

We're helping to make
**Berks County one of the safest
counties in the United States.**

Spartan Properties, LLC, a real estate property investment and management company specializing in developing, acquiring, and managing the highest quality corporate, professional, and medical complexes throughout Berks and its surrounding counties supports HeartSAFE Berks County.

That's why we've purchased Automatic External Defibrillators (AEDs*) for three of the properties we manage. Since the inception of the HeartSAFE Berks County initiative in 2010, the survivability of sudden cardiac arrest victims living and working in Berks County has dramatically improved.

The Marlin Miller, Jr., Regional Heart Center – in partnership with The Friends of The Reading Hospital – encourage citizens to get involved and know the Chain of Survival for a victim of sudden cardiac arrest.

- Call 9-1-1
- Start CPR immediately
- Use an AED – even before help arrives
- Access advanced emergency medical care

*An Automatic External Defibrillator, or AED, is a portable lifesaving device that delivers an electric shock to restore normal heart rhythm in a person who has suffered sudden cardiac arrest.
