

LAKE WEST BUILDING

OUR STORY

Lake West Professional Building is recognized as one of the most preferred business settings in the Twin Cities west metro with a mix of financial services, medical arts, and service retail. It is rich in amenities and environmentally friendly. The onsite innovation of installing a solar panel field to the roof at Lake West Building includes 350 solar panels and enables an impressive 246,704 pounds of carbon dioxide to be offset each year with 145 acres of forest preserved.
