Case No.

Dear Sirs;

In accordance with your request, I have personally inspected and prepared an appraisal report of the real property located at:

83904 Avenue 52, Coachella, CA 92236-9683

The purpose of this appraisal is to estimate the market value of the property described in the body of this appraisal report.

Enclosed, please find the appraisal report which describes certain data gathered during our investigation of the property. The methods of approach and reasoning in the valuation of the various physical and economic factors of the subject property are contained in this report.

An inspection of the property and a study of pertinent factors, including valuation trends and an analysis of neighborhood data, led the appraiser to the conclusion that the market value, as of 05/13/2024 is:

\$ 2,565,000

The opinion of value expressed in this report is contingent upon the limiting conditions attached to this report.

It has been a pleasure to assist you. If I may be of further service to you in the future, please let me know.

Millean

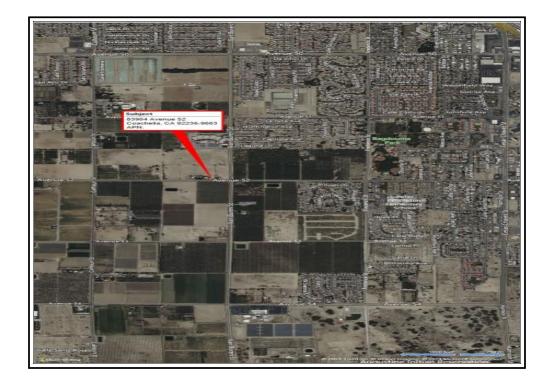

Respectfully submitted,

RESTRICTED APPRAISAL REPORT

Definition of Market Value Ordinary Assumptions and Limiting Conditions Certification

DEFINITION OF MARKET VALUE:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

ORDINARY ASSUMPTIONS AND LIMITING CONDITIONS:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
- 2. If the appraiser has provided a sketch in the appraisal report, the sketch shows approximate dimensions and is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
- 3. If the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report that the subject site is (or is not) located in an identified Special Flood Hazard Area, as the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless required to do so by a court.
- 5. The appraiser has noted in the appraisal report any significant adverse conditions (such as needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- 7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. I have agreed to enter into this assignment as requested by the client named in the report for the use specified by the client which is stated in the report, which calls for things that are different from the work that would otherwise be required by the specific guidelines of the USPAP. The client has agreed that the performance of this limited appraisal service is appropriate for their intended use.

- 3. I have no (or the specified) present or prospective interest in this property that is the subject of this report, and I have no (or the specified) personal interest or bias with respect to the parties involved.
- 4. My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurance of a subsequent event.
- 5. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Practice
- 6. I have (or have not) as indicated on the report made a personal inspection of the property that is the subject of this report. If more than one person has signed the report, each person has indicated on the report whether they did or did not make an inspection of the appraisal property.
