- A. Intent. The intent in creating Limited Industrial Districts is to provide areas where light industrial uses may locate, said areas being suited for this purpose due to location, availability of utilities, proximity to transportation facilities and relationship to other land uses, as well as to provide job opportunities and expand the local tax base. This district specifically excludes residences other than a residence of a caretaker of a horse stable for not less than 10 horses to be kept on the premises, on the theory that the mixture of other residential uses and public services and facilities for residences with those for industry is contrary to the purposes of this chapter. **[Amended 6-10-1986 by L.L.
