project. If this proposal is acceptable, we ask that you execute the attached agreement and return the signed original to us. If you have any questions concerning this proposal or any of our services, please call us.

Sincerely,

Resumes

Jarrett Baggett, P.G.

Principal, Environmental Practice Lead
Geo-Hydro Engineers, Inc.
20 Years Experience in Environmental Consulting and Land Development

678-773-1665
jbaggett@geohydro.com

Experience

Experience managing environmental operations including personnel, client interaction, and developing strategies to generate new business opportunities and service growth while ensuring compliance with all applicable policies and procedures. Environmental experience includes due diligence assessments and investigations, UST investigations and remediation, property redevelopment, brownfield sites, and other environmental involvement with private, municipal, and state properties.

Specialties

Environmental Due Diligence, Georgia Hazardous Building Materials Inspection, Brownfield Assessment, UST compliance, HSRA Compliance, Project Management, Quality Assurance/Quality Control

Certifications

- Professional Geologist – Alabama, Georgia, Mississippi, North Carolina, and Tennessee
- Asbestos In-Building Inspector Certification – Alabama, Georgia, and North Carolina
- Georgia Soil and Water Conservation Commission – Level 1A Certified

Education

B.S. in Geology – University of Tennessee

Representative Relevant Past Projects

Elon Brookwood Development

Austell, Georgia – 2021 to Present

Provided environmental consulting services including subsurface investigation, site characterization, environmental soil screening, and vapor intrusion mitigation system design and installation oversight for the Elon Brookwood Multi-family redevelopment consisting of 17 buildings with approximately 475,000-square feet of living space located in Austell, Georgia. Entered and carried the site through the Georgia Brownfields program and provided environmental oversight during the construction process verifying the sites compliance with Type 1 Risk Reduction Standards with the Georgia Brownfields Program.

Industrial Facility RCRA Compliance and Closure Activities

Cartersville, Georgia – 2019 to Present

Provided environmental consulting services including sampling and analysis of soil and groundwater. Conduct statistical analysis to calculate background ranges for RCRA metals in site soils. Provide consulting services to ensure compliance with site RCRA permit. Plan and conduct facility closure activities and prepare compliance reports for submittal to Georgia Environmental Protection Division (GEPD) to keep facility in compliance with RCRA permit.

Other Typical Project Experience

Education/Institutional

- Phase I/II Investigations, RHA, HBMI Surveys
 - K-12 Schools Metro Atlanta
- Phase I/II Investigations, GEPA, and HBMI Surveys
 - Georgia Tech, UGA, UWG, UNG, Dalton State

Commercial

- Phase I/II Investigations, Brownfields, VIMS Design and Install Oversight
 - Throughout Southeast

Industrial

- Environmental Site Investigations, Groundwater Monitoring, RCRA Compliance, and Background Studies
 - Throughout Southeast

Mixed-Use/Multifamily

- Phase I/II Investigations, Brownfields, VIMS Design and Install Oversight
 - Various Sites Metro Atlanta

Stephanie Hammond, LEED AP

Environmental Scientist

6 Years Experience – 6 Years With Geo-Hydro Engineers, Inc.

Experience	Experienced in performing Environmental Assessments, Building Asbestos Surveys, GEPA Evaluations, Risk Hazard Analysis, and Asbestos Abatement Air and Project Monitoring for commercial and school system development projects.	
Specialties	Phase I Environmental Site Assessments, Building Asbestos Surveys, Georgia Environmental Policy Act Assessments, Phase II Environmental Site Assessments, Georgia NPDES BMP inspections, and Asbestos Abatement Air Monitoring.	
Certifications	<ul style="list-style-type: none">● Hazardous Waste Operations 40-Hour (Hazwoper) Certification● ASTM Phase I Environmental Site Assessments for Commercial Real Estate Certification● Asbestos Inspector Certifications● LEED Accredited Professional● Asbestos in Buildings; Air Sampling and Analysis (NIOSH 582) Certified Analyst	
Education	B.S. in Environmental Health Science University of Georgia, 2000	
Representative Relevant Past Projects	<p><i>Georgia Environmental Policy Act (GEPA)</i> <i>State of Georgia</i> Prepares GEPA environmental evaluations for State of Georgia sites to assess potential adverse environmental impacts associated with planned construction, redevelopment, and real estate transfer properties. GEPA evaluations include site reconnaissance and reviews of environmental, historical, and cultural resource records.</p> <p><i>Georgia Department of Education</i> <i>State of Georgia</i> Performs Phase I Environmental Site Assessments and Risk Hazard Analyses for proposed Georgia elementary, middle, and high school sites. Based on the Georgia Department of Education “A Guide to School Site Selection” potential environmental and geographical hazards are analyzed to assist the local school system in making preliminary determinations concerning acceptability of school sites.</p>
