POINT *of* INTERSECTION

Gantry Point marks the **intersection** where modern innovation meets the industrial roots of Long Island City. Positioned at the gateway between Manhattan and Queens, it's a pivotal point of connection—linking the energy of the city with the evolving landscape of Long Island. Spanning 240,000 RSF, the building is designed to impress, with light streaming in from all four sides, soaring ceilings that amplify openness, and multiple outdoor terraces that bring fresh air and inspiration. Conveniently located near the Long Island Expressway, just a block from the 7 train and Hunterspoint Avenue LIRR station, Gantry Point offers seamless access to Manhattan, Queens, and beyond. It's built for those who see possibility in every direction.
