D. **B-3: General Business District**

1. **Purpose**
The B-3 district is intended primarily for general commercial uses in commercial centers and areas exposed to heavy traffic. These commercial uses are intended to be located on arterials, or within commercial centers of town, and to be provided with adequate public services and facilities. They are subject to the public view and should provide an attractive appearance with landscaping, sufficient parking, and controlled traffic movement. Environmental impacts should be minimized. Abutting residential areas should be protected from potentially negative impacts associated with commercial activity. While B-3 district areas shall continue to meet the need for auto-related and other auto-oriented uses, it is the municipality's intent that the B-3 district also shall provide for safe and convenient personal mobility in other forms. Planning and design shall accommodate pedestrians and bicyclists. In addition to a wide range of commercial office, retail and commercial services, other use categories such as residential and community uses, and mixed-use projects, are allowed.
2. **District-Specific Standards**
- a. **Residential in B-3**
Residential household living uses in the B-3 district shall be subject to the R-4 related FAR provisions in subsection 21.04.020I.2.c. The building height increase of subsection 21.04.020H.2.d. is available to residential household living uses in the B-3 district.
 - b. **Height Increase Permitted**
Buildings in the B-3 district may exceed the maximum height established for areas outside of Midtown in table 21.06-2, up to a maximum height of 60 feet, subject to the following:

Buildings in the B-3 district may exceed the height increase permitted in subsection 2.b. above, up to a maximum height of 75 feet, subject to a conditional use review and the following additional approval criteria:
 - i. The development is within an area designated by the comprehensive plan as a commercial center, town center, or other type of urban center above the neighborhood scale.
 - ii. The building height, massing, and intensity of use is consistent with any applicable area-specific element of the comprehensive plan.
 - iii. The building complies with subsections 21.04.030G.3. and 7., and any additional placement and orientation conditions determined by the conditional use review.
 - d. Mixed-use development in this district shall follow the standards of subsection H. below.
 - 3. **District Location Requirements**
 - a. Establishment of the B-3 district or changes to existing B-3 district boundaries shall meet the general rezoning criteria of this code and shall not be expanded along street corridors or into surrounding neighborhoods unless consistent with the comprehensive plan.
 - b. Future rezonings to B-3 shall take into consideration the desirability of B-3 being located on arterials and being served with adequate public services and facilities.
- E. **RO: Residential Office District**
- 1. **Purpose**
The RO district is intended to provide areas for professional, business, and medical service (outpatient) office uses, or areas with a compatible mix of office and residential uses. The district provides for small- to medium-sized office buildings, often in transition locations between residential areas and more intense commercial uses and road traffic, or in commercial locations inappropriate for auto-oriented retail uses or intense mixed-uses. The district allows multifamily residential, group living, and visitor accommodations.
 - 2. **District-Specific Standards**
 - a. **Limitations on Retail Uses**
Any uses allowed by table 21.05-1 and categorized by this code as "entertainment and recreation," "personal services, repair, and rental," or "food and beverage service" may be located in the RO district only within a building that also contains office, health services, and/or residential uses, except that "food and beverage kiosk" may be located in a stand-alone building on those lots with frontage on a street of collector classification or higher. Such commercial uses shall be limited to 25 percent of the gross floor area of the building. No outdoor storage or merchandise display is allowed.
 - b. **Limitations on Visitor Accommodations**
Any uses categorized by this code as "visitor accommodations" and allowed by table 21.05-1 shall comply with the multifamily residential design standards set forth in subsection 21.07.110C.
