City of Port St Lucie, Florida

In 1961, Port Saint Lucie was incorporated as a city. Today, consisting of 120 square miles with a population of more than 230,000, the City of Port St. Lucie is the 7th largest City in Florida, the 3rd largest City in South Florida, and the 112th largest City in the United States. The city is led by a five-member elected Council, which sets policy and determines the long-term vision for the city. This system is called a Council-Manager form of local government. Each Council member has one vote, including the Mayor, so legislative authority is equally spread among all five members.

Development within the City has been primarily west of I-95 within the Tradition Development; however, there is much infill development occurring in the General Development platted areas of the city. At its inception, Port St. Lucie was platted by General Development company as 15,000 acres of 80x120 single family lots. The development pattern has largely held true to this plat, with utilities, public works and roads being expanded over the decades to accommodate the growth of the city. As a pro-growth municipality, Port St. Lucie is generally viewed as a favorable environment to do business.
