# NORTH CORRIDOR REROUTE

U.S. 97 is the main north-south highway through the central portion of Oregon, connecting Oregon to California and Washington. U.S. 20 is a primary east-west highway in Oregon. In the Bend area, both highways are primary routes that help local residents commute through town and connect to area shopping, dining, businesses, schools and recreation. The North Corridor Reroute project, which was completed in 2024, included a realignment of U.S. 97, improved intersections, new ramp connections at critical locations to improve local and highway traffic, and pedestrian and bicycle facilities.

These improvements did the following:

- Supported economic vitality
- Reduced traffic volume and speeds at high conflict locations
- Increased freight mobility
- Improved travel time reliability
