Memorandum

Date: March 25, 2009

To: Consulting Engineers, Surveyors, and Architects

From: Tim Whittie, P.E. Chief, Development Services Division, Department of Public Works

RE: Storm Water Management Partial Bond Release

Effective April 1, 2009, the Development Services Division will begin implementing a partial bond release process for stormwater management ponds that are presently being utilized as sediment basins. The maximum reduction will be twenty percent (20%) of the value of the bond and will be contingent on the following conditions:

- Submittal of all inspection reports associated with the pond construction certified by a geotechnical engineer.
- Construction of the principal spillway being certified by a geotechnical engineer.
- Construction of the stormwater management pond embankment (if applicable) being certified by a geotechnical engineer.

Cc: Alfred C. Wein, Jr., County Administrator
W. Scott Flanigan, P.E., Director of Public Works
Van Funk, Erosion & Stormwater Program Manager
DPW Administrative Staff
