CBRE

AFFILIATED BUSINESS DISCLOSURE AND CONFIDENTIALITY AGREEMENT

Affiliated Business Disclosure

CBRE, Inc. operates within a global family of companies with many subsidiaries and related entities (each an "Affiliate") engaging in a broad range of commercial real estate businesses including, but not limited to, brokerage services, property and facilities management, valuation, investment fund management and development. At times different Affiliates, including CBRE Global Investors, Inc. or Trammell Crow Company, may have or represent clients who have competing interests in the same transaction. For example, Affiliates or their clients may have or express an interest in the property described in this Memorandum (the "Property"), and may be the successful bidder for the Property. Your receipt of this Memorandum constitutes your acknowledgment of that possibility and your agreement that neither CBRE, Inc. nor any Affiliate has an obligation to disclose to you such Affiliates' interest or involvement in the sale or purchase of the Property. In all instances, however, CBRE, Inc. and its Affiliates will act in the best interest of their respective client(s), at arms' length, not in concert, or in a manner detrimental to any third party. CBRE, Inc. and its Affiliates will conduct their respective businesses in a manner consistent with the law and all fiduciary duties owed to their respective client(s).

Confidentiality Agreement

Your receipt of this Memorandum constitutes your acknowledgment that (i) it is a confidential Memorandum solely for your limited use and benefit in determining whether you desire to express further interest in the acquisition of the Property, (ii) you will hold it in the strictest confidence, (iii) you will not disclose it or its contents to any third party without the prior written authorization of the owner of the Property ("Owner") or CBRE, Inc., and (iv) you will not use any part of this Memorandum in any manner detrimental to the Owner or CBRE, Inc.

If after reviewing this Memorandum, you have no further interest in purchasing the Property, kindly return it to CBRE, Inc.

Disclaimer

This Memorandum contains select information pertaining to the Property and the Owner, and does not purport to be all-inclusive or contain all or part of the information which prospective investors may require to evaluate a purchase of the Property. The information contained in this Memorandum has been obtained from sources believed to be reliable, but has not been verified for accuracy, completeness, or fitness for any particular purpose. All information is presented "as is" without representation or warranty of any kind. Such information includes estimates based on forward-looking assumptions relating to the general economy, market conditions, competition and other factors which are subject to uncertainty and may not represent the current or future performance of the Property. All references to acreages, square footages, and other

measurements are approximations. This Memorandum describes certain documents, including leases and other materials, in summary form. These summaries may not be complete nor accurate descriptions of the full agreements referenced. Additional information and an opportunity to inspect the Property may be made available to qualified prospective purchasers. You are advised to independently verify the accuracy and completeness of all summaries and information contained herein, to consult with independent legal and financial advisors, and carefully investigate the economics of this transaction and Property's suitability for your needs.

ANY RELIANCE ON THE CONTENT OF THIS MEMORANDUM IS SOLELY AT YOUR OWN RISK.

The Owner expressly reserves the right, at its sole discretion, to reject any or all expressions of interest or offers to purchase the Property, and/or to terminate discussions at any time with or without notice to you. All offers, counteroffers, and negotiations shall be non-binding and neither CBRE, Inc. nor the Owner shall have any legal commitment or obligation except as set forth in a fully executed, definitive purchase and sale agreement delivered by the Owner.

CBRE and the CBRE logo are service marks of CBRE, Inc. All other marks displayed on this document are the property of their respective owners, and the use of such logos does not imply any affiliation with or endorsement of CBRE.

Executive Summary

160KW SOLAR ROOFTOP

12' X 12' DRIVE UP LOADING DOOR

COOLING CENTRAL PLANT
1,650 TONS OF HVAC

FOUR 9' X 8' DOORS
POTENTIAL FOR EXPANSION

250 KW BATTERY ENERGY STORAGE SYSTEM

1,200 KW GENERATOR

CBRE, as exclusive advisor, is pleased to present the opportunity to lease 1050 Talbot Avenue, Braddock, PA 15104 ("the Property"), a 58,045 SF Cold Storage & Food Production Facility. The Property was built in 2019/2020 for a robotic vertical farming company at a total cost of over \$30M. 1050 Talbot Avenue is now available for immediate occupancy and has numerous improvements over a normal cold storage building such as: excess power & HVAC capacity, the ability to have multiple internal rooms at different temperatures, a solar/batter/generator microgrid system, a SQF score of 99, MERV 13 air filtration, automatic cleaning floor drains, and more. A new owner has the ability to keep the asset as a state of the art Vertical Farming Facility, or convert the building to Cold Storage or a Food Production Facility at a price significantly below new construction.

Investment Highlights:

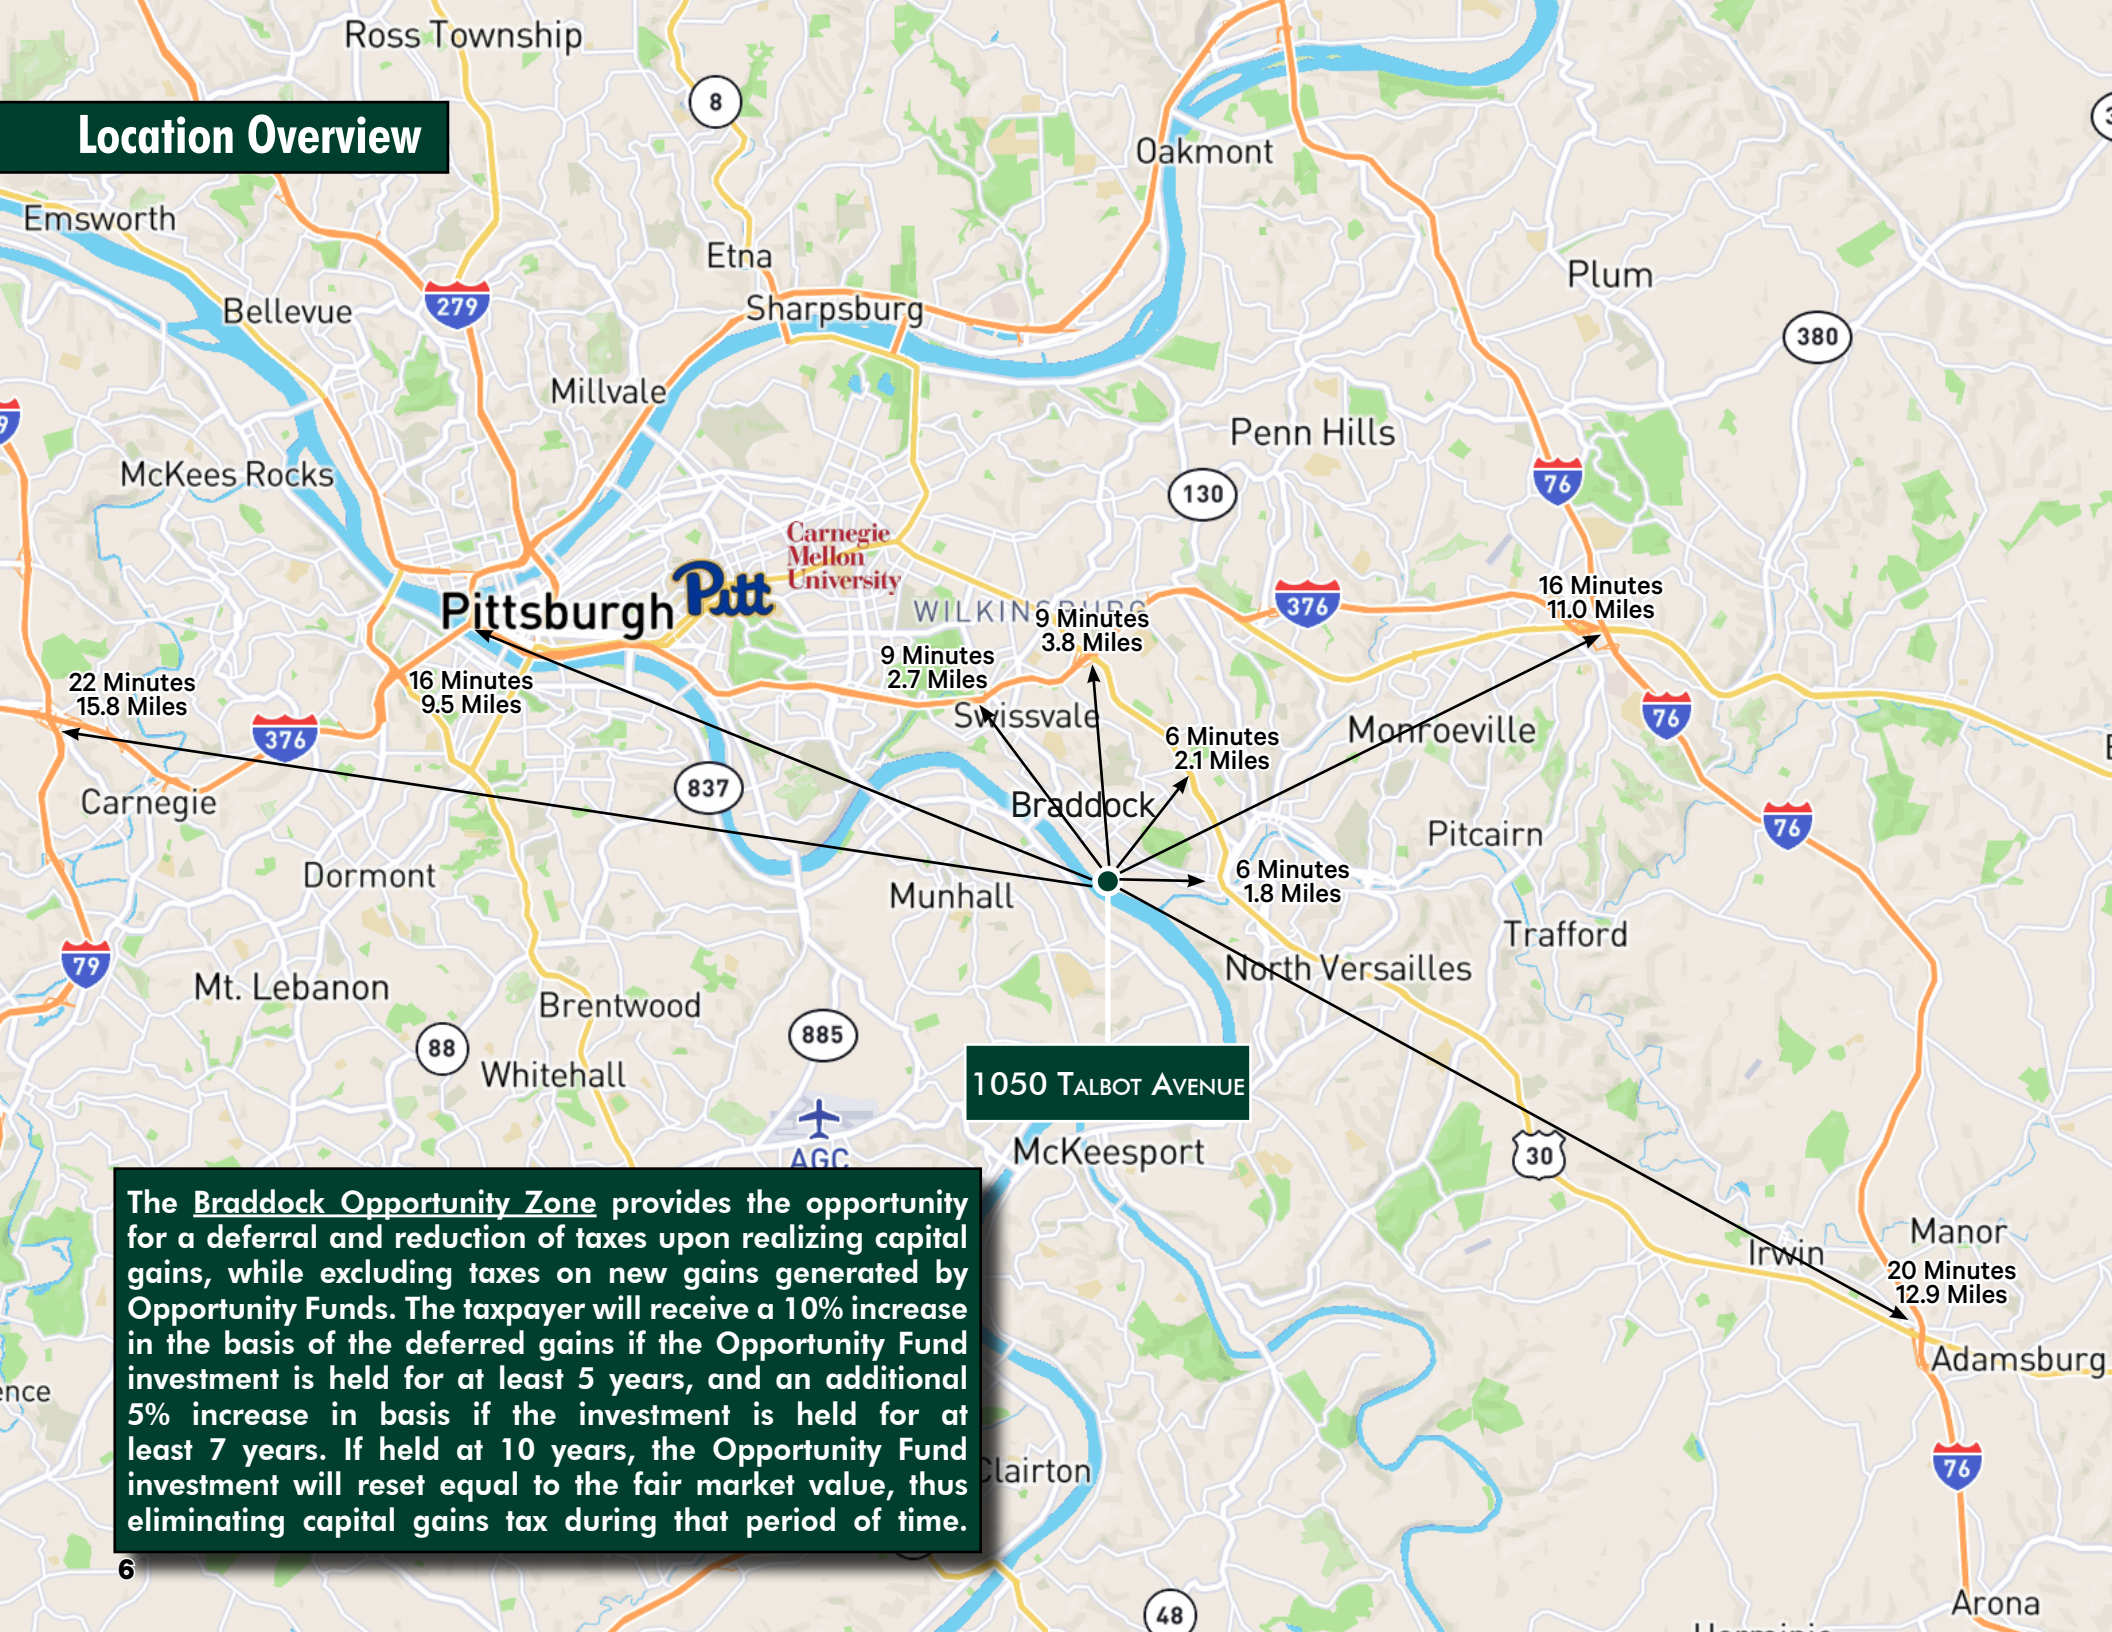

- 5000 AMP 277/480 3-Phase and 2000 AMP 208/120 Volt 3-Phase Power
- 1,650 Tons of HVAC (Approx 160% of what is needed for Full Building Cold Storage)
- 4" Internal Reconfigurable IMP Walls (Multiple Rooms at Different Temperatures)
- Grey Water Filtration System
- SCALE Microgrid On-Site Energy System
 - 160 kW Solar Rooftop
 - 1,200 kW Controllable GenSet Generator
 - 250 kW Battery Energy Storage System
- SQF (Safe Quality Food) Program Score: 99 out of 100
 - Full Building MERV 13 Air Filtration System
 - 12" Wide Zip Trench Floor Drains with Automatic Cleaning
 - Sealed Perimeter with Rodent Maintained Plan In-Place
- Four - 9' x 8' loading dock doors with levelers, seals, and lights (Expandable)
- One - 12' x 12' Overhead Drive Up Dock Door
- 7" Thick Reinforced Concrete Slab Epoxy Floor Coating
- 4K High Bay LED Lighting
- 3,000 SF Modern Furnished Office Space
- Employee Clean Room, Break Area, and Locker Room
- Additional 2.4 Acre Adjacent Parcel Available for Expansion
- Located in an Opportunity Zone
- Turn Key Food Production and Cold Storage Infrastructure Available at a Fraction of Replacement Cost

INVESTMENT SUMMARY

SIZE	58,045 SF
LEASE RATE	Starting at \$12.00/SF NNN

Location Overview

1050 TALBOT AVENUE

The Braddock Opportunity Zone provides the opportunity for a deferral and reduction of taxes upon realizing capital gains, while excluding taxes on new gains generated by Opportunity Funds. The taxpayer will receive a 10% increase in the basis of the deferred gains if the Opportunity Fund investment is held for at least 5 years, and an additional 5% increase in basis if the investment is held for at least 7 years. If held at 10 years, the Opportunity Fund investment will reset equal to the fair market value, thus eliminating capital gains tax during that period of time.

302-J-370
2.5 ACRES

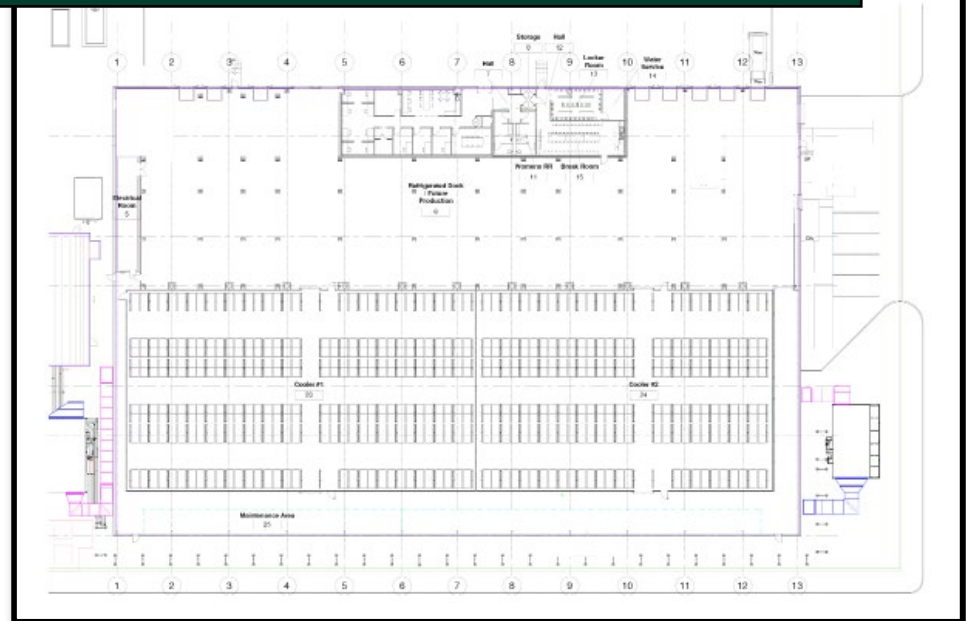

302-J-365
2.4 ACRES

The neighboring 2.4 acre parcel is available for a second building or expansion of the original building to take advantage of the excess power and HVAC at the asset. The second parcel could also be used for truck parking or an expansion of distribution capacity for the Property.

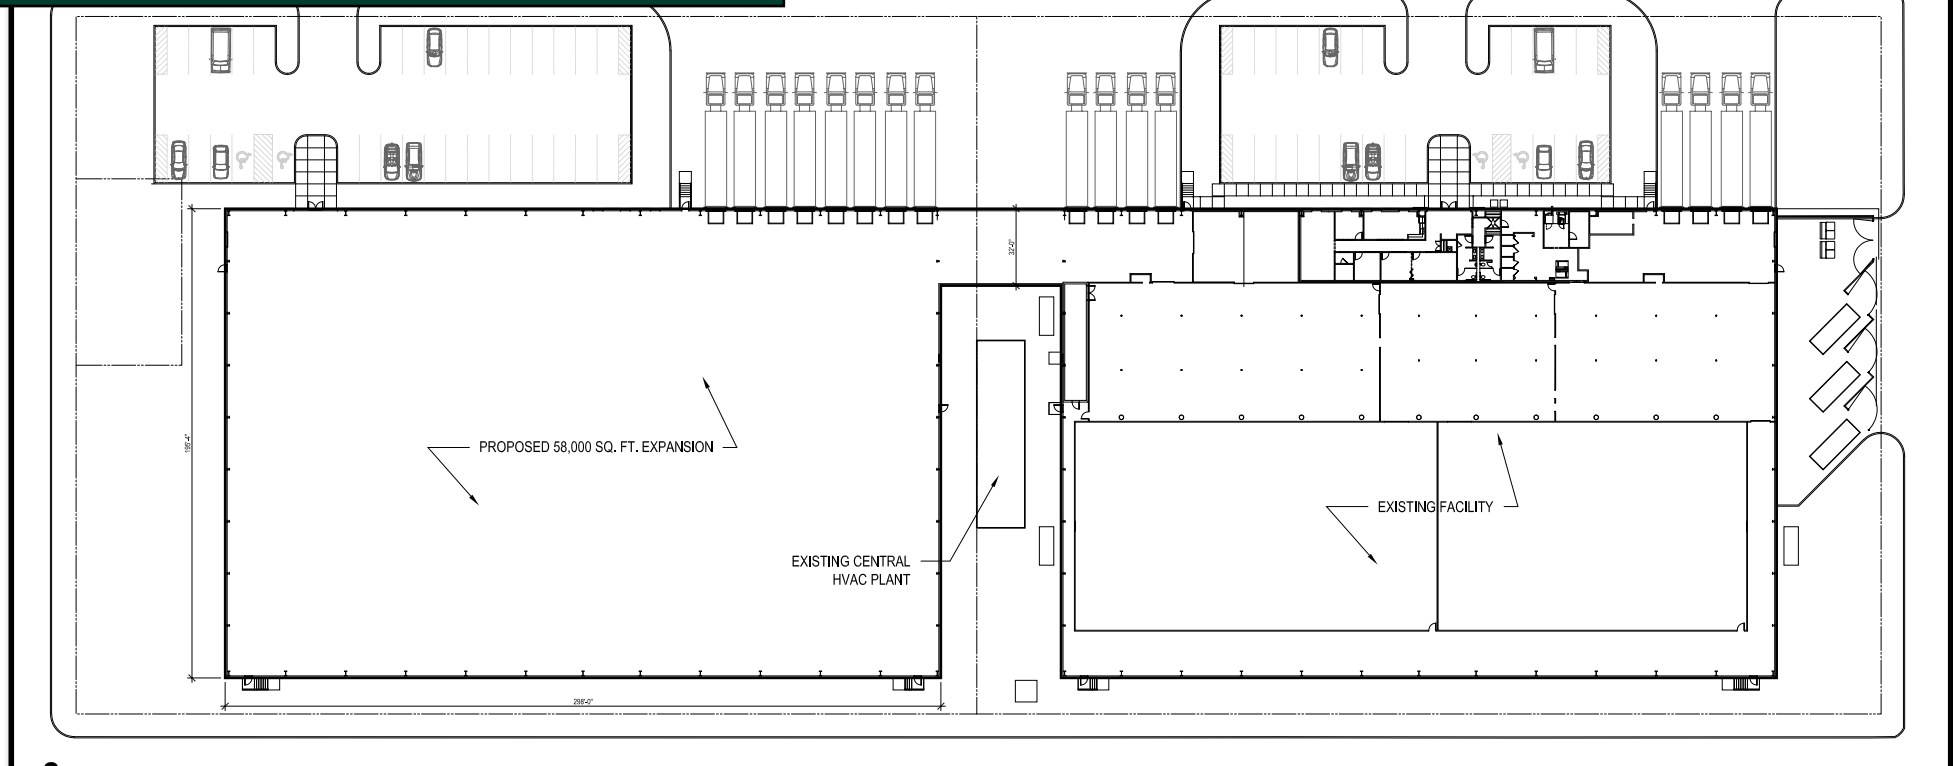

Food Production Facility Layout

Refrigerated Distribution Warehouse Layout

Potential Expansion on Neighboring Lot

Cold Storage: A Growing Industry with Limited Supply

- Cold Storage vacancies have fallen to all-time lows and rental rates have risen rapidly.
- There has been a lack of construction of cold storage space due to high construction costs (\$250/SF - \$400/SF).
- 78% of all cold storage facilities are outdated with the average age being over 50 years old.
- Online grocery shopping is still in its infancy compared to other retail categories.
- As consumers continue to increase their online purchases of cold grocery items, more local cold storage distribution centers will be needed.
- CoStar placed estimates for additional cold storage space needs nationally of at least 200 million square feet over the next 10 years.
- The lack of modern supply and the high construction costs will lead to significant rental increases.

There are two distinct categories of refrigerated warehouses:

1

Food Production Facilities

Production facilities are usually located at the point of food origination, such as farms for produce, fishing ports for seafood, and cattle ranches for meat. These facilities provide processing or freezing and handling services for commodity agricultural products. In the case of consumer packaged/processed foods, ingredients come from all across the country and are located at the middle of the supply chain.

2

Distribution Warehouses

Distribution warehouses often are in large urban areas and typically serve retail (grocery) or institutional food customers in a major metro market or region. They focus on providing storage, product handling, distribution management and other services primarily for refrigerated or frozen packaged goods. Public refrigerated warehouses provide longer-term storage to meet seasonal demands and provide inventory management and value-add services for frozen food storage.

1050 Talbot Avenue can be converted into either type

79% of the refrigerated storage capacity in the U.S. is outsourced by food producers, distributors, retailers, e-tailers and other participants.

Due to rising costs and increased sophistication of technology used to move food through the supply chain, outsourcing has become common. According to the USDA's National Agricultural Statistics Service, 79% of the refrigerated storage capacity in the U.S. is outsourced by food producers, distributors, retailers, e-tailers, and other participants. The remaining 21% includes in-house cold chain participants who own and manage their own warehouses.

SIZE	58,045 SF

- FULL BUILDING MERV 13 AIR FILTRATION SYSTEM
- 12" WIDE ZIP TRENCH FLOOR DRAINS WITH AUTOMATIC CLEANING
- SEALED PERIMETER WITH RODENT MAINTAINED PLAN IN-PLACE

LOADING DOCKS

- 9' X 8' LOADING DOCK DOORS WITH LEVELERS, SEALS AND LIGHTS (EXPANDIBLE)
- 12' X 12' OVERHEAD DRIVE UP DOCK DOOR

SCALE Microgrid On-Site Energy System

A microgrid is an on-site energy system consisting of a group of distributed energy resources like solar, batteries, and controllable generators.

During a normal day, the facility receives energy from a combination of the utility and the on-site distributed energy resources. The microgrid smart controls know when the utility costs are highest or if there is an outage, proactively selecting the optimal energy source. This system offers excellent data visibility well beyond what most people have access to allowing for granular real-time energy usage/analysis.

In addition to reducing the facility's GHG emissions footprint by the equivalent of 39 passenger vehicles driven in a year, the system operates in various ancillary services to the electric grid to help save them money, and will enable mission critical operations to continue during utility outages.

Pre-leasing of New Construction Brings Another Quarter of Positive Net Absorption

▼ 4.4%
Vacancy Rate

▲ 1.4M
SF Net Absorption

▼ 1.1M
SF Construction

▲ \$9.18
Avg. Asking Rate

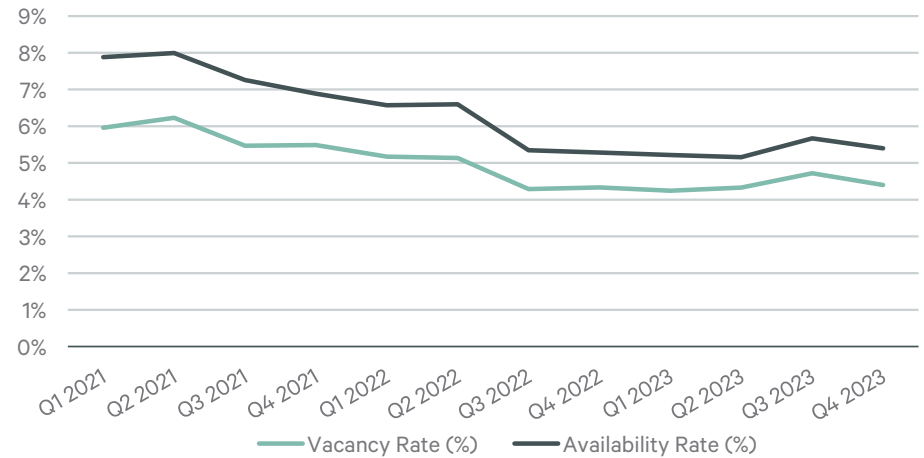

Note: Arrows indicate change from previous quarter.

MARKET SUMMARY

- The Pittsburgh industrial market posted 1,434,902 sq. ft of positive absorption market wide due to large tenants occupying recently delivered new product.
- Vacancy recorded a slight decrease of 30 basis points quarter-over-quarter to 4.4 percent as tenants pre-leased new construction.
- 1.5 million sq. ft. of construction delivered in the fourth quarter of 2023 with 1.1 million sq. ft. still underway. 814,067 sq. ft. of the current construction is on a speculative basis.
- Average asking rental rates increased to \$9.18, an 18 percent year-over-year increase. R&D/Flex asking rates climbed to \$16.95, up from \$16.60 in the third quarter.

The Pittsburgh industrial market remained active through the fourth quarter of 2023. A large pipeline of construction continued as a few significant projects delivered in the fourth quarter. New tenants absorbed the space as other large blocks of new construction remained vacant and available.

FIGURE 1: Historical Vacancy & Availability

Source: CBRE Research, Q4 2023

Market Activity

Leasing activity increased in the fourth quarter to 470,631 sq. ft., bringing year-to-date leasing activity to more than 2.1 million sq. ft. across all four quarters. Over 73 percent of deals completed this quarter were new leases. Overall demand is expected to pick up in coming quarters as larger occupiers are in the market for new space.

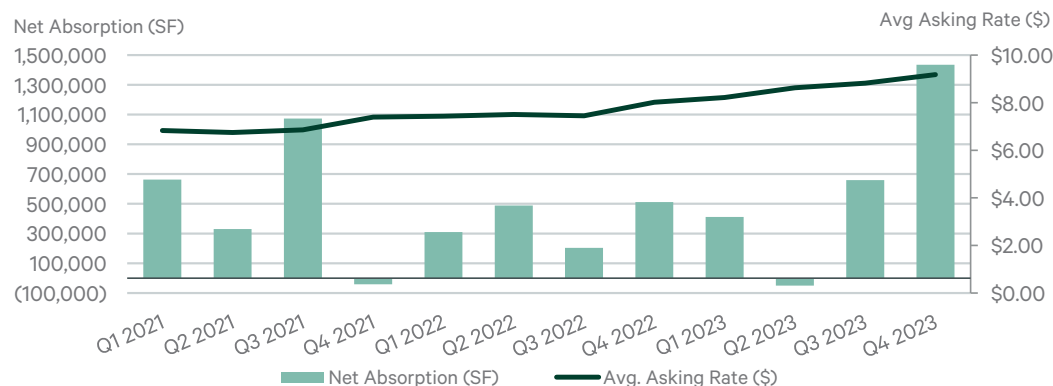

Market wide vacancy decreased 30 basis points year-over-year to 4.4 percent, mainly due to tenants occupying pre-leased space in newly completed construction. Availability also declined to 5.4 percent, down 30 basis points quarter-over-quarter. Asking rates continued to rise as new Class A inventory was added to the market. Market wide asking rates increased this quarter to \$9.18.

The Westmoreland County submarket was the most active submarket through the fourth quarter of the year. Absorption in the submarket netted positive 1.3 million sq. ft. and asking rates reached \$6.18. Westmoreland County currently has one project underway that will deliver 150,032 sq. ft. in coming quarters.

The largest lease of the quarter was Rexel USA renewing their 66,900 sq. ft. space at 450 Butler St in the Northwest submarket. Staples Contracting & Commercial also renewed for 30,000 sq. ft. at 4777 Streets Run Rd. in the South submarket.

Demand for industrial space in The City of Pittsburgh resulted in overall positive market fundamentals this quarter. Net absorption reached positive 17,672 sq. ft., with tenants such as United Garage Door Company occupying space there. Vacancy dropped 90 basis points this quarter to 3.7 percent, while asking rates increased to \$9.58 in this submarket.

New Lease	144 Ferry St	American Carpet South	13,403	Northwest

Source: CBRE Research, Q4 2023

Development & Employment Update

Development

The industrial construction pipeline currently has 1.1 million sq. ft. underway across nine projects. 814,067 sq. ft. of construction consists of speculative projects, while the remaining 310,000 sq. ft. will be build-to-suit. Speculative developments await to see how new product performs before moving forward with construction plans.

Nearly 765,000 sq. ft. of the current projects fall in the West submarket while 150,032 sq. ft. fall in the Westmoreland County submarket. The most notable property currently underway is RockPoint Industrial Building A, which will add 283,815 sq. ft. of product to the market.

FIGURE 4: Historical Construction by Type

Source: CBRE Research, Q4 2023

FIGURE 5: Historical Employment & Labor Force

Source: CBRE Research, Q4 2023

1.5 million sq. ft. of industrial projects delivered in the fourth quarter of the year. The largest completion was Amazon's 1 million sq. ft. build-to-suit at the New Stanton Technology Park. Reinhardt Cold Storage also expanded 155,000 sq. ft. at their current location at 226 E. View Dr. in Mount Pleasant, PA. The Westmoreland I-70 Industrial Park also completed this quarter and was occupied by Wyatt Inc. 3051 Gulf Rd, Tull Complex, Alpine Point and Building 3 at 18 McClaren Rd were also finalized, for a combined 195,500 sq. ft. of space. Two construction projects are expected to complete in the first quarter of 2024, adding more Class A product to the market.

Employment

The Pittsburgh workforce remains resilient as companies continue to encourage employees to return to the office in the new year. The Pittsburgh unemployment rate stands at 3.2 percent in October 2023, an 80 basis point decline year-over-year. Pittsburgh unemployment lands below the national average of 3.7 percent.

The total labor force in the Pittsburgh market settles just over 1.2 million, holding steady across 2023. Total industrial using jobs were up to 350.1 thousand in the month of October. The strongest performing sectors include manufacturing, which is up 7.2 percent year-over-year.

Braddock, Pennsylvania

Braddock, Pennsylvania, approximately nine miles east from downtown Pittsburgh, is a growing and developing community and that is undergoing major changes. Originally known as a resilient, hard-working industrial town, Braddock is in the midst of an economic revitalization to attract new residents and businesses to the community.

The Ohringer Arts Building, which opened in 2021, is an adaptive reuse project that provides 37 units of affordable rental housing targeted to artists. Beyond housing, the project provides a gallery space where residents can promote their creative works to other artists and community members. The building's common spaces encourage residents and community members to learn about different artistic disciplines and exchange ideas. Spaces reserved for residents include a multipurpose basement with eight studios especially suited to visual artists, as well as two rehearsal rooms. On the first floor, a community room for residents extends outdoors to a private patio space. A rooftop deck offers residents a panoramic view of the Monongahela River Valley and can be used for social gatherings.

The Brew Gentlemen Beer Company (www.brewgentlemen.com), which opened in 2014 through the work of two Carnegie Mellon University students, is recognized as a leading brewery both locally and nationally. The 28,000 SF brewery has recently undergone changes in 2021. The revamped facility features a retail space for packaged beer and Brew Gentlemen merchandise. The bar area has been redesigned as a tasting room with new tables and seating. Patrons will be able to take self-guided tours of the original 3.5-barrel brewhouse. Guided walk-through tours are expected to launch later this year. Production includes hop forward beers and classic lager and porter styles. The brewery opened an outdoor space that purposes as a beer garden on weekend nights, and an open community space during the week.

Brassero Grill, which opened in 2017 after operating as a food truck, offers fresh, healthy Mexican cuisine and is just a few doors down from Brew Gentlemen brewery. In 2016, an Italian restaurant deemed Portogallo Peppers 'n At moved into their Braddock location. The restaurant specializes in Homemade Italian Beef, Meatball and Sausage Sandwiches and has 22 Beers on tap including Nitro, Domestic, Imports and Locally Brewed. Portogallo Peppers n' At also includes bocce courts and an outdoor patio area for live music.

Minutes from 1050 Talbot Avenue is Grow Pittsburgh's Braddock Farms location, a community garden focused on providing access to fresh produce and serving as an educational hub. Since 2007, Braddock Farms has expanded to three hoop houses, a greenhouse, an office, a walk-in cooler, and a roadside farm stand. The staff and programming have grown too, and now offer fresh produce for sale in Braddock three days a week, while serving nearby community markets in Homewood, North Point Breeze, and Wilkinsburg. The main crops grown are salad mix, lettuce, beefsteak tomatoes, bell peppers, cucumbers, zucchini, greens, beets, carrots, fresh onions, eggplant, and okra. In-season crops include spinach, broccoli, cabbage, fruit, hot peppers, radishes, turnips, and herbs. The program puts on annual community events including Zucchini Festival and Fall Festival.

The Edgar Thomson Steel Works (U.S. Steel), one of the oldest steel plants in the country, remains as an economic driver for the region. The Edgar Thomson Steel Works has been active since 1875 and was Andrew Carnegie's first steel mill and was the first large Bessemer steel plant in the area. Today, U.S. Steel continues to operate the works, which is the lone plant in Pennsylvania engaged in only basic steelmaking. Carnegie's Steel Company sold the plant to U.S. Steel in 1901.

Ohringer Arts Building, which opened in 2021, is an adaptive reuse project in the heart of Braddock and provides 37 units of affordable rental housing targeted to aspiring artists in the community.

The Brew Gentlemen Beer Company offers an endless selection of its own beers, lagers and porters, from American to European styles.
