

THE REFINERY AT DOMINO

Domino
SUGAR

Welcome to The Refinery at Domino

An icon in the center of New York's most creative neighborhood.

The Refinery presents the opportunity to claim an iconic piece of the city's skyline in one of its most desirable neighborhoods. Located in the heart of Domino Park in Williamsburg, Brooklyn, this 19th century landmark has been transformed into a modern architectural masterpiece with 405,000 square feet of office space, a triple height atrium attended lobby with digital access control, exceptional amenities, and acclaimed ground floor retailers.

Construction of The Refinery was recently completed.

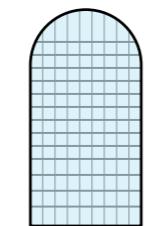

Once completed, the Domino campus will feature 3,000 apartments, 600,000 RSF of office space, best in class retail and 6 acres of open space and parks.

A Modern Office Building Within a Landmark

New

A brand new state-of-the-art glass and steel office building with floor-to-ceiling interior windows is set back 15 feet from the historic brick façade to maximize light, views and air. This innovative design yields wide open floor plates surrounded by natural light on all exposures.

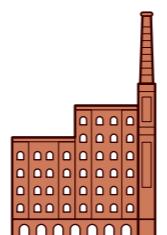

Green

A living landscape that includes cascading vines, trees and natural plantings creates a green ecosystem between the glass curtain wall and the brick masonry walls. This infusion of the natural environment enhances views and supports the health and well-being of building occupants.

Iconic

The original 19th century brick factory façade is one of Brooklyn's most recognizable landmarks and has been meticulously restored. The building represents a once-in-a-lifetime opportunity for a company to become a visible part of the New York City skyline.

The Refinery

The Office Offering

Set within the building's historic brick facade is a newly constructed 15-story glass and steel building designed by PAU Architects that provides efficient, virtually column-free floor plates with abundant natural light, operable windows, and spectacular views of the New York City skyline.

This unique design allows for all the benefits of Class-A new construction with the character of a renowned and distinctive building. High end pre-builts and custom offerings available from 2,000-150,000 RSF.

The Refinery's location, amidst a prominent population of creative thinkers, will attract and retain the best talent while its position on the Domino Park waterfront will amplify the significance, recognition, and identity of any company located here.

The Offices

Located in prime Williamsburg and the centerpiece of Domino Park, The Refinery combines the charm of a historic building with all the advantages of new construction.

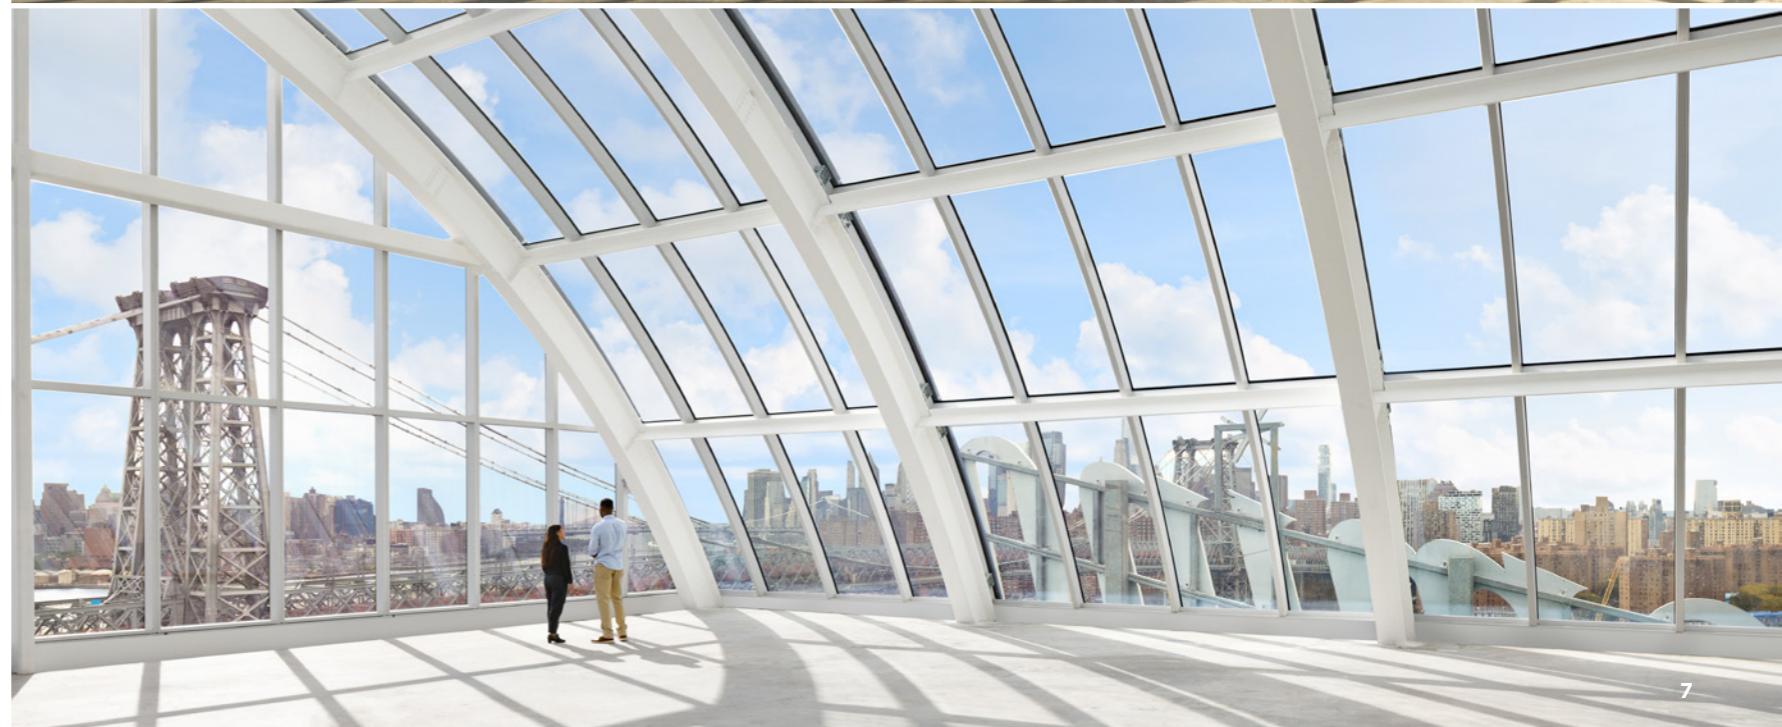

- Expansive floorplates are virtually column-free.
- Ceiling height ranges from 12'6" to 14'6"; 30' clear at the penthouse.
- Ability to connect adjacent floors with dedicated interior circulation.
- Floor to ceiling interior glass façade with operable windows for outside air.
- Seven high-speed elevators controlled by destination dispatch.
- Large freight elevator with direct access to loading dock.
- Expansive triple height atrium attended lobby with digital access control.
- Dedicated lobby space for an anchor tenant can be made available.
- Landlord will construct turnkey installations using residential grade finishes on behalf of an incoming tenant.

A View Unlike Any Other

The breathtaking 27,000-RSF glass dome penthouse that crowns the top of The Refinery. Rising above the iconic yellow "Domino Sugar" sign, this 30' high space makes a dramatic architectural statement and will offer a private tenant amenity club and New York city's most dramatic event venue. One of a kind roof top amenity lounge with panoramic views of Domino Park, the river and Manhattan skyline.

Amenities and Wellness

The Refinery offers a best-in-class variety of on-site amenities. Tenants will have access to a stunning shared amenity floor featuring open workspaces, multiple private conference rooms with advanced technological capabilities and gathering areas for collaboration and private events. With panoramic river views, the amenities are unmatched in New York City.

The building features a dedicated bicycle lobby with a separate entrance, ramp and secure bike parking. Located on the cellar and second floors, The Refinery will house a state-of-the-art 40,000 SF Equinox fitness club with an indoor pool, plunge pool, and full-service gym. The building also features a dedicated bicycle lobby with a separate entrance, ramp and secure bike parking. Collectively, these amenities have been designed to promote the health and wellbeing of The Refinery's tenants and guests.

The Refinery's outdoor plaza offers a direct connection to Domino Park and immediately adjacent to the site is Domino Square, a flexible outdoor venue, taking up a full city block, that will support neighborhood engagement through rotating seasonal offerings as well as a venue for both public and private events.

Greener Than Green:

The Refinery is one of the most sustainable, environmentally responsible office buildings in New York City. With a mechanical system service the office floors that utilizes efficient, all electric VRF air conditioning equipment, the office portion of The Refinery will generate a net-zero carbon footprint. The building is also part of an unprecedented private water reuse system located on the Domino campus. As a result, all of the wastewater generated by The Refinery is treated and reused onsite, diverting polluted water from city outfalls, improving the quality of the East River and reducing stress on the city's burdened infrastructure. These infrastructure investments, combined with the building's efficient design, set The Refinery apart from other office buildings in New York City, making it a true trailblazer and leader in sustainability (LEED Gold accreditation is anticipated).

The Refinery has also been designed to maximize indoor environmental quality (IEQ). Large, operable windows provide access to outside air and lush vertical gardens. In addition, The Refinery's high ceilings, efficient and open floorplates, and floor-to-ceiling glass curtain wall maximize occupants' access to natural light and air.

Incentives

Having an office at The Refinery qualifies companies for numerous financial benefits and incentives, allowing businesses to save millions of dollars. Two Trees' experienced and dedicated team is involved throughout the process and has helped hundreds of businesses apply and get approved for the various programs below.

Relocation Employment Assistance Program (REAP)

\$25

Up to \$25 per Square Foot to Tenants

\$3,000

Annual benefits for each full-time employee

This lucrative as-of-right city program benefits companies relocating to Brooklyn from Manhattan (below 96th St) or outside of NYC, by providing \$3,000 annually for each full-time employee. Eligible companies must sign an office lease for at least a 3-year term and may collect the REAP benefits for up to 12 years. Companies may redeem their REAP benefits as a tax credit against city taxes, however, in the case of start-ups or small business not generating sufficient taxable income, REAP benefits may be collected as a direct payment from the city.

Example: A Manhattan-based company relocates their office with 30 full-time employees from Manhattan to Williamsburg. The asking price for the 5,000 SF office is \$52.00 PRSF, which is \$260,000 in rent a year. Shortly after submitting an annual NYC tax filing, they receive a REAP benefit check from the city for \$90,000 (\$3,000 x 30); thus reducing the rent from \$52.00 PRSF to \$34.00 PRSF and their annual total from \$260,000 to \$170,000.

Commercial Rent Tax (CRT)

Brooklyn office tenants are exempt from the NYC Commercial Rent Tax.

A Green Campus

The Refinery is surrounded by 5 acres of world-class park and open space.

Domino Park

Since opening in 2018, Domino Park has become a world-renowned attraction, hosting nearly 1 million visitors per year. The 5 acre public park pays tribute to the site's history as America's largest sugar refinery. Designed by James Corner Field Operations and built and maintained by Two Trees, the park features a scenic elevated walkway, picnic area, dog run, playground, beach volleyball and bocce courts and Danny Meyer's Tacocina. Tenants of The Refinery will be only steps away from a perfect place to relax, take a break or socialize after work.

Domino Square

A new addition to Domino Park, Domino Square is a 1 acre public plaza and flexible outdoor space. Domino Square will host programming such as farmers markets, community gatherings, summer movie nights, arts and cultural performances and seasonal ice-skating. Domino Square is located immediately to the south of The Refinery, providing tenants with an optimal lunchtime seating area with unparalleled views of the Williamsburg Bridge and the Manhattan skyline.

Refinery Plaza

The West side of The Refinery opens onto a 7,500 SF pedestrian plaza with unobstructed views of Domino Park, the East River and the Manhattan skyline. Beautifully landscaped and generously furnished with seating, this space has been designed as an outdoor amenity for tenants of The Refinery and their clients.

Surrounded by these permanent open spaces, The Refinery will forever benefit from its waterfront location, light and expansive views.

Transforming the Waterfront

For the past decade, Two Trees has been working to execute an ambitious redevelopment of over half a mile of the Williamsburg waterfront, transforming it from an industrial enclave into Brooklyn's most coveted neighborhood. The Refinery is the heart of this transformation.

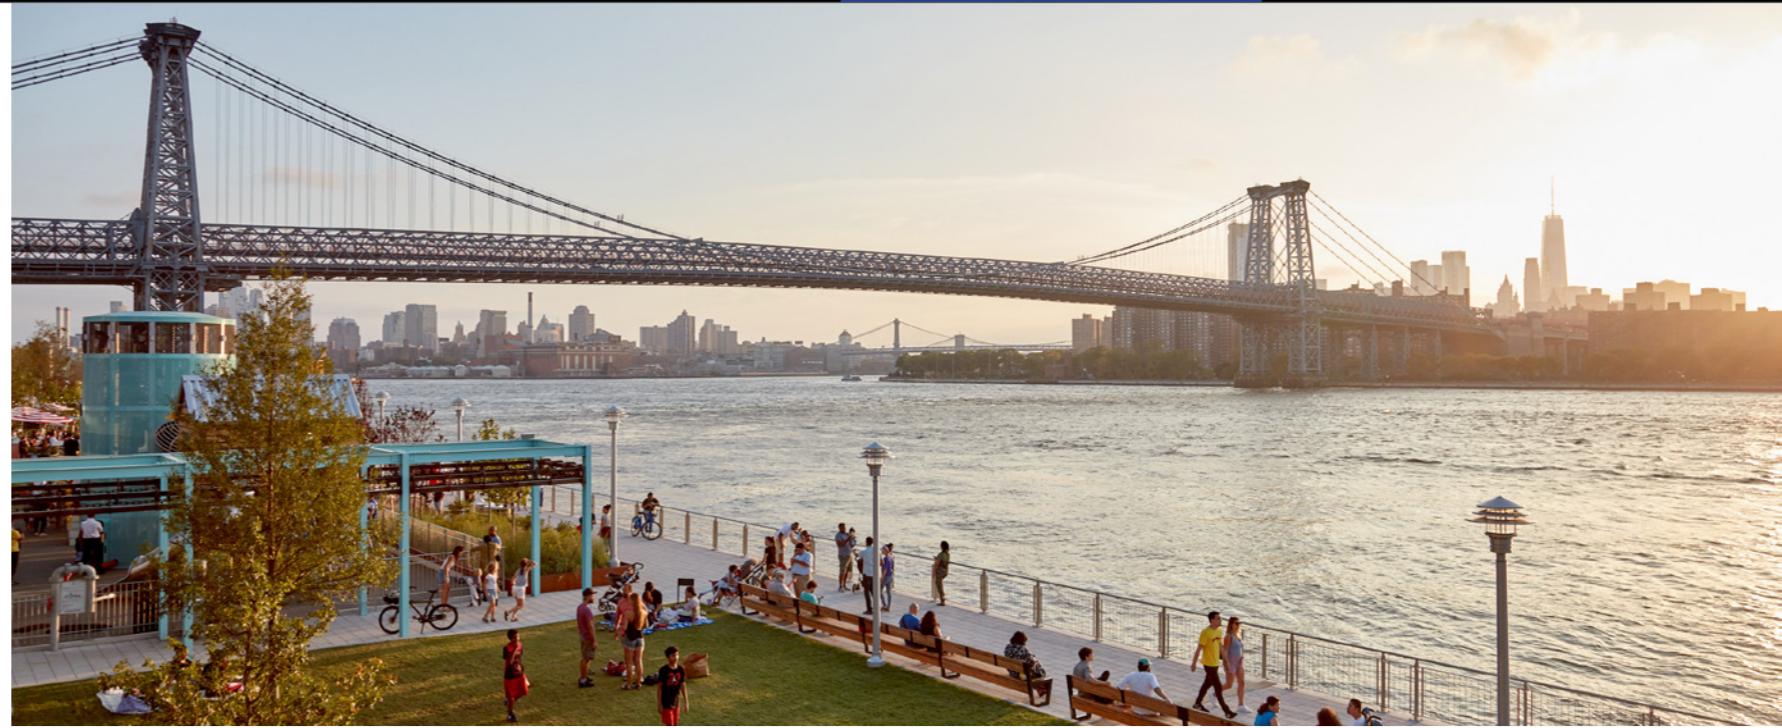

Once complete, the Domino Sugar Project and River Ring Project will collectively include over 4,000 residential units, 10 acres of world-class open space, 700,000 SF of office space and a myriad of independent retailers.

The Domino Sugar Project

With construction complete on the first 900 apartments, 150,000 SF of office space, and the award-winning Domino Park, the area has established itself as Brooklyn's most desirable neighborhood. The remainder of the development is anticipated to be completed by 2027.

The River Ring Project

Building upon the success of the Domino Sugar Project, Two Trees has obtained New York City approval for River Ring: Williamsburg's most innovative waterfront redevelopment located just two blocks north of The Refinery. Set to break ground in 2026, River Ring will be a model for urban waterfront resiliency and transform the way New Yorkers interact with the water. The project is anchored by an extraordinary 4 acre waterfront park that employs leading-edge sustainable design principles to restore and enrich the natural habitat while protecting the adjacent communities from flooding. The park will provide visitors with unprecedented access to the river's ecosystem and the unique ability to enjoy a natural setting that does not exist elsewhere on the Williamsburg waterfront. The buildings will contain over 1,000 housing units, a YMCA with an indoor swimming pool, office space and local retail—expanding what is already a thriving neighborhood.

The Neighborhood

Williamsburg is one of the most influential and unique neighborhoods in New York City. Dynamic and diverse, it is steeped in authenticity and rich history while standing at the forefront of the new. As one of the most sought-after destinations in the city, Williamsburg is home to a vibrant creative community. Our tenants enjoy and appreciate the many celebrated restaurants, independent boutiques and iconic cultural institutions and events.

Transportation and Highlights

The Refinery is ideally situated, making for a seamless commute from anywhere in and around New York City.

Subway

Bus

B32, Q59
Williamsburg Bus Terminal

Ferry

East River ferry to South and North Williamsburg stops.

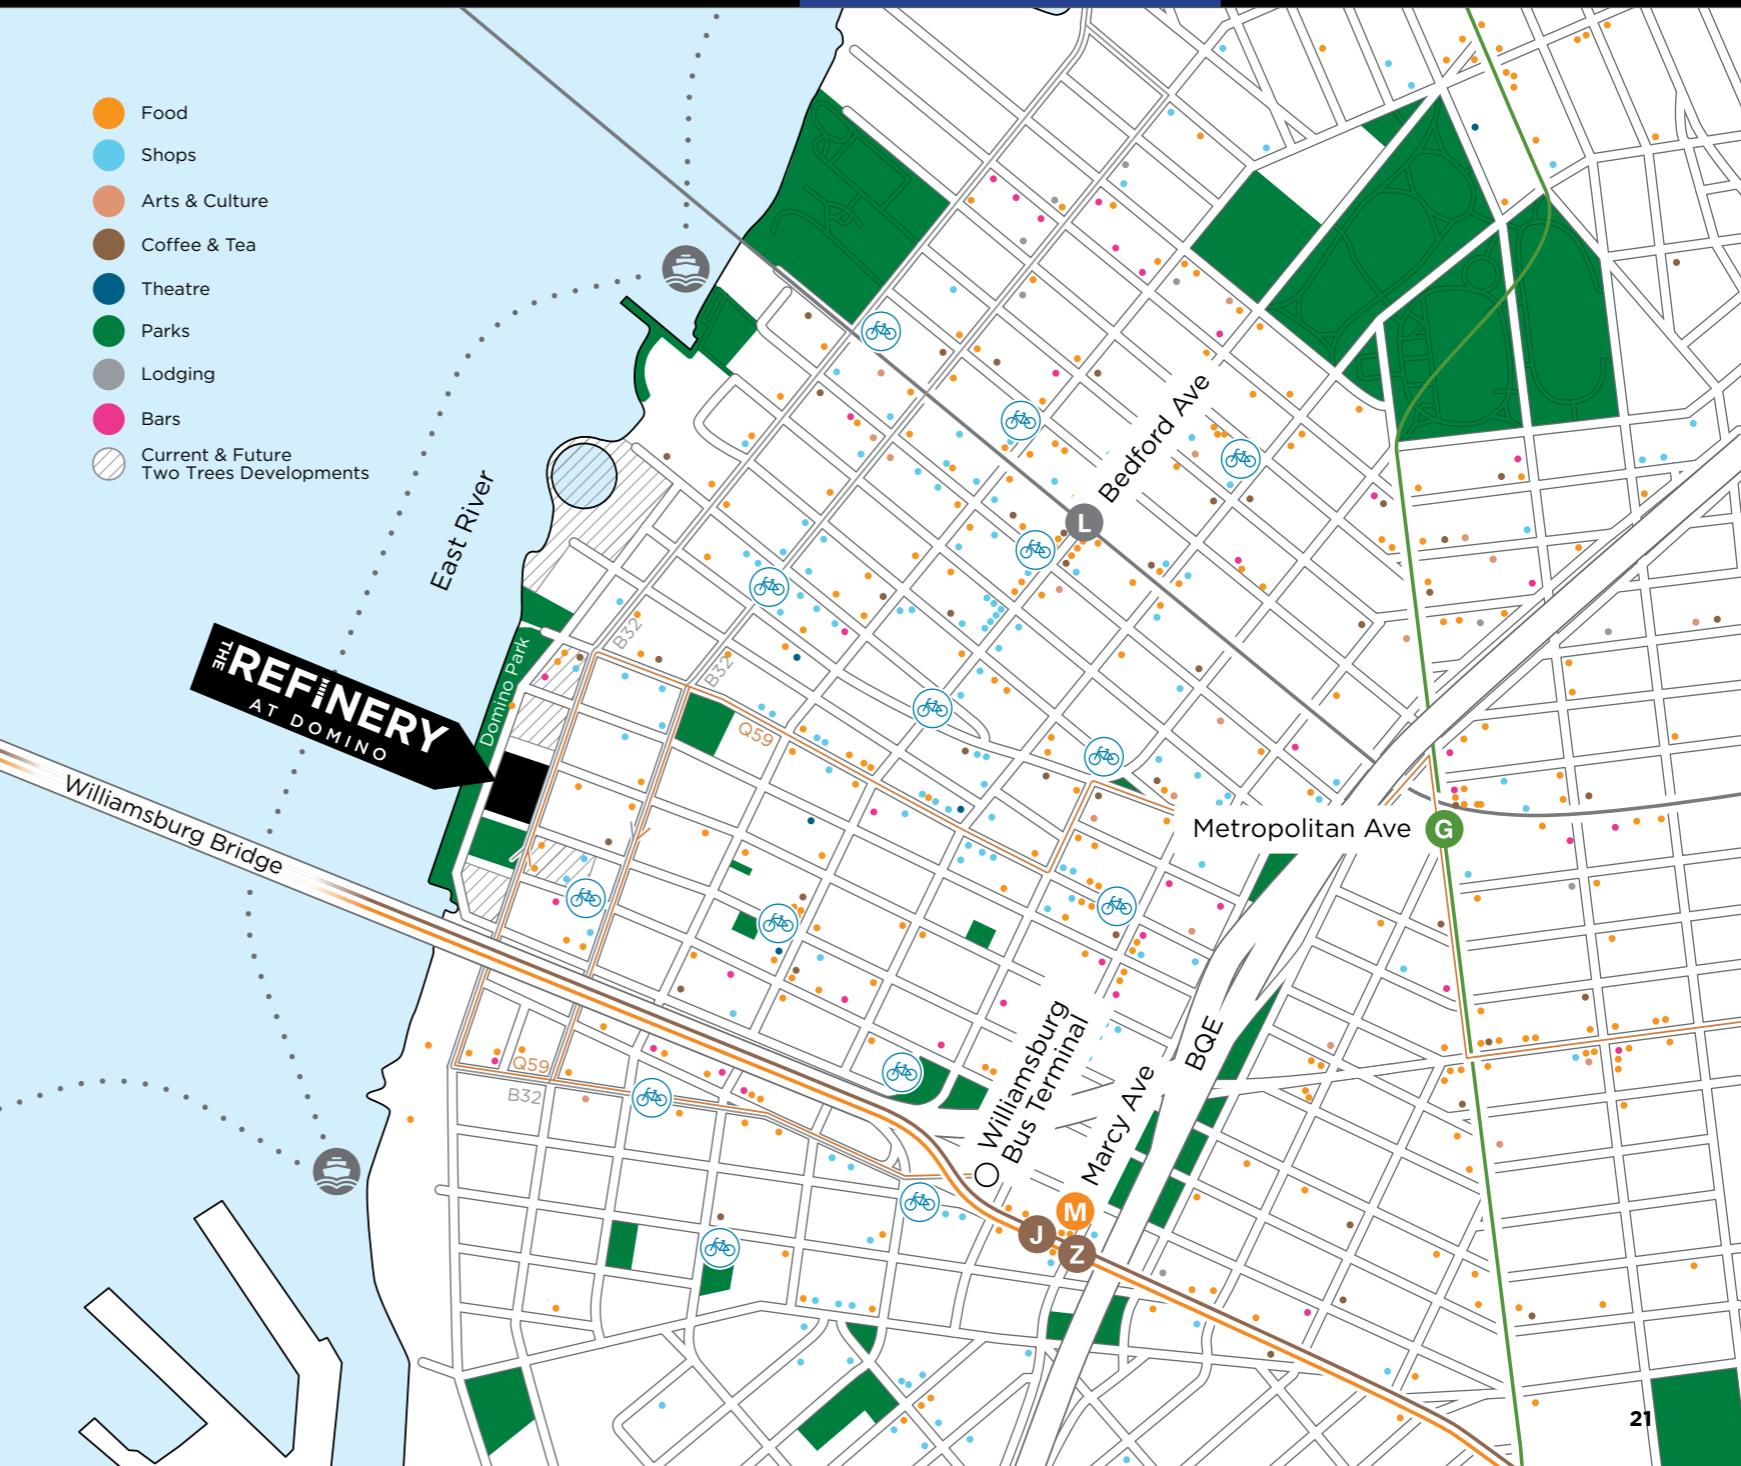

The Domino Sugar Project includes approval for a new ferry dock proximate to The Refinery. Ownership is open to discussing options for ferry service for large anchor tenants.

By Bike

Dedicated bicycle lanes on Kent Avenue and surrounding streets and multiple Citi Bike stations nearby.

By Foot

A short walk to and from the Williamsburg Bridge.
