

220 E Coffee

2ND GENERATION CLASS A RESTAURANT

1444 SQ FT DOWNTOWN CBD RETAIL
GREENVILLE, SC
NOW AVAILABLE FOR LEASE
\$40 Sq Ft (NNN)

Presented by Joe Hindman

ABOUT THE PROPERTY

220 E Coffee Street, currently occupied by Swordfish Cocktail Club, presents an exceptional turn-key hospitality space in the heart of downtown Greenville's vibrant Main Street district. This street-level footprint benefits from high pedestrian visibility, direct sidewalk access, on-site & street parking, and immediate adjacency to the city's principal dining, retail and entertainment corridors, delivering consistent evening and weekend foot traffic that is ideal for bars, restaurants, boutique hospitality concepts or experiential retail.

The improved build-out features an intimate, well-appointed interior with a dedicated service bar, full kitchen with commercial hood, climate control, professional-grade plumbing and electrical systems sized for hospitality operations, and a curbside door for efficient vendor deliveries and waste management. The location is walkable to public parking garages, hotels and Main Street attractions, enhancing staff recruitment and guest accessibility.

Oven, Range, and Racking

**An itemized list will be available for serious inquiries. Leased equipment not for sale.*

ROOFTOP EXPANSION CONCEPT

The landlord commissioned Narramore & Associates, licensed architects, to develop a conceptual rooftop bar program as a turnkey expansion option for the incoming tenant. Included are floor plans and elevation renderings that illustrate a thoughtfully engineered rooftop layout, circulation, service access, and street-facing activation designed to maximize skyline views and evening revenue. The concept integrates code-conscious design, new walk-in refrigeration, mechanical and egress considerations, and flexible seating configurations to support intimate food service or higher-capacity events, accelerating permitting and build-out timelines for an operator seeking to elevate guest experience and capture additional night-time demand.
