

## Chapter 18.46 Industrial Districts

<b>Section 18.46.010 Purpose.....</b>	<b>III-29</b>
<b>Section 18.46.020 Characteristics of Industrial Districts.....</b>	<b>III-29</b>
<b>Section 18.46.030 Allowed Land Uses and Permit Requirements.....</b>	<b>III-30</b>
<b>Section 18.46.040 Development Standards .....</b>	<b>III-33</b>
<b>Section 18.46.050 Performance Standards.....</b>	<b>III-35</b>

### Section 18.46.010 Purpose

The purpose of this chapter is to establish zoning districts in the city that support industrial uses to implement the city’s Light Industrial, Heavy Industrial, West Patterson Industrial Business Park District, and West Patterson Light Industrial District general plan land use categories. These districts provide sufficient and appropriately located land for industrial uses that minimize impacts on residential neighborhoods.

### Section 18.46.020 Characteristics of Industrial Districts

The following descriptions of each industrial zoning district identify the characteristic uses, intensity of uses, and level of development intended for that district.

- A) Light Industrial (LI) District. This district is consistent with the general plan Light Industrial land use designation by providing locations for the development of industrial uses such as fabrication, manufacturing, assembly, or processing of materials that for the most part are already in processed form and which do not in their maintenance, assembly, manufacture, or plant operation create smoke, gas, odor, dust, sound, or other objectionable influences which might be obnoxious to persons conducting business or residing in this or any other zone.
  
- B) Heavy Industrial (HI) District. This district is consistent with the Heavy Industrial general plan land use designation by providing appropriate locations for intensive industrial uses that may generate noise, vibration, odor, or other conditions that make them undesirable and incompatible near or in conjunction with residential uses. A wide range of industrial manufacturing and warehousing uses are permitted in this district. The HI district is generally located in areas of the city where it would not create a substantial impact on sensitive residential, commercial, or office uses. Where feasible, development in the HI district may require additional measure to reduce impacts to neighboring properties such as increased setbacks, landscaping, and screening.

## 18.46 Industrial Districts

III

- C) West Patterson Industrial Business Park (IBP) District. This district is consistent with the Light Industrial land use designation of the general plan. The IBP zoning district is applied to areas appropriate for light industrial and business park land uses, including low-intensity manufacturing and assembly processes, research and development, corporate headquarters, offices, medical and health facility uses, and other uses as specified in this chapter. The land uses allowed and development standards required within the IBP district are intended to protect adjacent areas from impacts while allowing indoor, clean, and quiet industry. Land uses in the IBP zoning district are often organized as a business park, with tenants that may include some commercial and office activities.
- D) West Patterson Light Industrial (IL) District. The IL zoning district is consistent with the Light Industrial land use designation of the general plan. The IL zoning district is applied to areas appropriate for light industrial and manufacturing, warehousing, offices, and assembly uses. Land uses allowed in the IL zoning district will not create objectionable noise, smoke, odor, dust, noxious gases, glare, heat, vibration, or industrial wastes.

### Section 18.46.030 Allowed Land Uses and Permit Requirements

Table 18.46.030-1 below identifies allowed uses and corresponding permit requirements for the industrial zoning districts subject to compliance with Chapter 18.34 (Land Use Classification) and all other provisions of this title. Descriptions/definitions of the land uses can be found in Article 11 (Definitions). The Specific Use Regulations column in the table identifies the specific chapter or section where additional regulations for that use type are located within this title.

Use regulations in the table are shown with representative symbol by use classification listing: "P" symbolizes uses allowed by right, "AR" symbolizes uses permitted through administrative review, "CUP" symbolizes uses that require approval of a conditional use permit, and "N" symbolizes uses that are not permitted.

**Table 18.46.030-1  
Permitted Use Matrix for Industrial Districts**

	Industrial Districts (See Section 18.46.020 for descriptions)				Specific Use Regulations
	LI	HI	IBP	IL	
<b>Agriculture, Resource, and Open Space Uses</b>

**Table Notes:**

1. Athletic fields may be permitted as part of detention/retention facilities or as accessory to a primary use (e.g., recreational opportunities for employees).
2. Two-dimensional art-works smaller than 10 square feet may be permitted through the Administrative Use Review process.
3. Including microwave facilities in conjunction therewith and wireless communication (cellular phone) facilities as further defined and permitted to a maximum height of 15 feet above the maximum height allowed in the zone, as provided in Chapter 18.84.
4. Subject to A.B.C. requirements, beer and wine are permitted for on-site consumption in conjunction with a restaurant use.
5. Auctions are not to include animals and shall be conducted with an enclosed building only.
6. Permitted when accessory to a hotel, motel, or restaurant.
7. Permitted without a use permit is ancillary to a fueling station.
8. So long as the use is conducted entirely within an enclosed building. Outdoor storage is prohibited.

## Section 18.46.040 Development Standards

The following development standards are applicable to the industrial zoning districts. These standards, along with other development standards (e.g., landscaping

# 18.46 Industrial Districts

requirements, parking standards) in this title and citywide design guidelines, are intended to assist property owners and project designers in understanding the city's minimum requirements and expectations for high quality development.

**Table 18.46.040-1  
Development Standards for Industrial Districts**

Industrial Districts (See Section 18.46.020 for descriptions)				
	LI	HI	IBP	IL
<b>Floor Area Ratio (maximum) <sup>1</sup></b>				
Floor area ratio	0.4	0.4	n/a	n/a
<b>Setbacks (minimum) <sup>2</sup></b>				
Front and exterior yard	10'	no min.	15'	15'
Side yard <sup>3</sup>	no min.	no min.	n/a	n/a
Rear yard <sup>3</sup>	no min.	no min.	n/a	n/a
<b>Lot Area (minimum SF) <sup>4</sup></b>				
Lot area	no min.	no min.	65,340 sf (1.5 acres)	87,120 sf (2 acres)
<b>Building Size (minimum SF)</b>				
Building size	no min.	no min.	15,000 sf	25,000 sf
<b>Lot Dimensions (minimum)</b>				
Width	no min.	no min.	75'	100'
Depth	no min.	no min.	75'	100'
<b>Height (maximum) <sup>5</sup></b>				
Building/structure	n/a	n/a	45' <sup>6</sup>	45'
Building/structure within 100' of the property line of property zoned for residential use	32'	32'	n/a	n/a
Building/structure more than 100' from the property line of property zoned for residential use	45'	50'	n/a	n/a
<b>Lot Coverage (maximum)</b>				
Buildings	n/a	n/a	50%	50%
Impervious surface	90%	90%	80%	80%
<b>Landscaping</b>	See regulations in Chapter 18.78			
<b>Lighting</b>	See regulations in Chapter 18.80			
<b>Fences, Walls and Screening</b>	See regulations in Chapter 18.70			
<b>Parking and Loading</b>	See regulations in Chapter 18.76			
<b>Signs</b>	See regulations in Chapter 18.82			
<b>Projections and Encroachments</b>	See regulations in Chapter 18.60			

*Table Notes:*

1. *Project may be eligible for a bonus as described in Chapter 18.88.*
2. *See additional regulations for setbacks and encroachments for accessory structures, fireplaces, architectural features, patios, decks, and fences in Chapter 18.60.*
3. *Minimum side yard setback is 5 feet when abutting alleys and 10 feet when abutting residential districts. Minimum rear yard setback is 10 feet when abutting alleys or residential districts. The minimum setback for parking, buildings, and other structures along Rogers Road, Baldwin Road, and Sperry Avenue shall be 20 feet measured from the property line or the adopted right-of-way plan line, whichever is greater.*
4. *For uses requiring a conditional use permit, the planning commission may establish alternative minimum lot sizes. Projects with a land area 5 acres or greater, or projects with construction square footage of 30,000 square feet or greater, shall be subject to applicable review process in Article II.*
5. *See Chapter 18.60 for permitted projections into setbacks and exceptions to height limitations. A height increase may also be granted to allow for exceptional architecture or for unique architectural features (e.g., clock tower, church steeple, etc.) through the minor adjustment process (Section 18.16.110).*
6. *Except as may be required by the airport land use plan for the Patterson Airport.*

## Section 18.46.050 Performance Standards

All land uses proposed in the IBP and IL zoning districts shall be operated and maintained so as to not be injurious to public health, safety or welfare, and shall comply with the following standards.

- A) **Air Emissions.** No approved land use shall generate or cause any visible dust, gasses, or smoke to be emitted into the atmosphere, except as necessary for the heating or cooling of structures, and the operation of motor vehicles on the site.
- B) **Glare and Heat.** No direct or sky-reflected glare or heat, whether from floodlights or from high temperature processes (including combustion or welding or otherwise) shall be visible or felt at the property line.
- C) **Ground Vibration.** No approved land use shall generate ground vibration perceptible without instruments at any point along or outside of the property line of the use, except for motor vehicle operations.
- D) **Odor.** No approved and use shall generate or emit any odor or fumes perceptible at the property line.
