# Site Incentive Programs

## LERTA

The property is designated for Local Economic Revitalization Tax Assistance (LERTA). Under this program, real estate taxes are abated over a 10 year period. Taxes escalate 10% per year based on the assessed value over the term. The net effective abatement is a 50% savings over the taxes that would have been due over the 10 year period.

## FTZ

This property is eligible for Foreign Trade Zone designation (FTZ). This tariff and tax relief is program is designed to lower the costs of US-based businesses engaged in international trade and thereby create and retain the employment and capital investment opportunities that result from those operations.

## JCTC

The Job Creation Tax Credit Program is available to eligible businesses who, within three years from a negotiated start date, create 25 or more jobs or increase employment by 20%. Every new full-time job, up to a set maximum which meets certain minimum wage standards, will result in a \$1,000 tax credit that the business can use to pay a number of state business taxes.
