

NTsuites Expands Office/Salon Suite Concepts to Fort Worth/Alliance

NTsuites - Alliance is NTsuites (North Texas Office & Salon Suites) third office/salon suite development in the North Texas area. It will ultimately feature over 30,000 square feet and over 120 office/salon suites. Opening soon.

North Texas Salon & Office Suites will be opening in June 2024 for a mixed-use facility that, when complete, will add 30,000 square feet of office and salon space near the Alliance Town Center. Conveniently positioned just off the Heritage Trace Parkway exit on Interstate 35, on its western side, NTsuites is easily accessible from North Tarrant County. Prices begin at \$520/month (all-inclusive), and pre-leasing has already begun.

“The facility will ultimately feature over 120 individual/private/safe office and salon suites providing small business owners with a cost-effective solution to set up shop in one of Tarrant County's fastest-growing regions,” states Sandeep Sandhu, Director of Marketing. He believes that “the open layout and the common lounge/waiting area will foster a professional and relaxing environment and stimulate tenant interaction.”

“NTsuites began about 7 years ago as a commercial real estate company and eventually transitioned to the Executive Suite/Salon Suite industry. Our company started in Southlake to meet the growing needs of the small business community. At NTsuites, we hope to breed opportunities for small-scale storefronts, without the hassle of large upfront costs and long-term commitments. It is our goal to offer an affordable solution for aspiring tenants,” says Sandhu.

The Fort Worth location is the third development by NTsuites since the local family-owned company set up its first development in Southlake. The company hopes to attract a diversified clientele in Tarrant County, as many of its tenants at the Southlake and North Richland Hills locations include a mix of salon suite owners, healthcare workers, educators, lawyers, start-up tech companies, brokers, architects, and real estate businesses. With its focus on accommodating local entrepreneurs, salons, and the artistic designs of their developments, the company strives to create a sense of comfort and synergy among its clients.

“Customer service is always our priority. We give each tenant the individualized attention they deserve. Here at NTsuites, we are a family, and it really shows,” Sandhu concludes.
