Re: Plan Review – Site and Stormwater review only
“Commercial Flexspace Outparcel at Lowes” at 11697 Panama City Beach Pkwy

Dear Mr. Crook,

The City Public Works Department has reviewed and approved the site and stormwater for the above captioned project. All construction must be in accordance with these drawings. We have attached the stormwater and NPDES as-built certifications to be completed and returned to our office upon completion of construction.

Projects within Panama City Beach city limits are subject to a separate review and approval from the City’s Utilities Department. The engineer of record is responsible for obtaining any other necessary approvals.

If you have any questions, feel free to call.

Thank you,

Lillian Mulligan, E.I.
Public Works Engineer
